# Brand Intro

Vincentaa specializes in providing a one-stop solutions of art decoration for hospitality projects. We source and produce over 100 different products, no matter what material or process, at Vincentaa, you will always find the art decoration you need for your project.

Most hotels need more than 200 artworks and almost all suppliers are unable to give a comprehensive quote. But Vincentaa can make your purchase easy. Almost all the decorative items you need can be found from us, and 15 years of experience in the industry has given us access to tens of thousands of hotel decorative materials, which has helped us very much in taking orders for hotel projects.

we have professional production, purchasing teams and strict QC system guarantee our quality. To help you complete your project more efficiently, if there is any quality problem or damage in transit, we only replace with new ones freely instead of repairing!

We have also professional installation team, we can go to the site and install it for you, our charges are lower, work are faster and any problems found on site can be solved in time.

We understand that it is very important for contractors to finish the project on time, so we have established a strict and advanced project management system to allow us save 20–30% production time.

**Corporate Mission:**  
Arts for Urban Development

**Corporate Vision:**  
Becoming the world's largest art brand

# Our Services

## 01 Full Artistic Solution

Our project team can provide a full artistic solution for your project according to your requirements and budget, covering any space, any corner of your project, saving your time .

## 02 Original Design

Vincentaa has a team of experienced designers who can provide original designs to suit your requirements, and for some very important sculptures we can design them ourselves and have them approved by you before going into production.

## 03 Design Deepening

Vincentaa's designers can also work with your initial design to improve on it, making it more logical and beautiful.

## 04 3D Design

With a team of 8 international 3D designers, we are able to complete the 3D design of most sculptures within 1-3 days. Efficient and fast 3D design service is one of the most important services in our one-stop service

## 05 Budget Control

According to your project background, we can provide a appropriate solution, better product and within your budget.

## 06 Project Management

Extensive project management experience and a detailed project management process allows us to deliver all projects on time and on target, including some very challenging projects.

## 07: Free sample

We can provide free samples of some products before placing an order, so that you can see the actual product before making a decision

## 08: Global transportation

Our experienced transport merchandising team will transport your goods all over the world

# Project Management

## I Time Management

Many of the projects we undertake have strict time requirements, such as the Victory Park project and the Tashkent Park project in Uzbekistan, which normally take 6 months and 4 months to complete, but due to national government requirements, they must be completed in 3 months and 2 months. As a result, we did a lot of work on the deployment of workers and material resources and co-ordination to complete the projects on time and with quality.

---

## I Quality Control

The high quality of a sculpture project is not achieved by doing a good job in only one area. The design of the sculpture, the choice of workmanship, the variety of materials, the amount of materials used, the skill of the workers and working time amount all combine to determine the quality of a sculpture project, so Vincen-taa controls all of these aspects in order to achieve high quality.

---

## I Risk Management

In order to ensure a smooth project, a risk management team is assigned to each sculpture project, mainly to eliminate factors that could potentially affect production safety and could cause delays. For example, whether daily electricity use is in line with safety regulations, whether protective measures are worn when working at height, and whether ships are booked in advance. The ability to manage various risks is an important part of our strong project management capabilities

# We Understand You Better

The The project schedule is very tight and there are concerns about whether the supplier would be able to complete the project within the specified time frame

At Vincentaa we have very strict Time Management System (TMS) in place to ensure that each production step is carried out in accordance with the production schedule and invite the customer to monitor and communicate with us. We will meet the contractual delivery schedule.

Because of the short deadlines, there is always the fear of quality problems.

The Quality Management System (QCS) has strict requirements and procedures for raw materials, raw material usage, worker skills and labour usage to ensure that all points affecting quality are effectively monitored and implemented according to plan.

The project is too large for one supplier to complete in full within the time frame

We use a combination of permanent staff + temporary workers for our production staff, which can be up to 500–800 people. For production plants, we can add 50,000sqm – 100,000sqm in 1 week and can absorb \$8 million of projects per month.

Worried about suppliers lacking the experience to take on your arge projects ?

Over the past 12 years, Anno has been involved in more than 600 projects, ranging from large corporate five–star hotels to individual villas to the Victory Park project in Uzbekistan. He is experienced enough to cover all lighting projects in the world

# Service Process

Our professional design team has a wealth of experience in art design. With the international vision, we can tailor-make the best and unique artistic solutions for your whole project, according to your project budget, to make your project more artistic and international, thus helping you to add value and make your project more successful.

# Shade

There are many different types of shade that capitalize on the benefits of sun and harsh element protection. Commercial shade structures also add an interesting visual element, enhancing the aesthetics of the outdoor area at any organization, school, community park, pool, or restaurant.

Shade structures come in a variety of shapes with each one designed to meet the demands of intense heat and sun protection. No matter your needs or budget, there is a perfect shade structure out there for you.

But you don't have to go at this alone. Our experts are available to help you choose the right shade structure, color, and shade material to make your outdoor area not only look good, but keep the individuals underneath it protected from the sun.

# Garden Sculpture

Raise your garden game to another level with garden statues and sculptures. Discover our collection of garden decorations that go beyond the traditional garden gnomes. You'll find metal garden ornaments in our range including different kinds of modern sculptures.

# Water Fountain

Whatever style and water movement you prefer, we have it in our range of indoor and outdoor water fountains. Covering new age, ocean, classical, abstract, high-end and more, all tastes are catered for in our wide selection of water fountains. Moreover, we can also produce custom-made designs for customers who have a specific design in mind.

# Interior Decor

Looking for artwork that is perfect for decorating into your home decor? Our range of art work is perfectly suited to decorate into your living room, bedroom, office, or entryway.

All art is handmade here in China with the highest-quality materials and professional printers.

You can trust our craftsmanship and attention to detail
