

One-Stop Art Solution For **Hotel** Projects

— Arts For Urban Development —

Arts For Urban Development

For many travelers, hotels are not just a place to stay for the night. They are more like a destination, a place that feels like home. Nearly 7 in 10 hotel guests want their stay to center around unique experiences. As a result, we can conclude that a unique hotel design can attract guests and bring them extraordinary experiences.

One Stop Art Solution For Hotel Projects

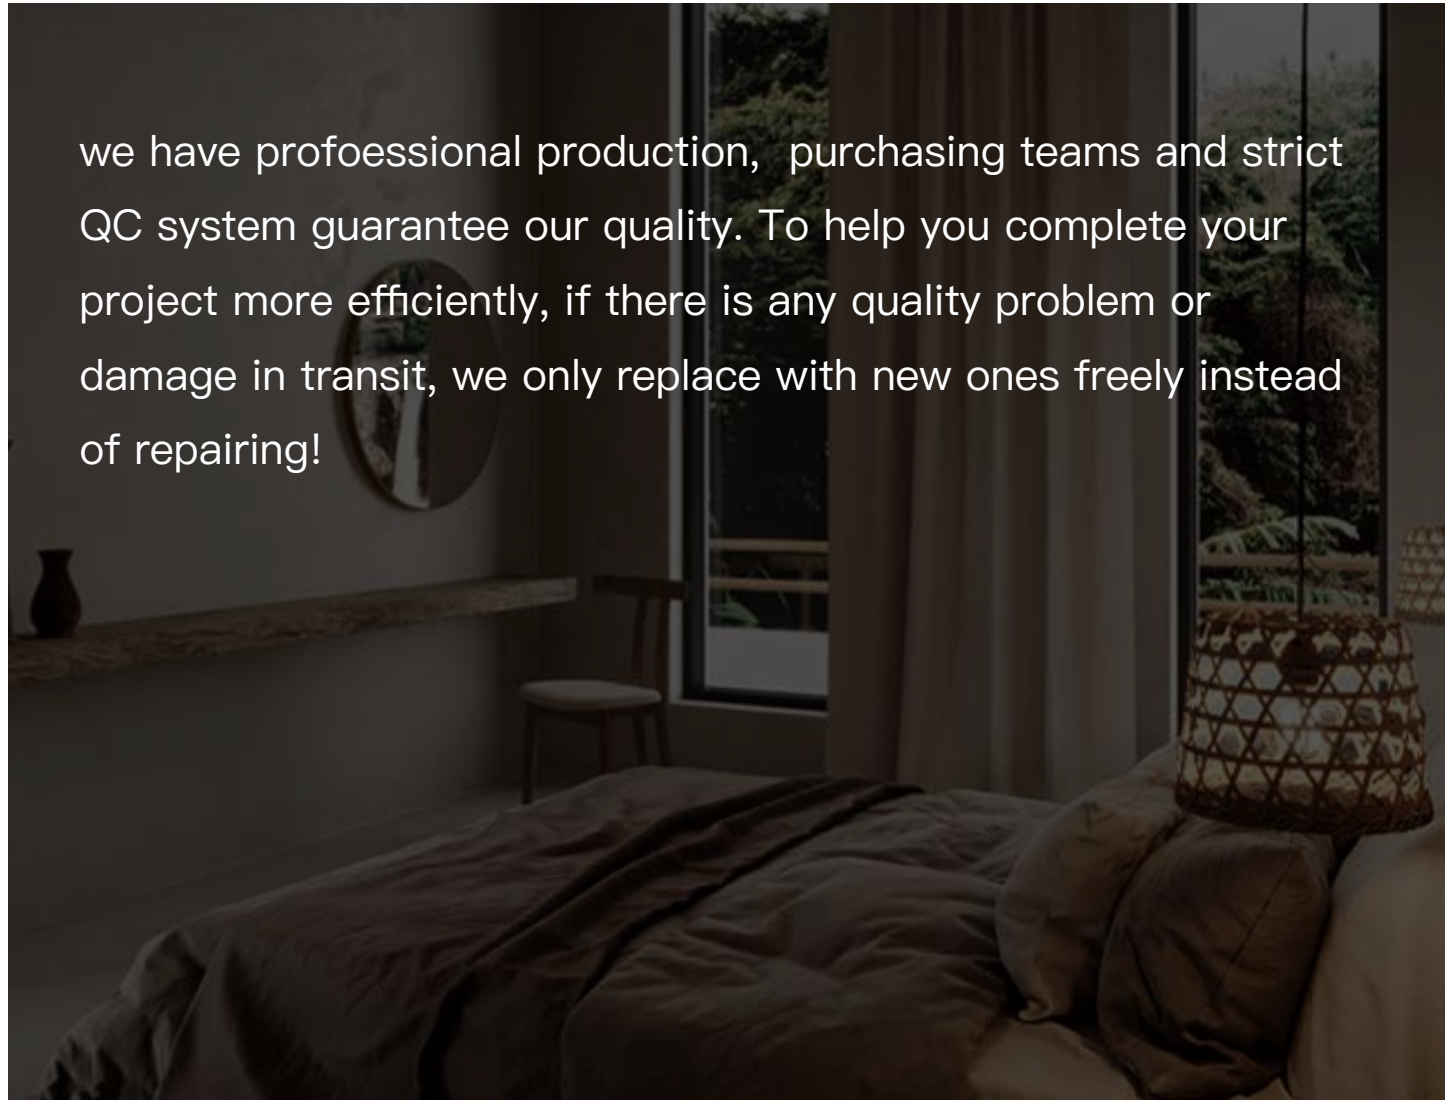

Vincentaa
SCULPTURE ART

Brand Intro

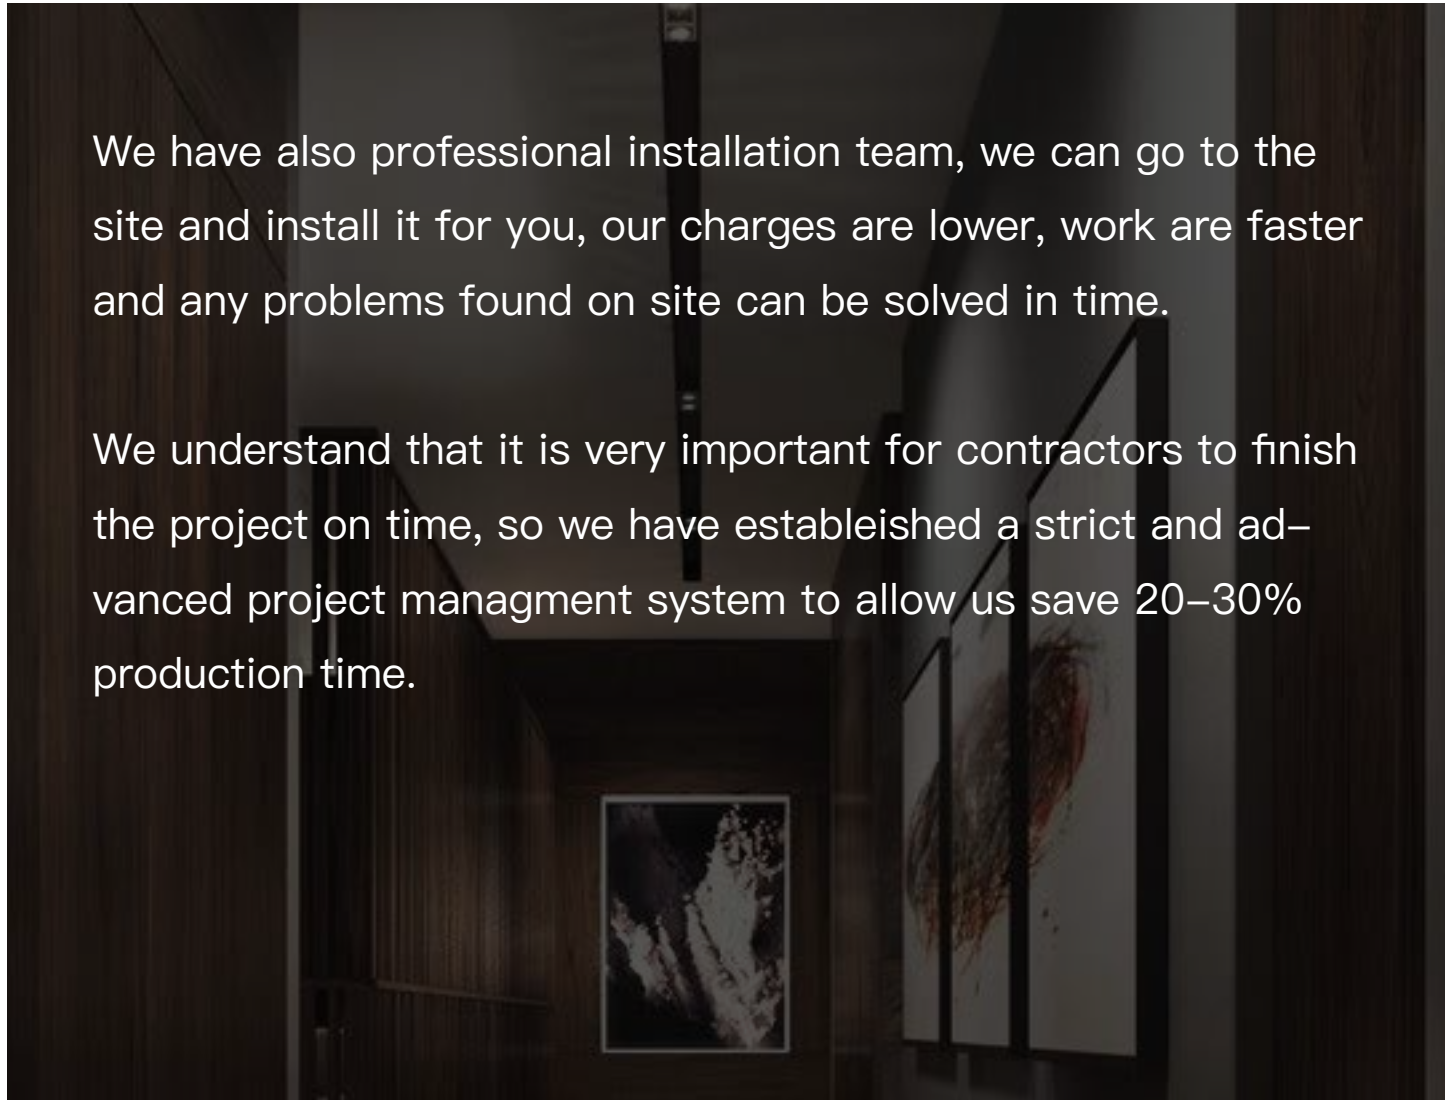

Vincentaa specializes in providing a one-stop solutions of art decoration for hospitality projects. We source and produce over 100 different products, no matter what material or process, at Vincentaa, you will always find the art decoration you need for your project.

Most hotels need more than 200 artworks and almost all suppliers are unable to give a comprehensive quote. But Vincentaa can make your purchase easy. Almost all the decorative items you need can be found from us, and 15 years of experience in the industry has given us access to tens of thousands of hotel decorative materials, which has helped us very much in taking orders for hotel projects.

we have professional production, purchasing teams and strict QC system guarantee our quality. To help you complete your project more efficiently, if there is any quality problem or damage in transit, we only replace with new ones freely instead of repairing!

We have also professional installation team, we can go to the site and install it for you, our charges are lower, work are faster and any problems found on site can be solved in time.

We understand that it is very important for contractors to finish the project on time, so we have established a strict and advanced project management system to allow us save 20-30% production time.

Corporate Mission:
Arts for Urban Development

Corporate Vision:
Becoming the world's largest art brand

*“We are not only making sculptures,
but also committed to make your
space more artistic..”*

Our Services

01 Full Artistic Solution

Our project team can provide a full artistic solution for your project according to your requirements and budget, covering any space, any corner of your project, saving your time .

02 Original Design

Vincentaa has a team of experienced designers who can provide original designs to suit your requirements, and for some very important sculptures we can design them ourselves and have them approved by you before going into production.

03 Design Deepening

Vincentaa's designers can also work with your initial design to improve on it, making it more logical and beautiful.

04 3D Design

With a team of 8 international 3D designers, we are able to complete the 3D design of most sculptures within 1–3 days. Efficient and fast 3D design service is one of the most important services in our one–stop service

05 Budget Control

According to your project background, we can provide a appropriate solution, better product and within your budget.

06 Project Management

Extensive project management experience and a de–tailed project management process allows us to deliver all projects on time and on target, including some very challenging projects.

07 Quality Control

From sculpture design, production planning, model making, raw material sourcing and all stages of production, we strictly control all aspects of quality control.

08 Global Transport

Our experienced transport merchandising team will transport your goods all over the world

09 Global Installation

Our team can do the installation for you on site, we have a team of 20 installers who can come and install in whatever country you are in, saving you manpower and resources, our charges are lower and installation is faster

◀ Project Management

| Time Management

Many of the projects we undertake have strict time requirements, such as the Victory Park project and the Tashkent Park project in Uzbekistan, which normally take 6 months and 4 months to complete, but due to national government requirements, they must be completed in 3 months and 2 months. As a result, we did a lot of work on the deployment of workers and material resources and co-ordination to complete the projects on time and with quality.

| Quality Control

The high quality of a sculpture project is not achieved by doing a good job in only one area. The design of the sculpture, the choice of workmanship, the variety of materials, the amount of materials used, the skill of the workers and working time amount all combine to determine the quality of a sculpture project, so Vincentaa controls all of these aspects in order to achieve high quality.

| Risk Management

In order to ensure a smooth project, a risk management team is assigned to each sculpture project, mainly to eliminate factors that could potentially affect production safety and could cause delays. For example, whether daily electricity use is in line with safety regulations, whether protective measures are worn when working at height, and whether ships are booked in advance. The ability to manage various risks is an important part of our strong project management capabilities

We Understand You Better

The The project schedule is very tight and there are concerns about whether the supplier would be able to complete the project within the specified time frame

Vincentaa we have very strict Time Management System (TMS) in place to ensure that each production step is carried out in accordance with the production schedule and invite the customer to monitor and communicate with us. We will meet the contractual delivery schedule.

Because of the short deadlines, there is always the fear of quality problems.

The Quality Management System (QCS) has strict requirements and procedures for raw materials, raw material usage, worker skills and labour usage to ensure that all points affecting quality are effectively monitored and implemented according to plan.

The project is too large for one supplier to complete in full within the time frame

We use a combination of permanent staff + temporary workers for our production staff, which can be up to 500–800 people. For production plants, we can add 50,000sqm – 100,000sqm in 1 week and can absorb \$8 million of projects per month.

Worried about suppliers lacking the experience to take on your arge projects ?

Over the last 12 years Vincentaa has undertaken 600+ projects of all sizes, from national governments (State Government of Uzbekistan), large corporations (Sberbak, the largest bank in Russia, and 5 star hotels), art galleries and artists. Experienced enough to cover all sculpture projects worldwide

Service Process

Our professional design team has a wealth of experience in art design. With the international vision, we can tailor-make the best and unique artistic solutions for your whole project, according to your project budget, to make your project more artistic and international, thus helping you to add value and make your project more successful.

One Stop Art Solution For Hotel Projects

Q1 Wall Art Decor

If you're looking to add a pop of color to your walls, our collection of stylish wall arts are sure to impress.

Our products are carefully crafted from high-quality materials and are designed to elevate your hotel to the next level.

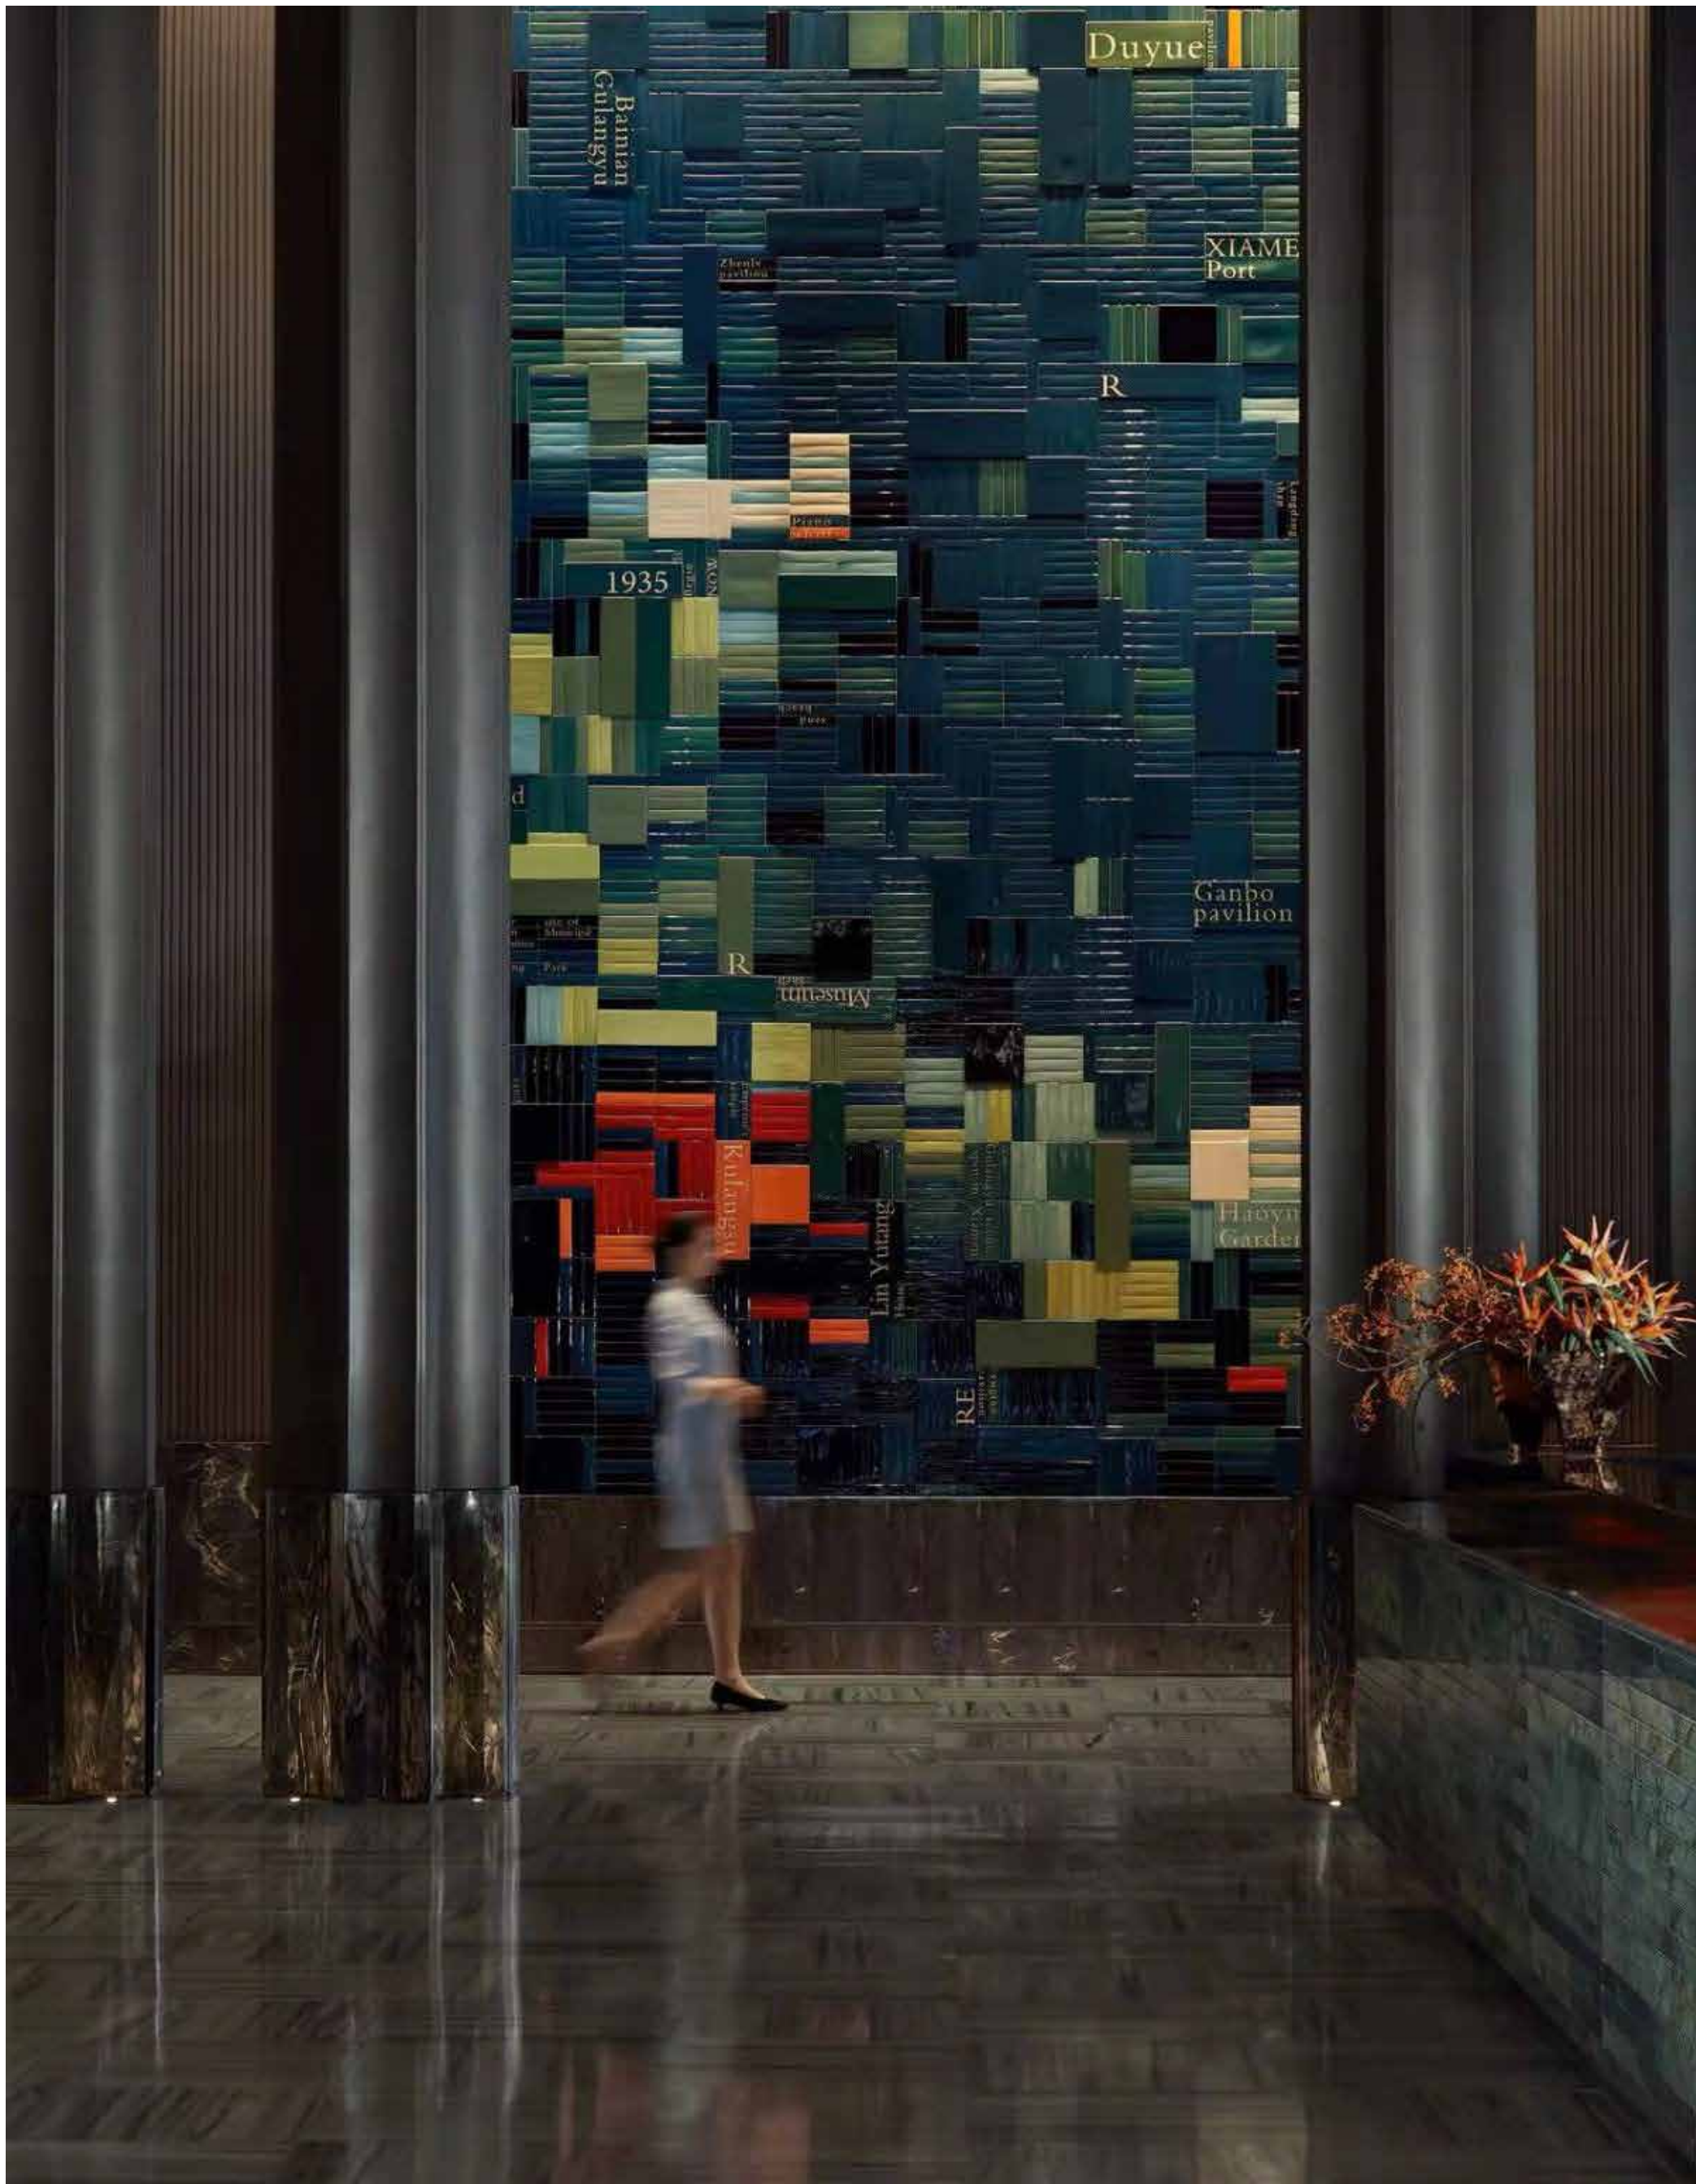

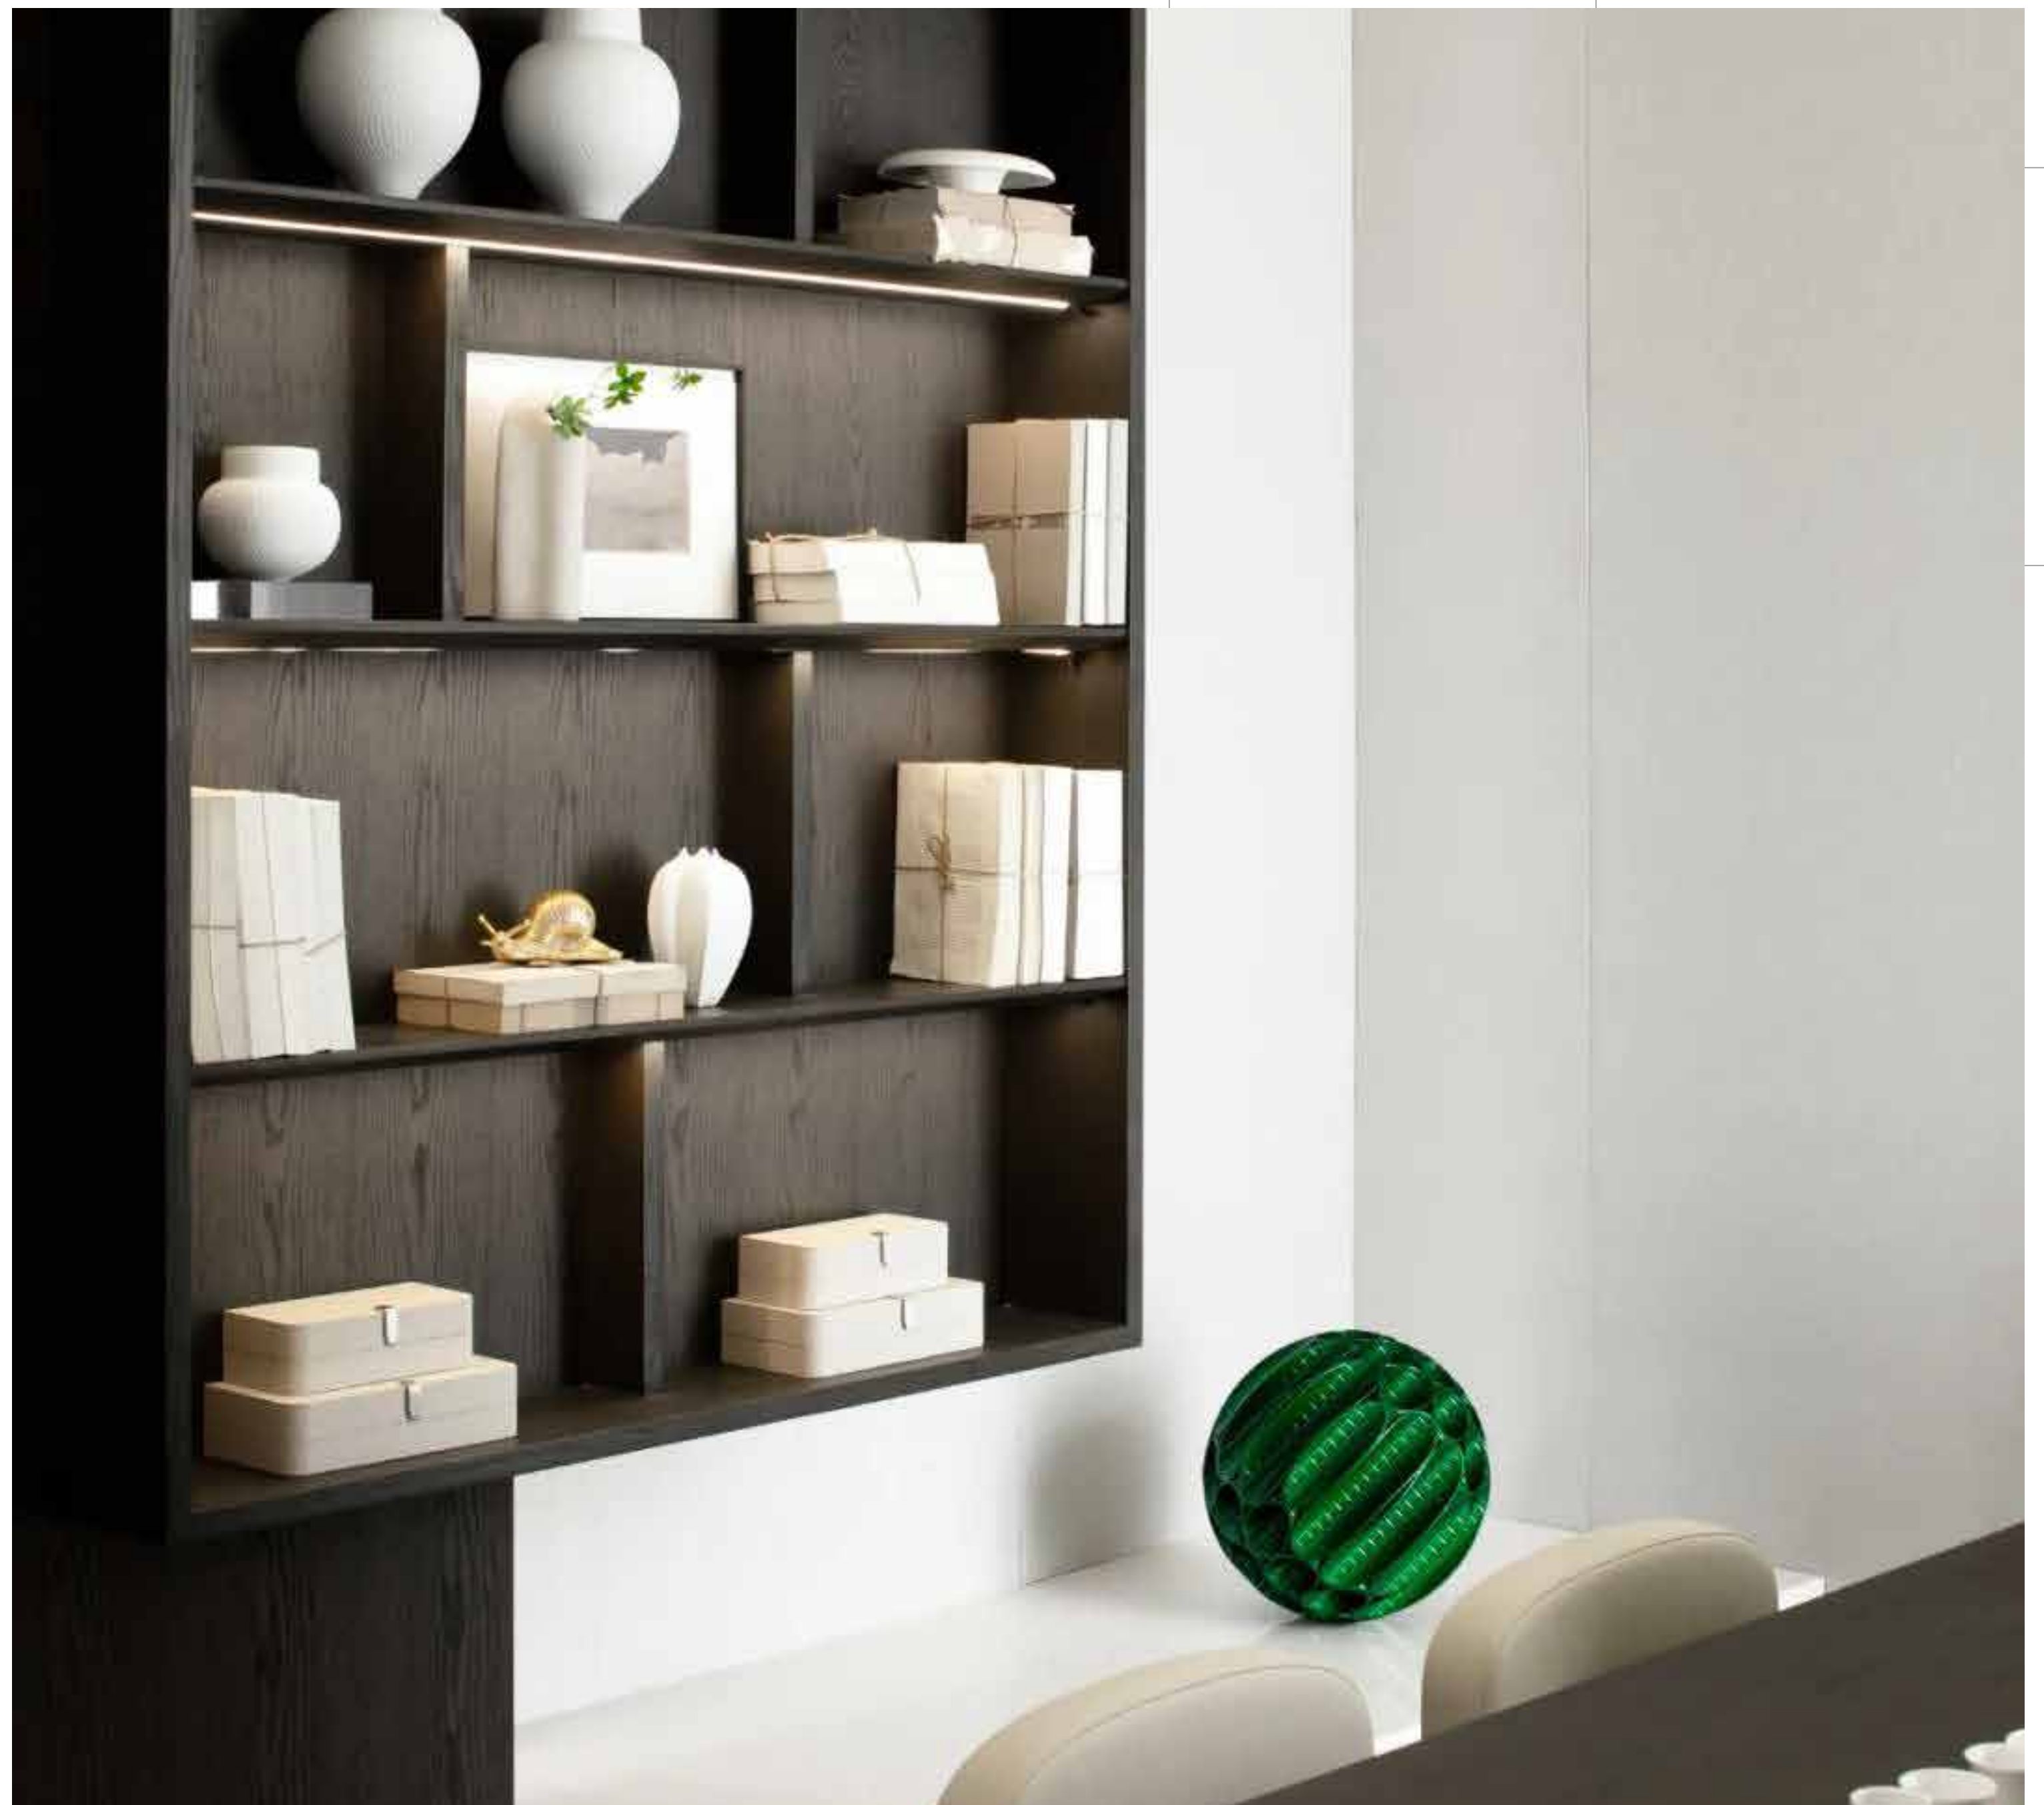

02

Table Top Decor

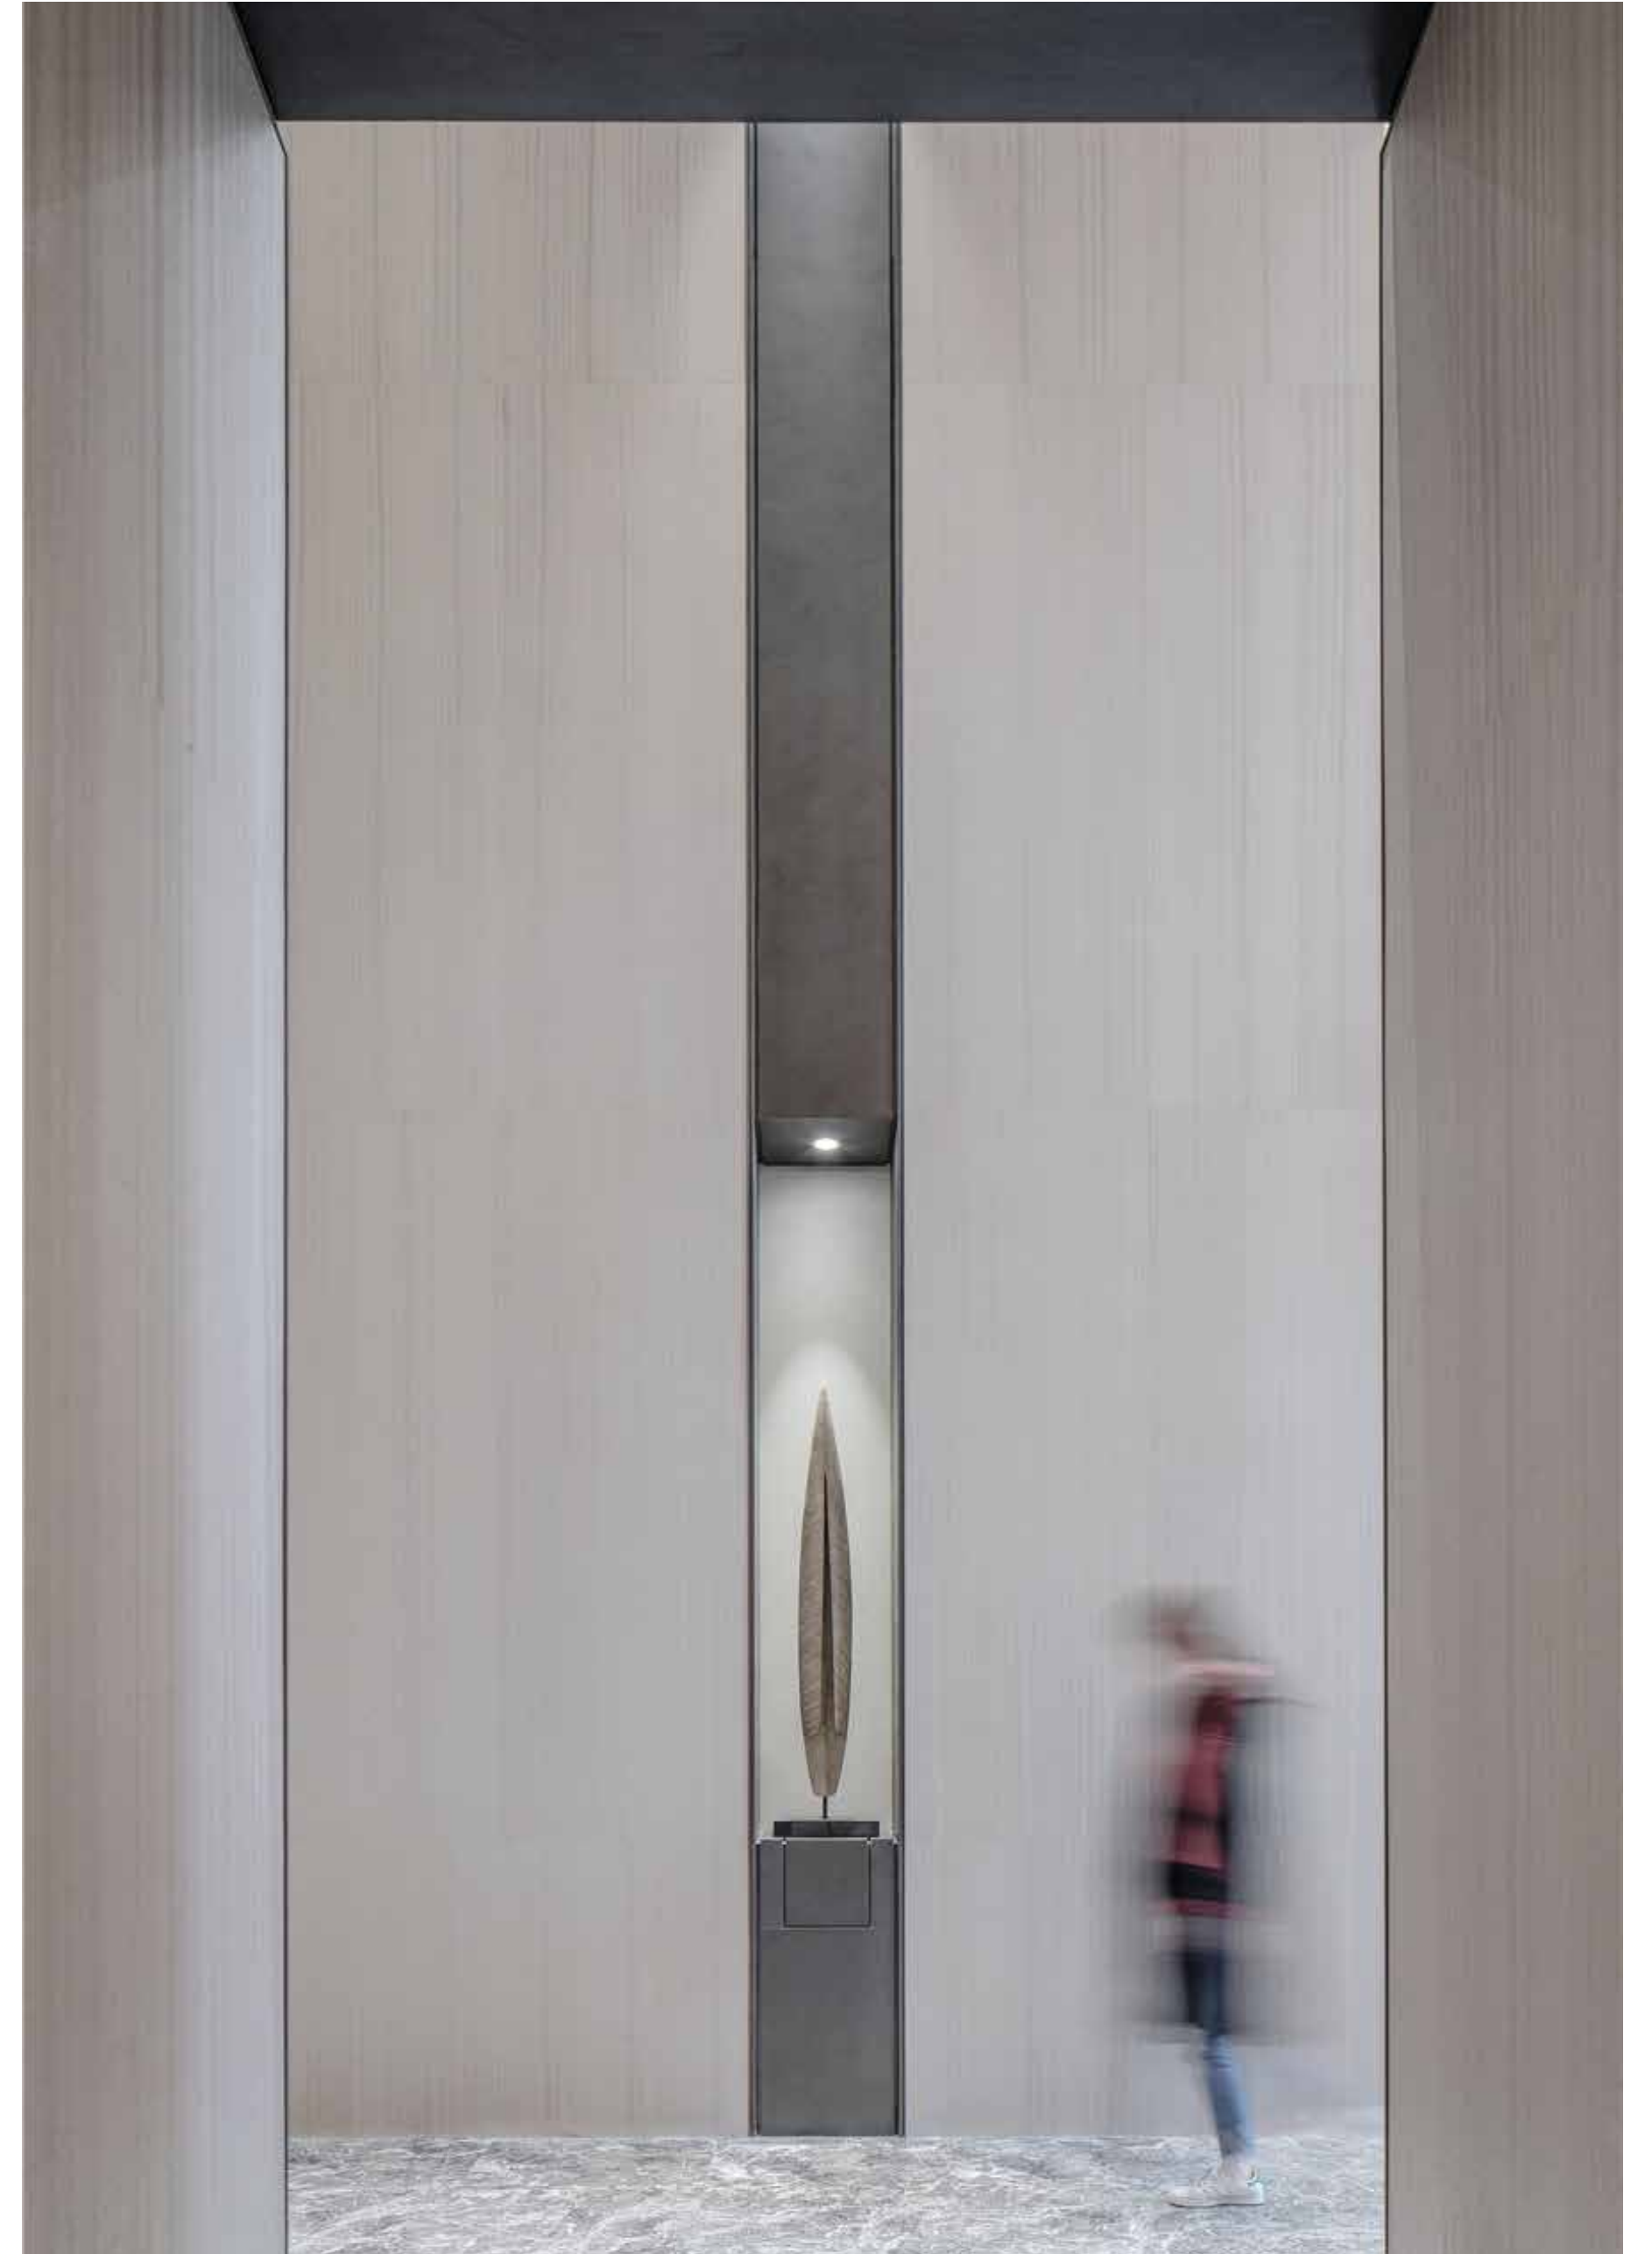

Modern art elevates your desktop. Our tabletop pieces allow you to appreciate the subtle movements and natural changes that make each of these contemporary sculptural objects unique.

Mix the sizes for an interesting contrast. Expect pleasing natural variations in different material tones and textures.

03 Floor Sculpture

Floor sculpture is an essential part of the hotel.

It will be needed in the lobby and corridor of the hotel. With diverse styles and rich materials,

it will be one of the most attractive attractions of your hotel

One-Stop Art Solution
For Hotel Projects

One-stop art service

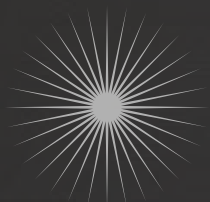

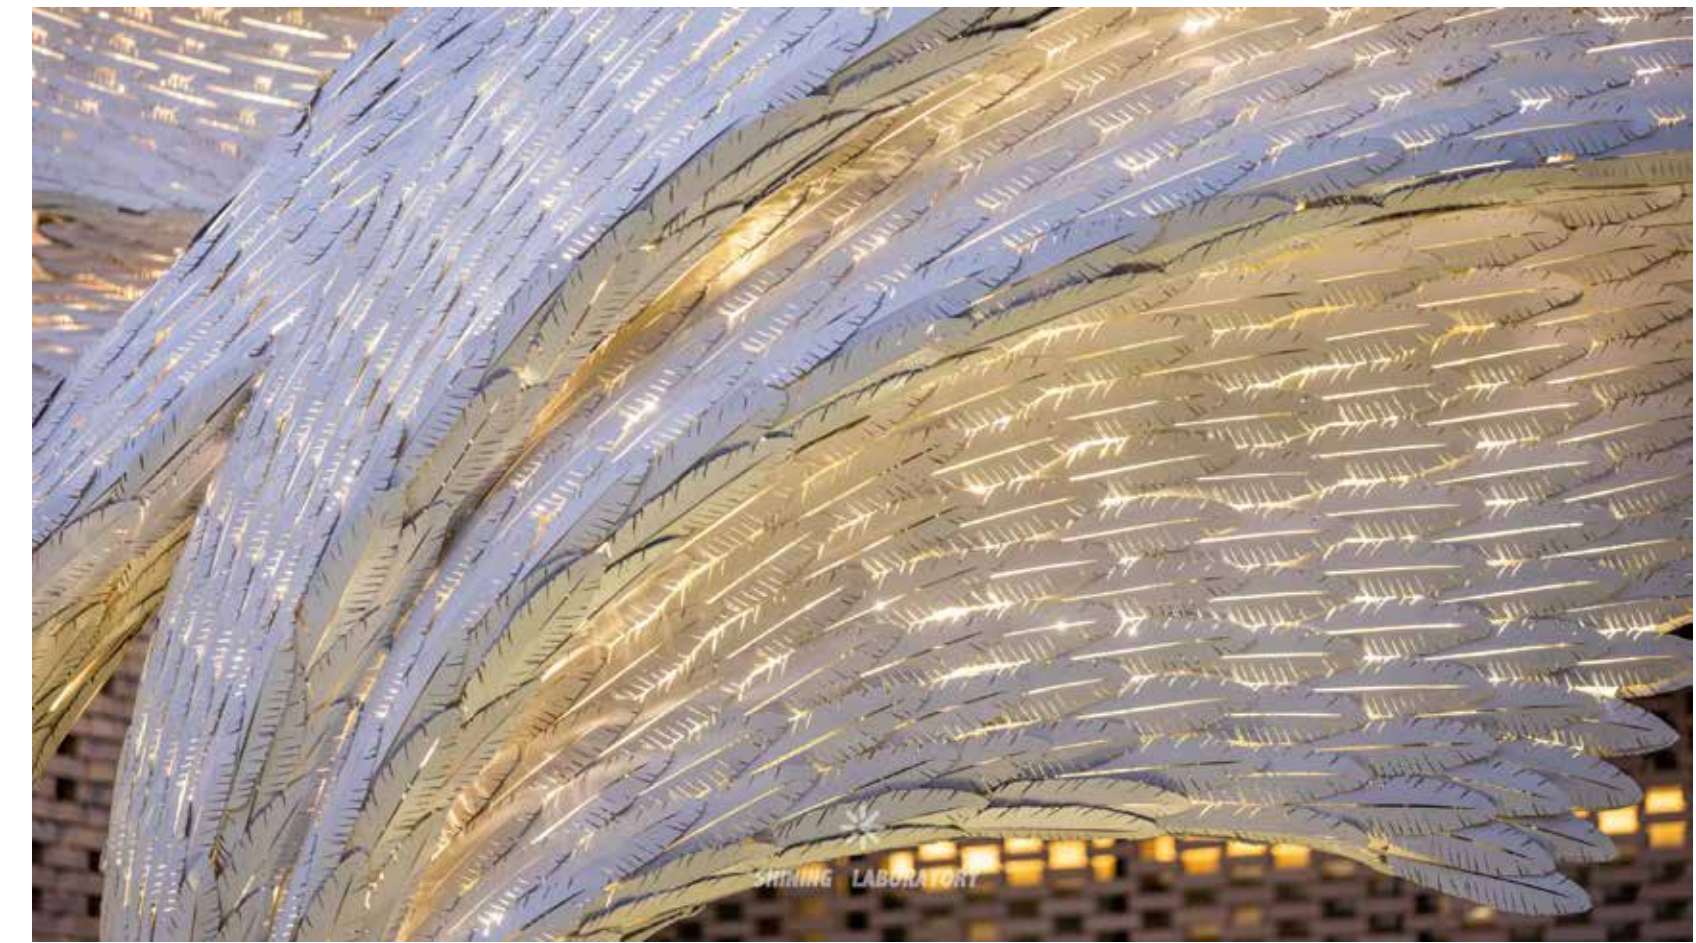

Garden Sculpture

Garden sculpture, especially entrance sculpture draws adoration from passers-by and guests with his monumental scale and presence. It is the most important part of the hotel, determining whether customers are willing to stay in your hotel for a long time and whether they are willing to live in your hotel again

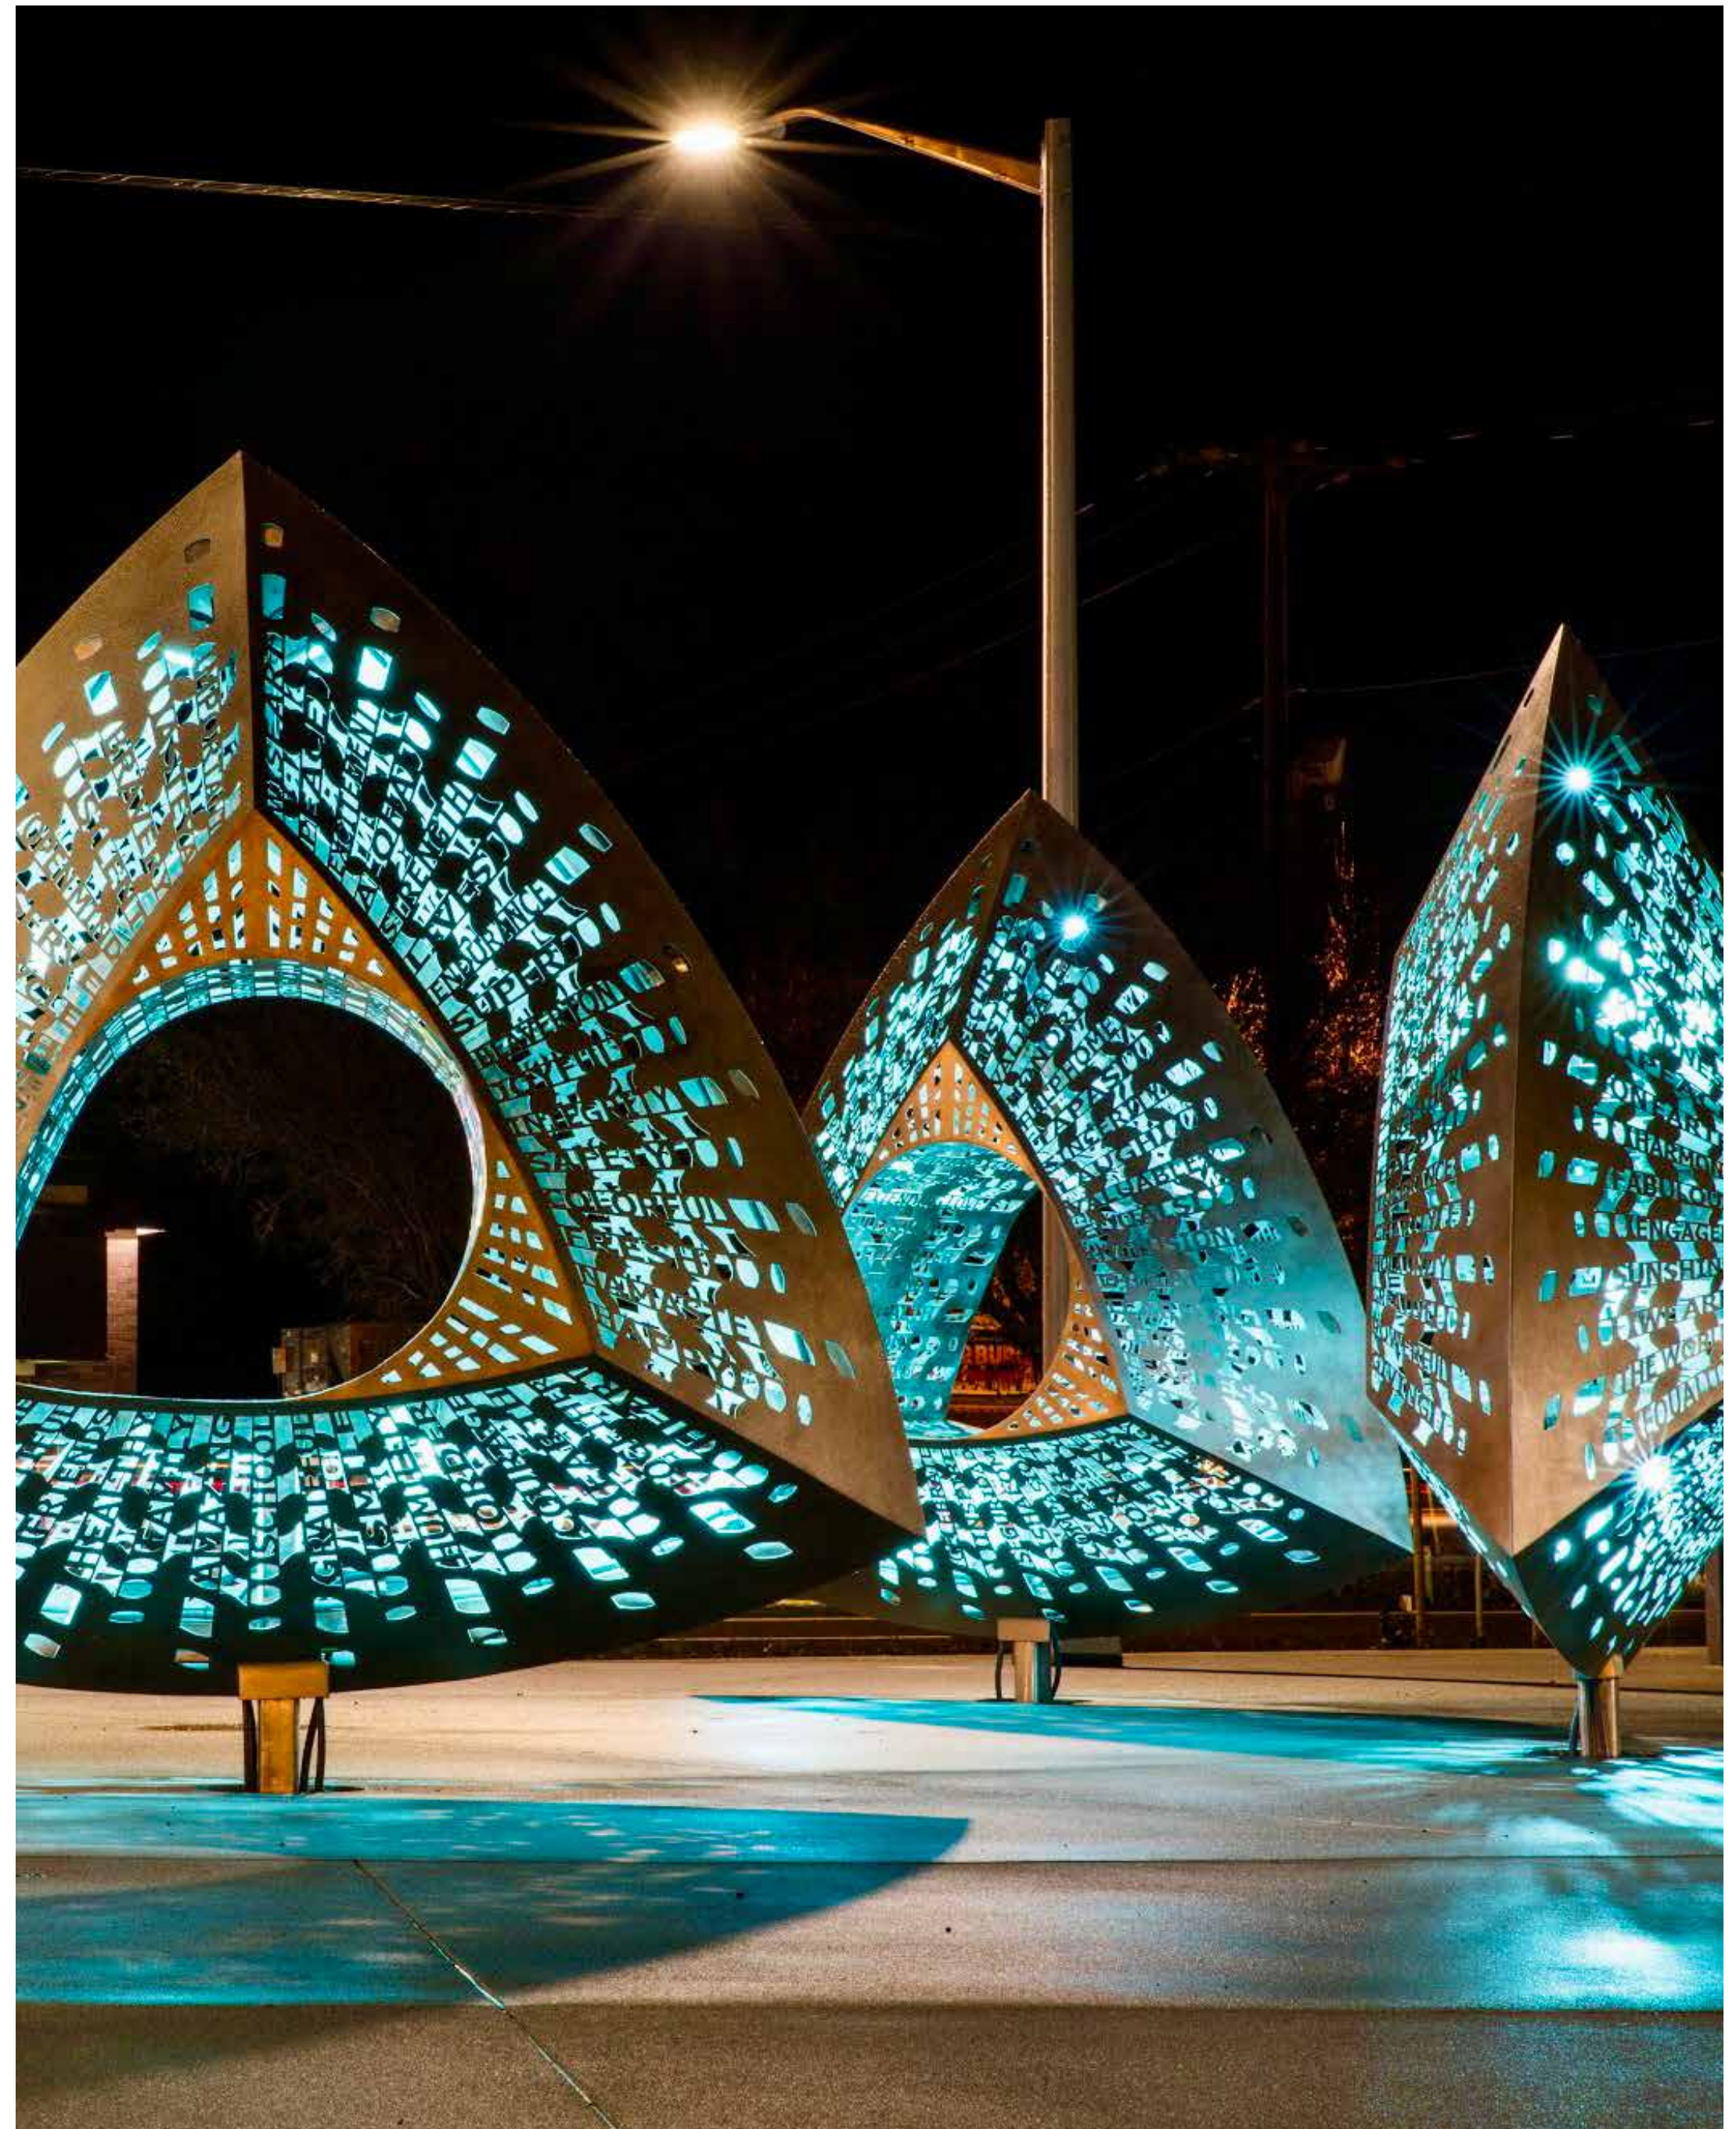

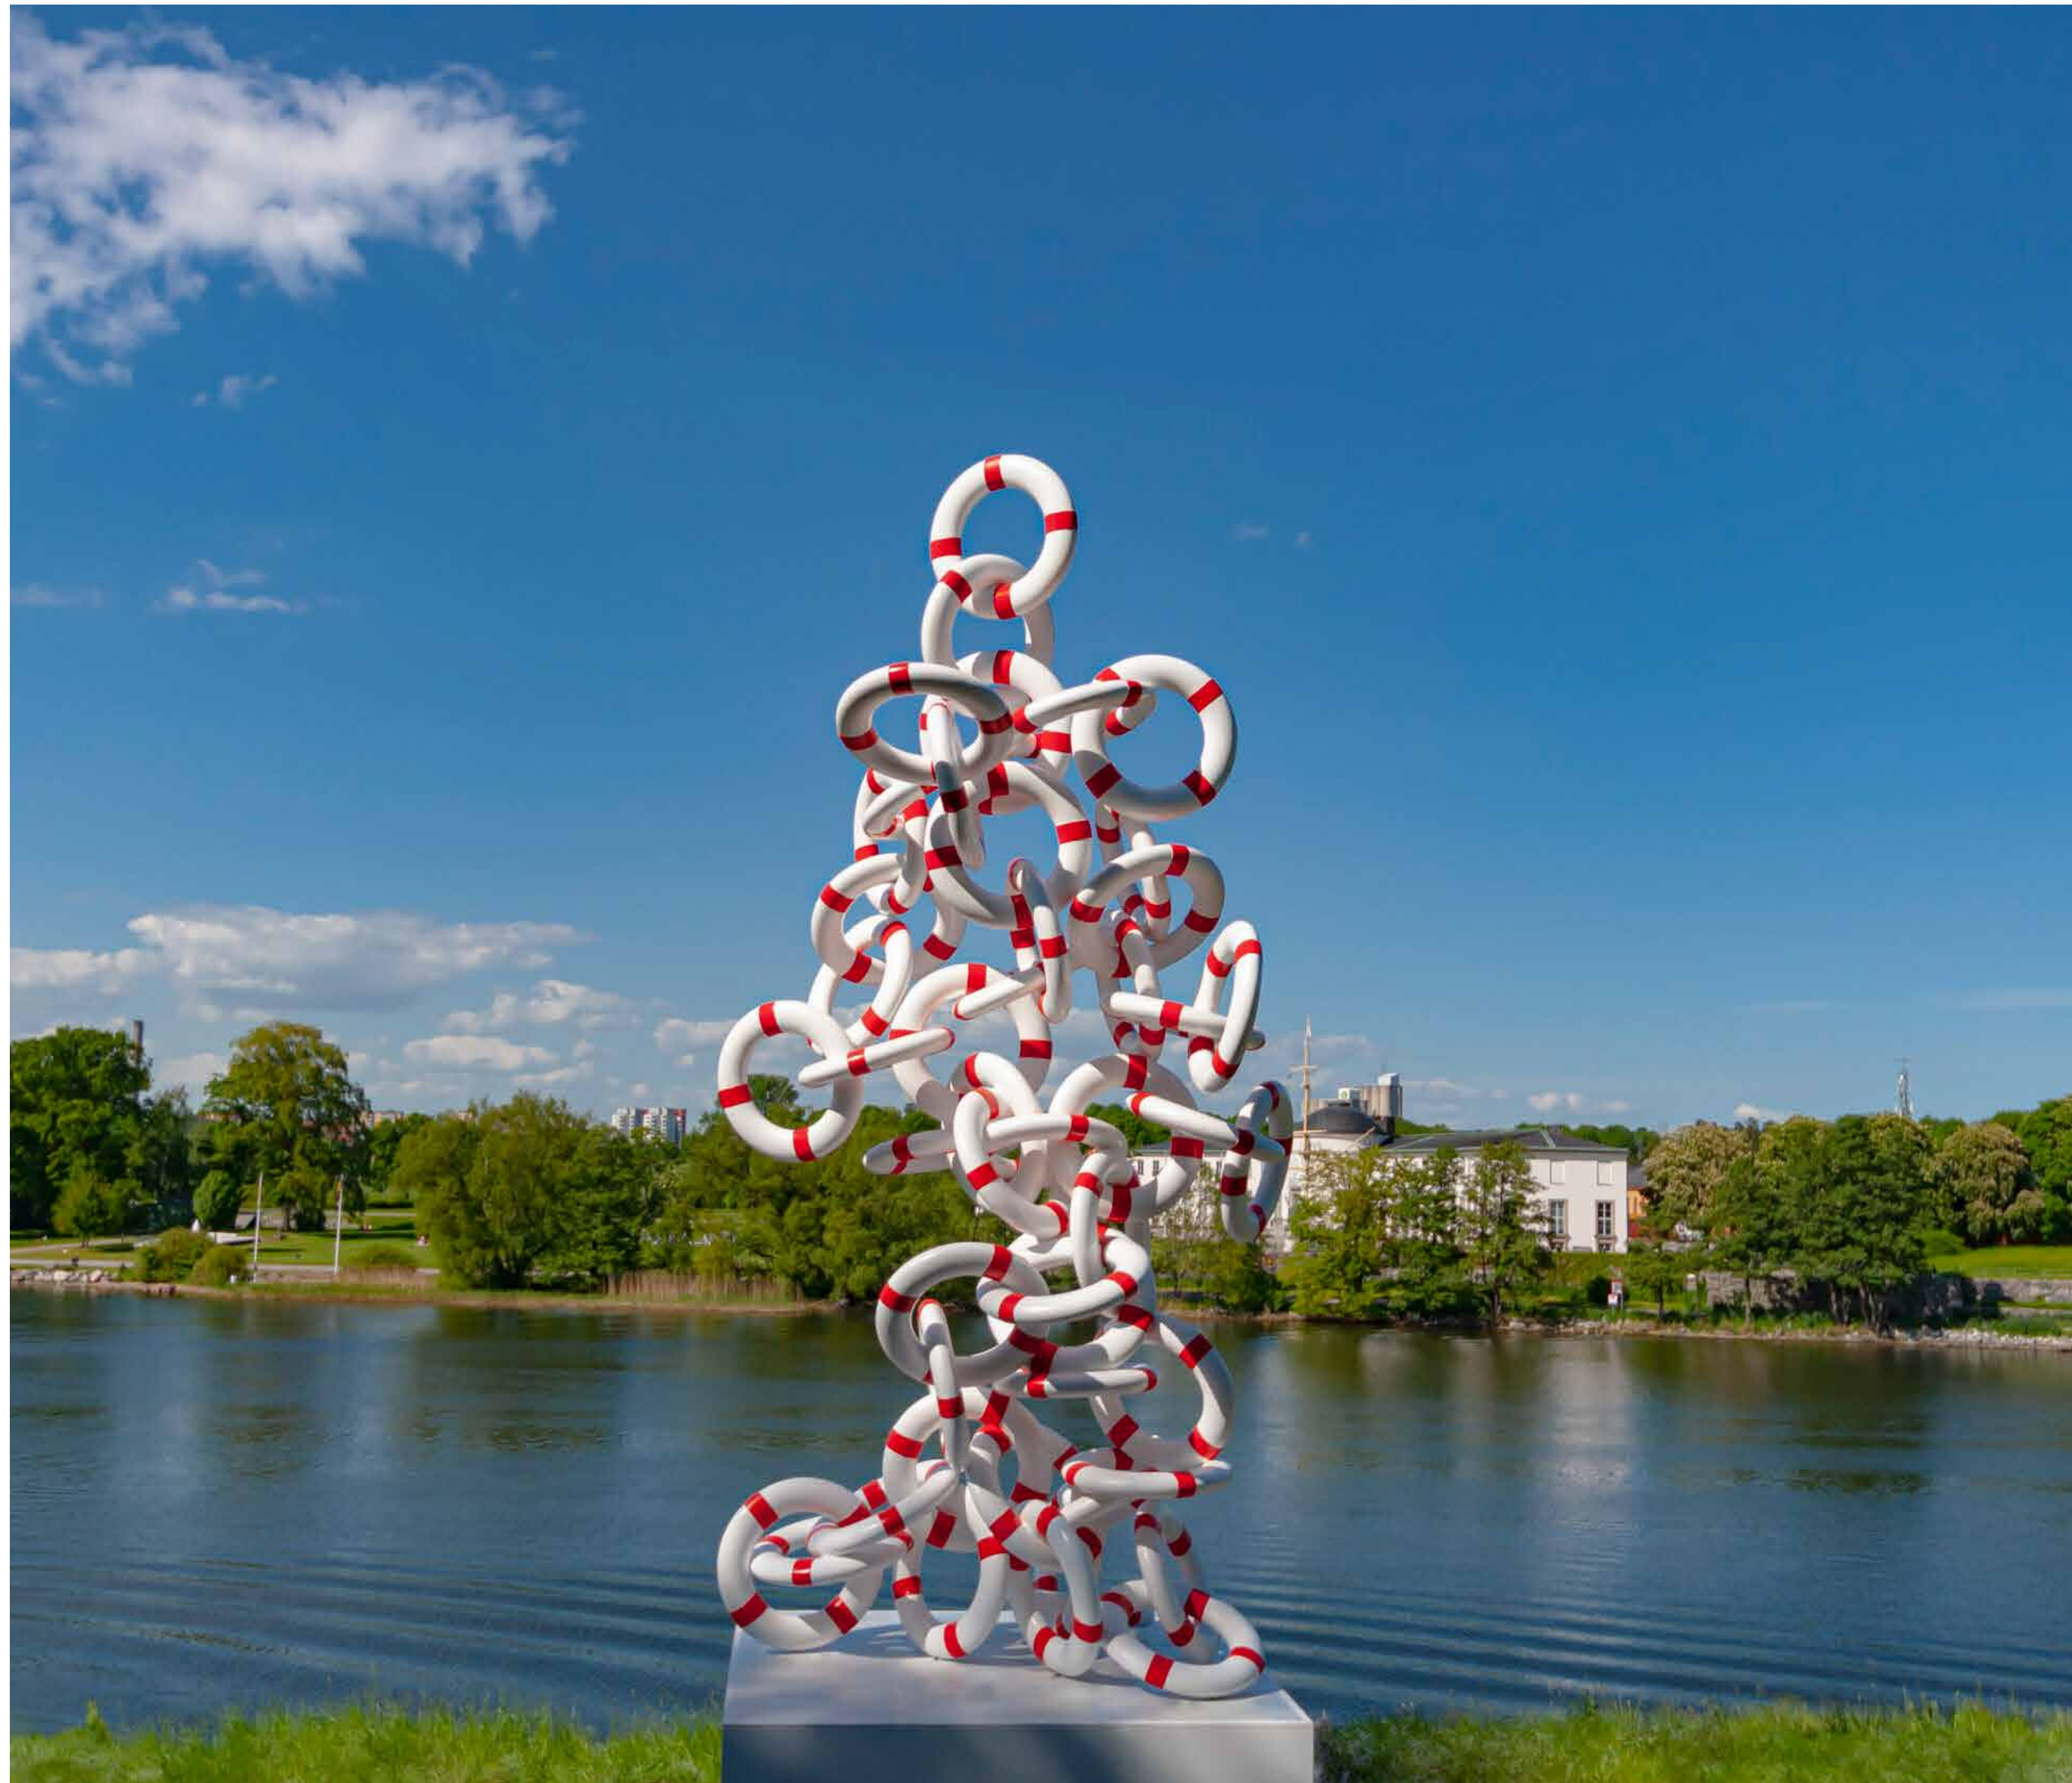

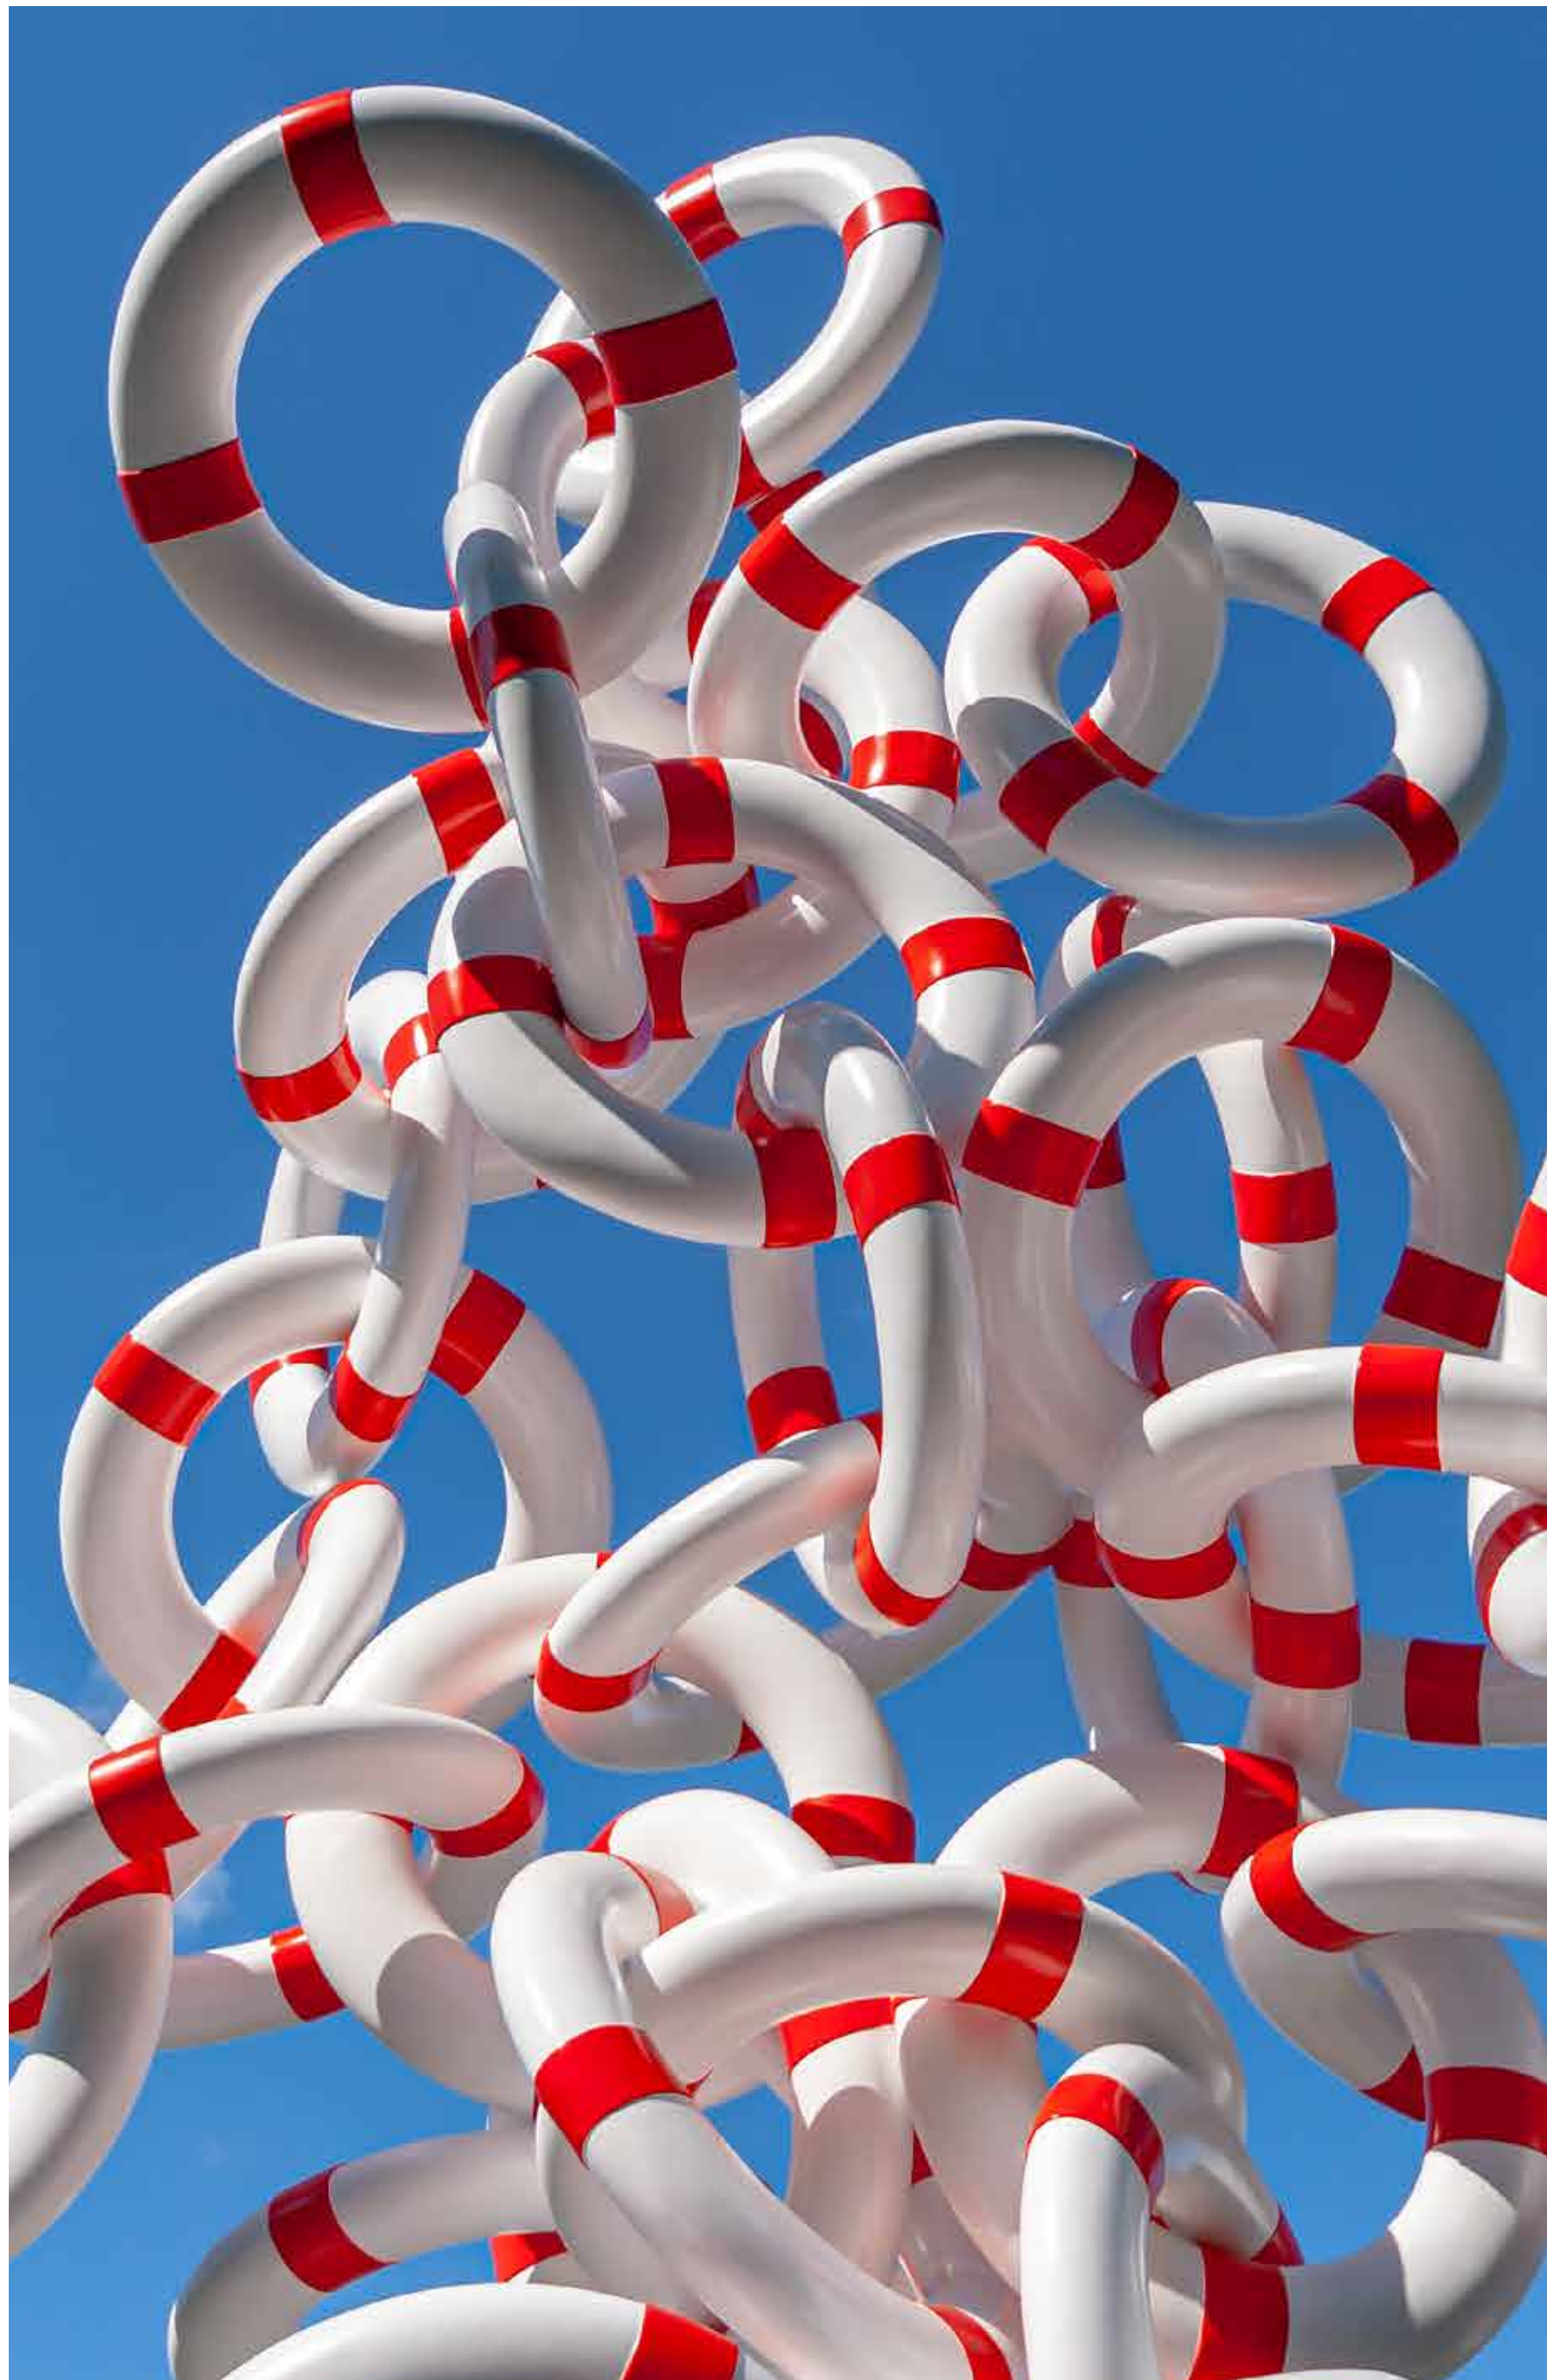

Stainless steel sculptures are very popular in modern public art due to their attractive finishing and flexible fabrication. Compared with other metal sculptures, stainless steel sculptures are more suitable to decorate the places with modern style, including outdoor garden, plaza, shopping mall and hotel decoration, because of their unique ability to resist corrosion and heat damage.

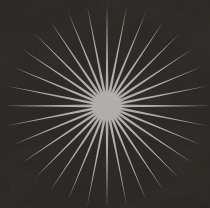

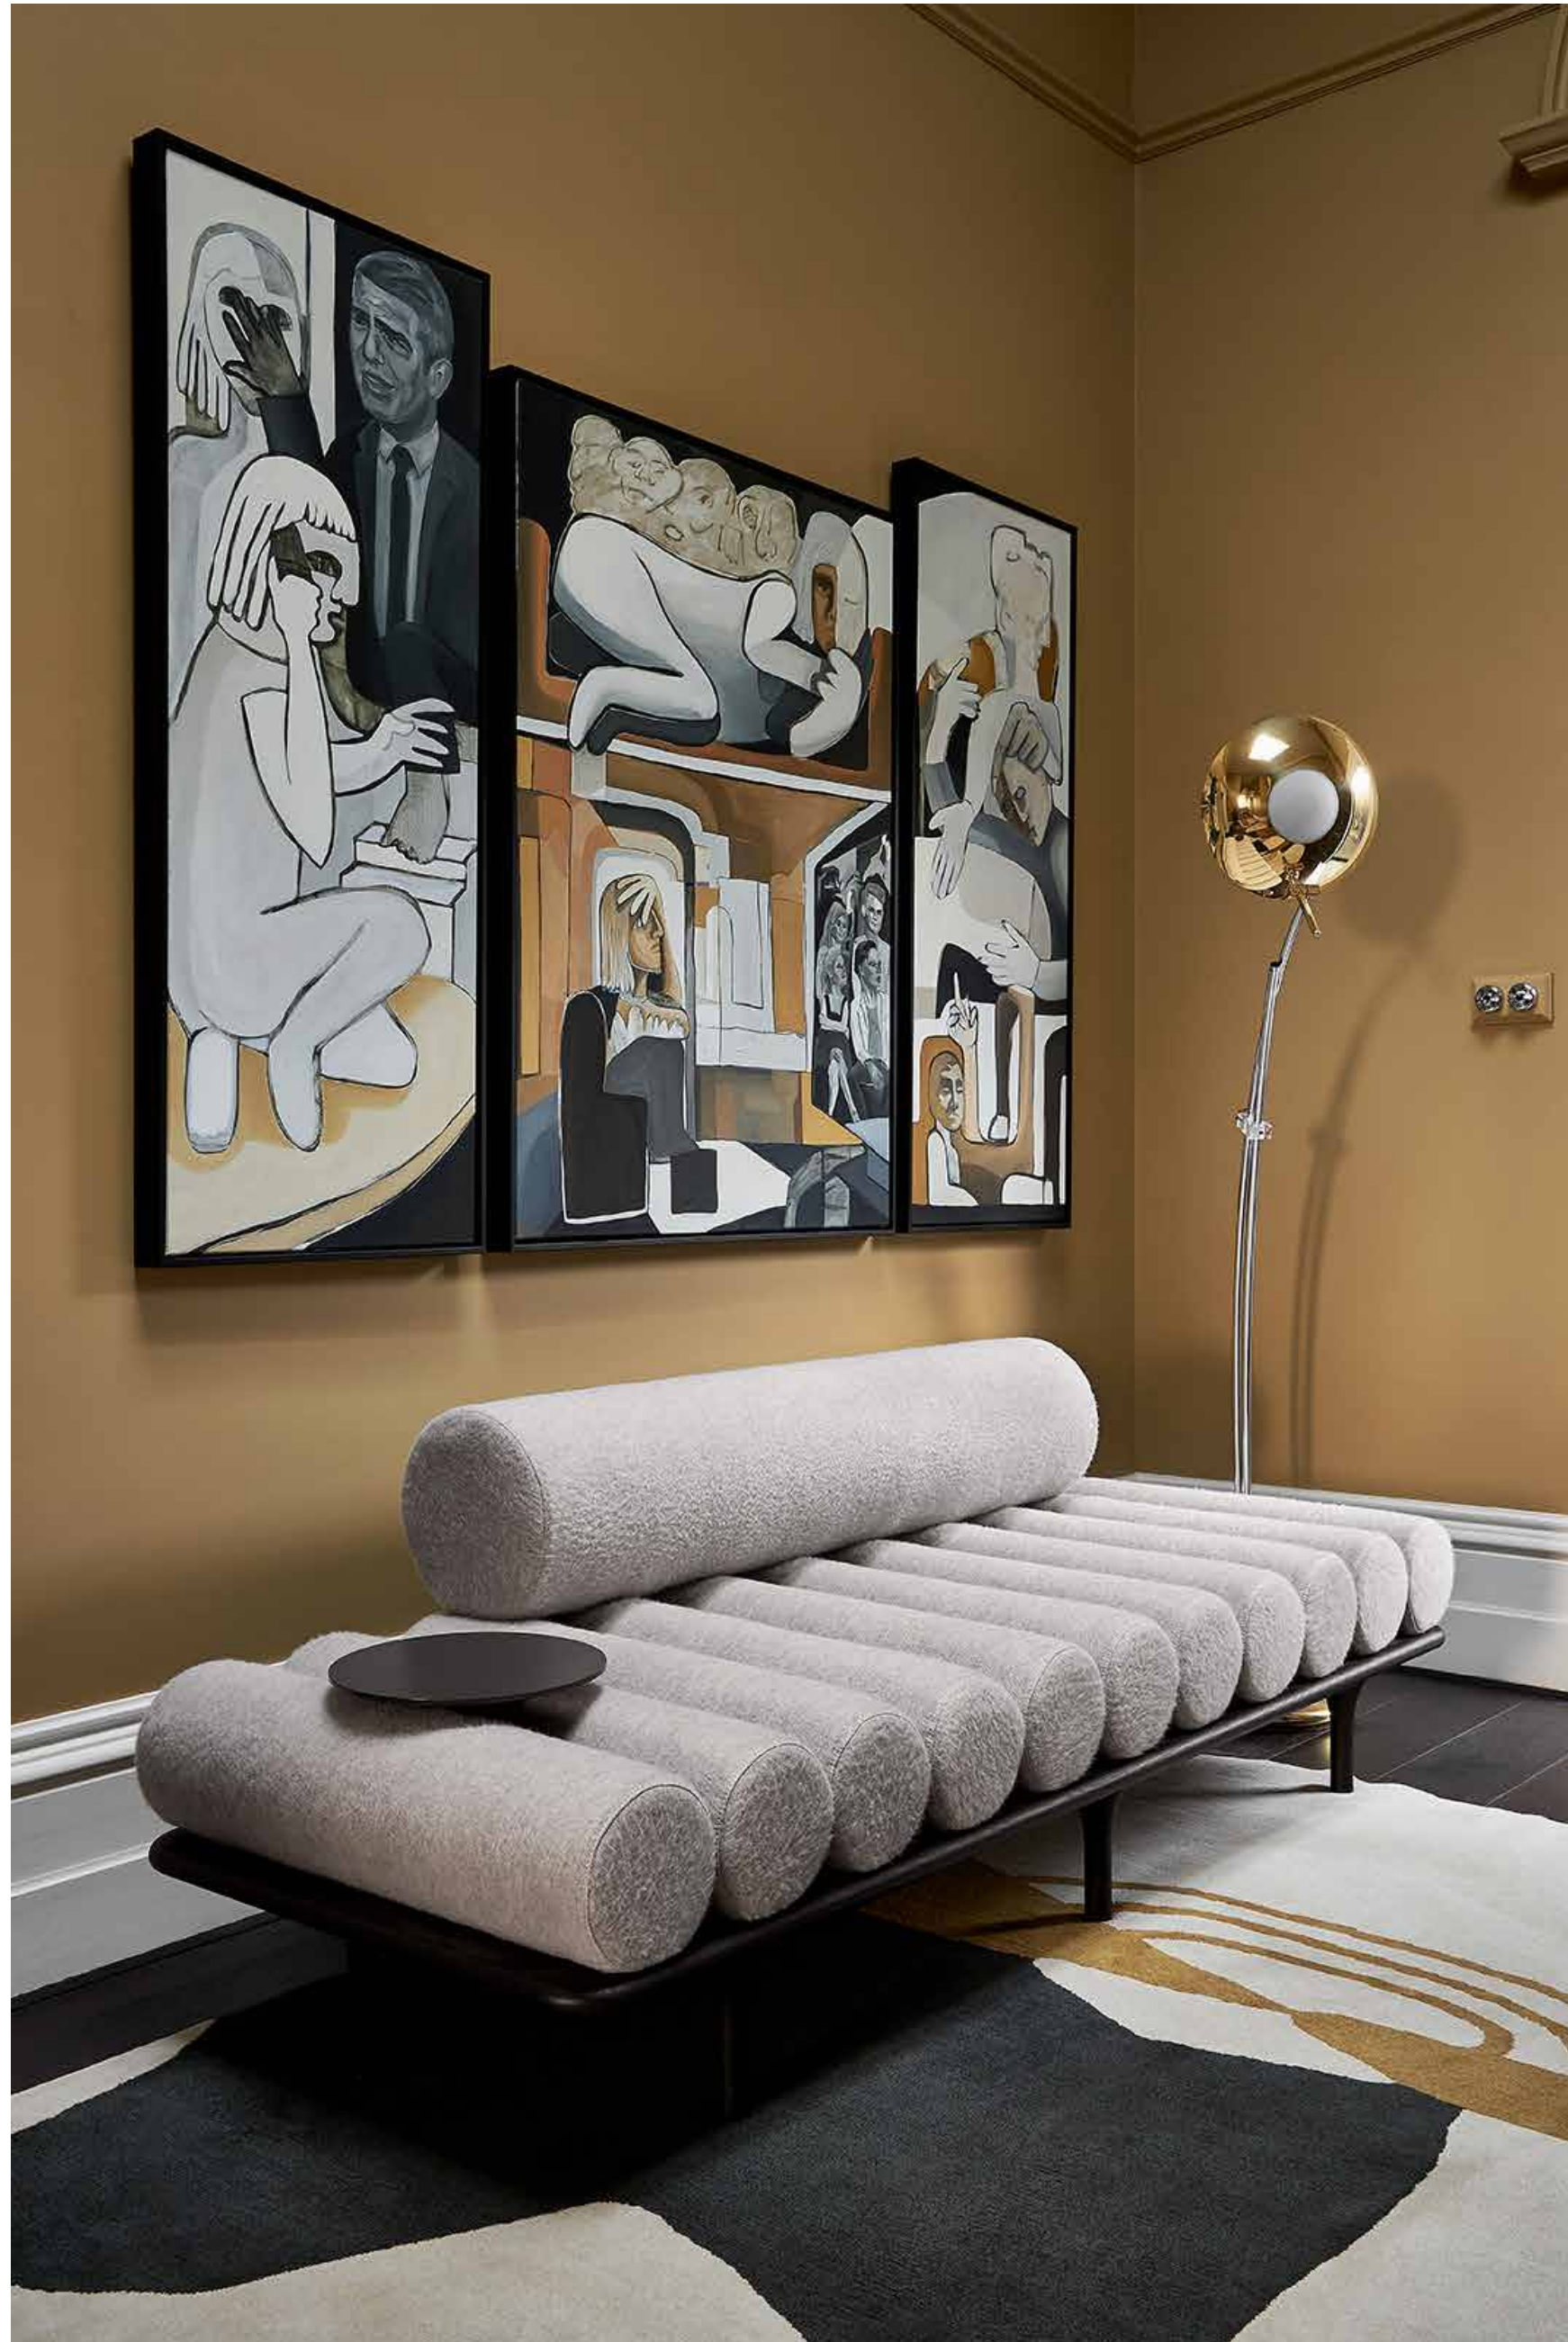

05 Painting

The decor and ambiance play a big role. With the advent of themed restaurants and hotels, the interior decorations have changed drastically over the years.

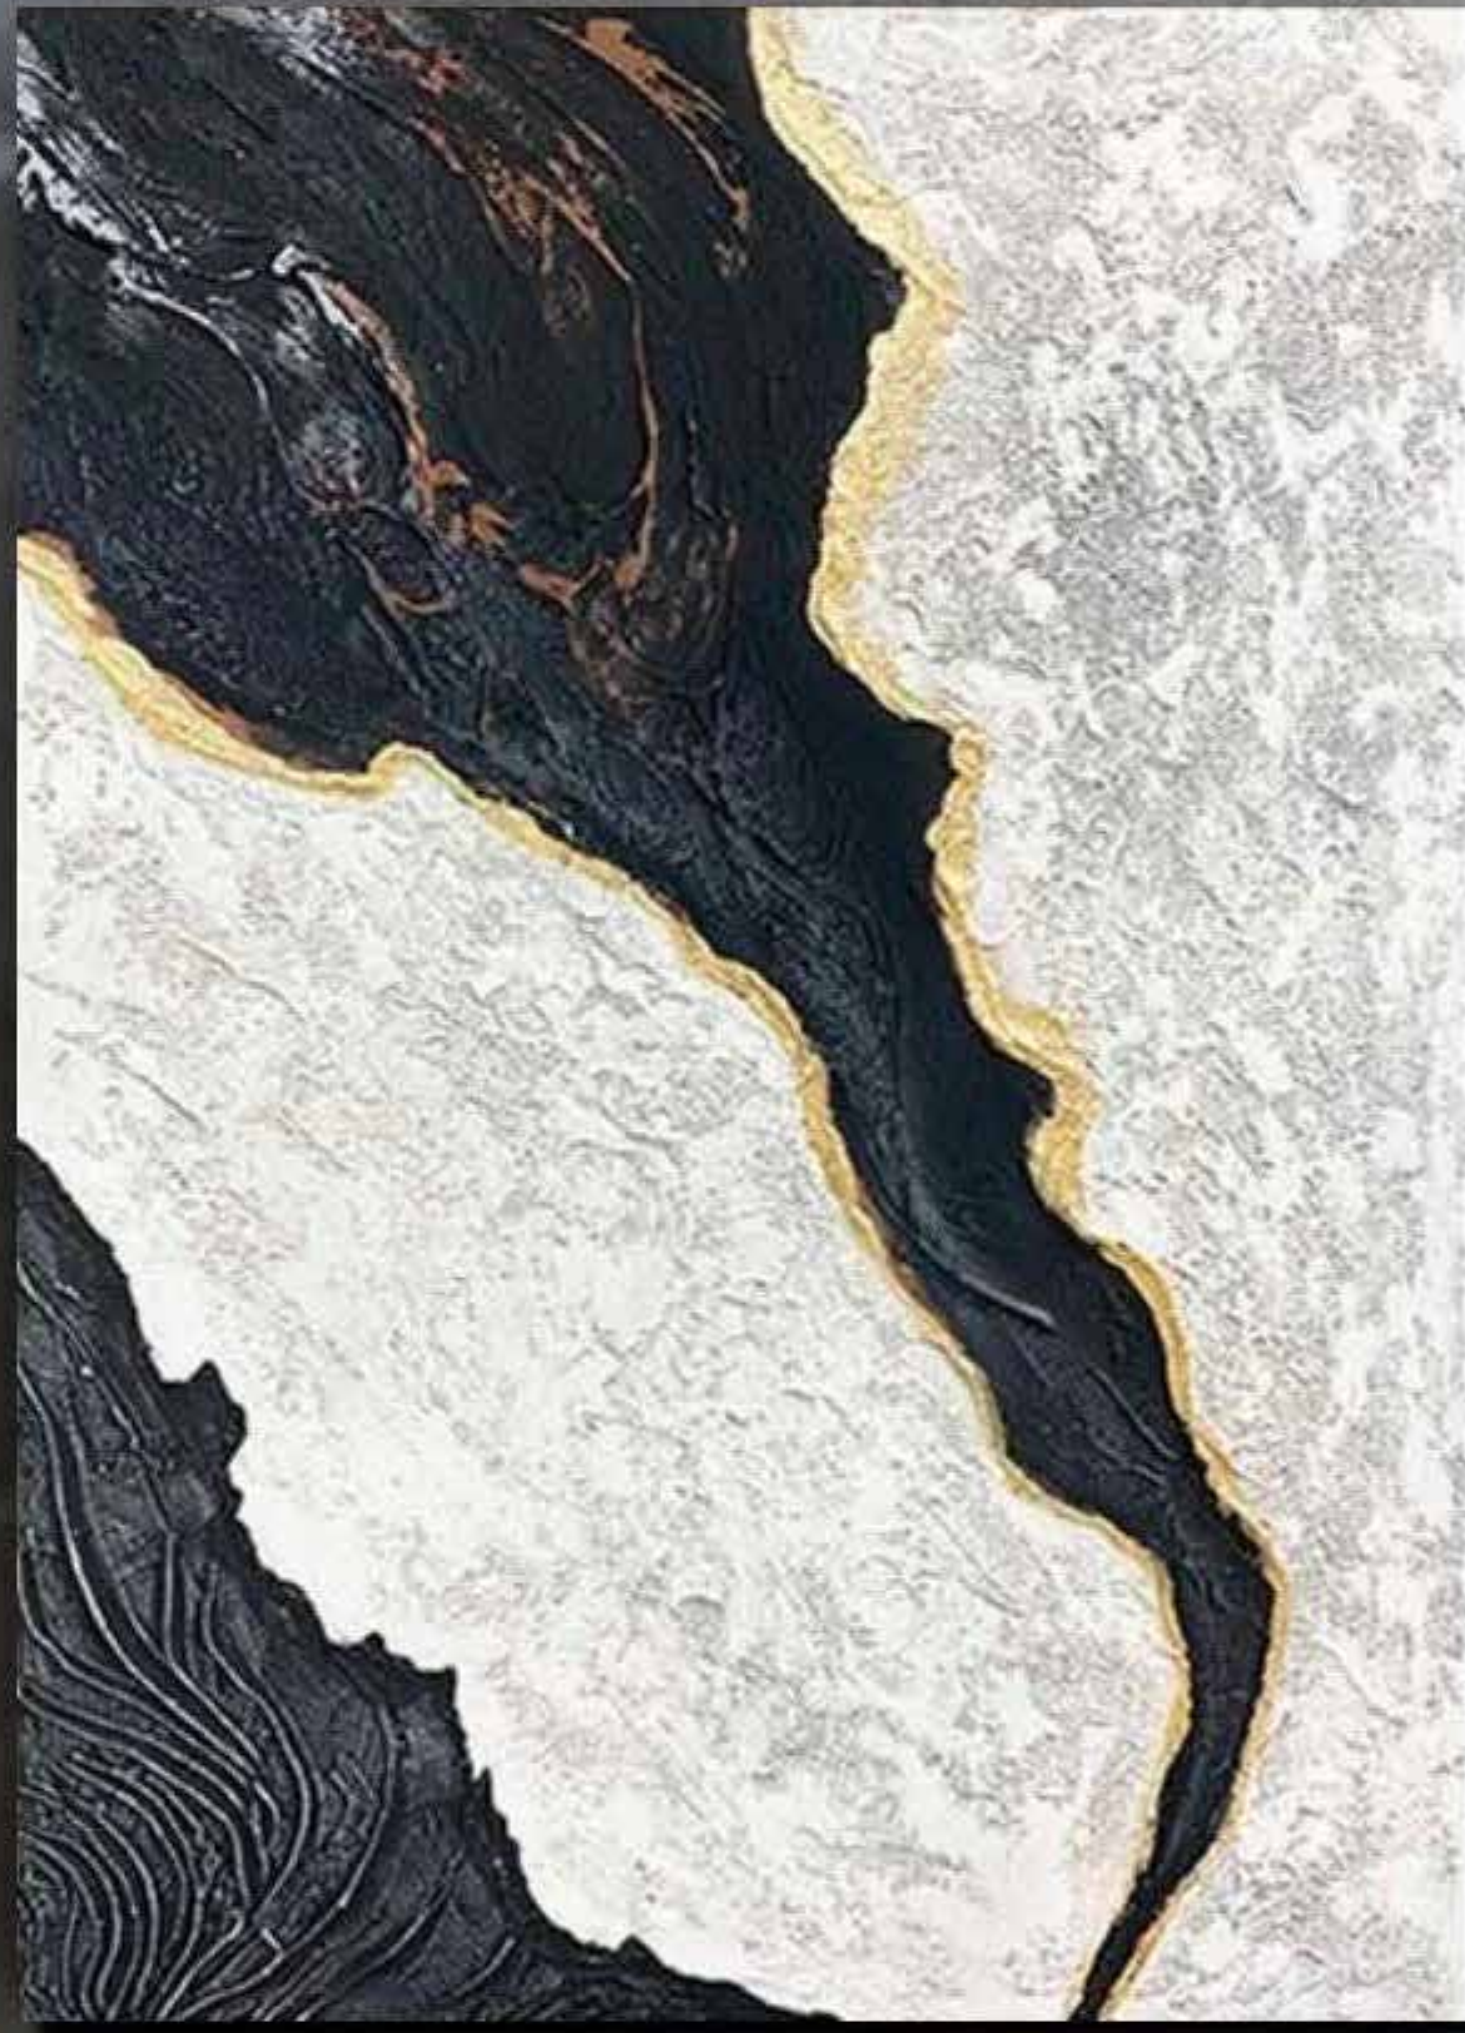

Less is more. So instead of plenty of accessories owners now invest in timeless pieces of art.

A wall hanging or painting is the most preferred choices nowadays.

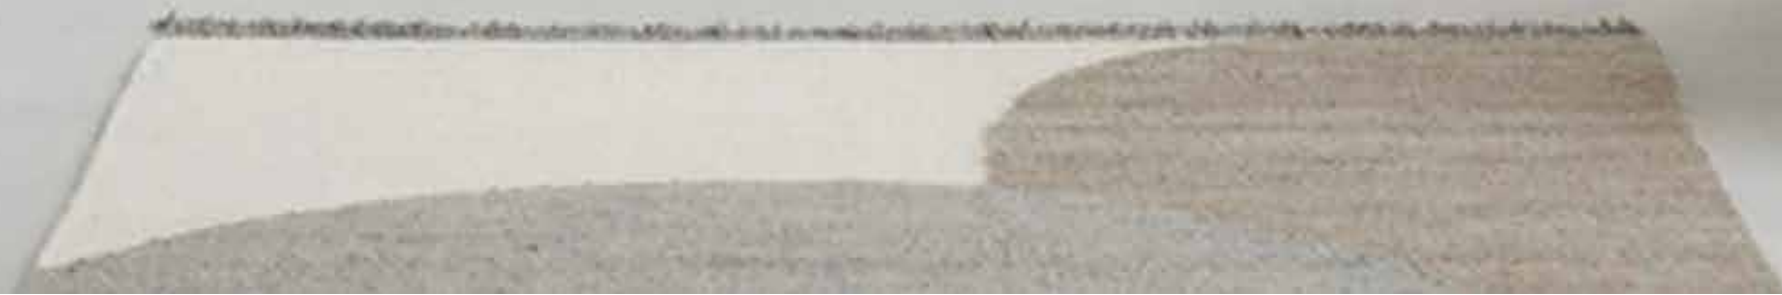

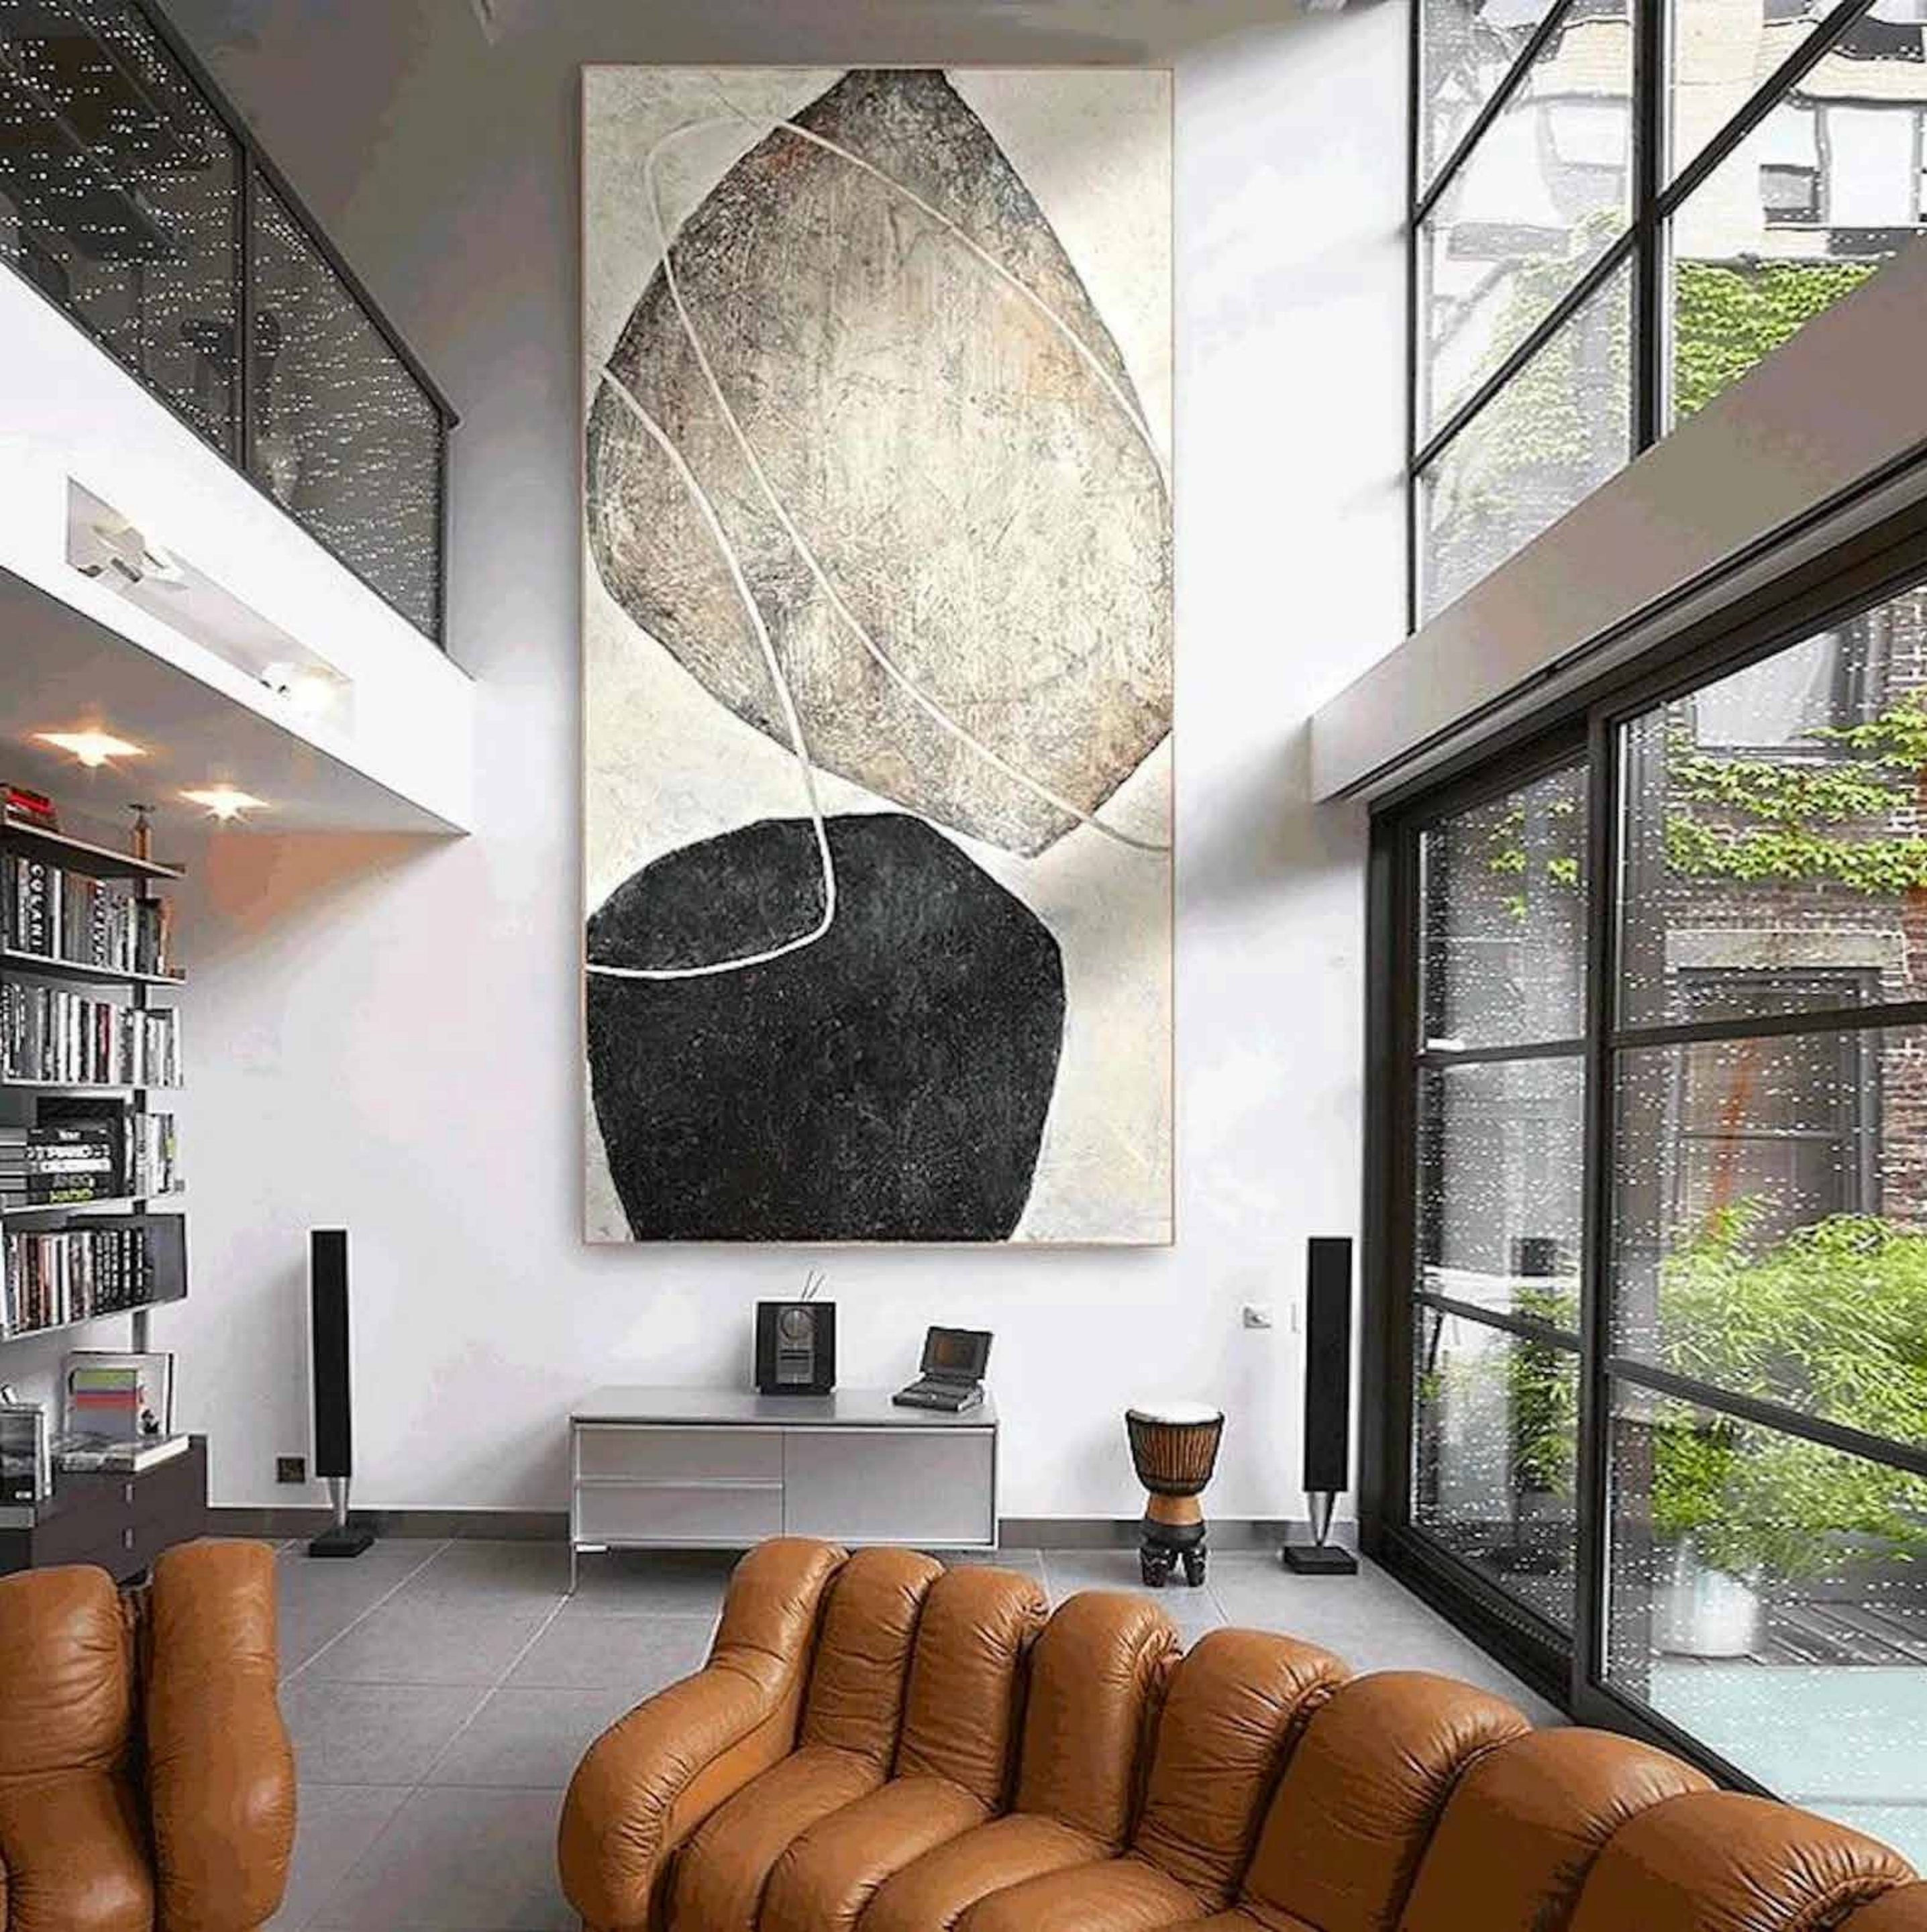

A vibrant canvas painting can light up the room like nothing else. Sometimes many religious paintings like that of Lord Buddha are often placed at the entrance of the restaurant depending on the theme of the restaurants.

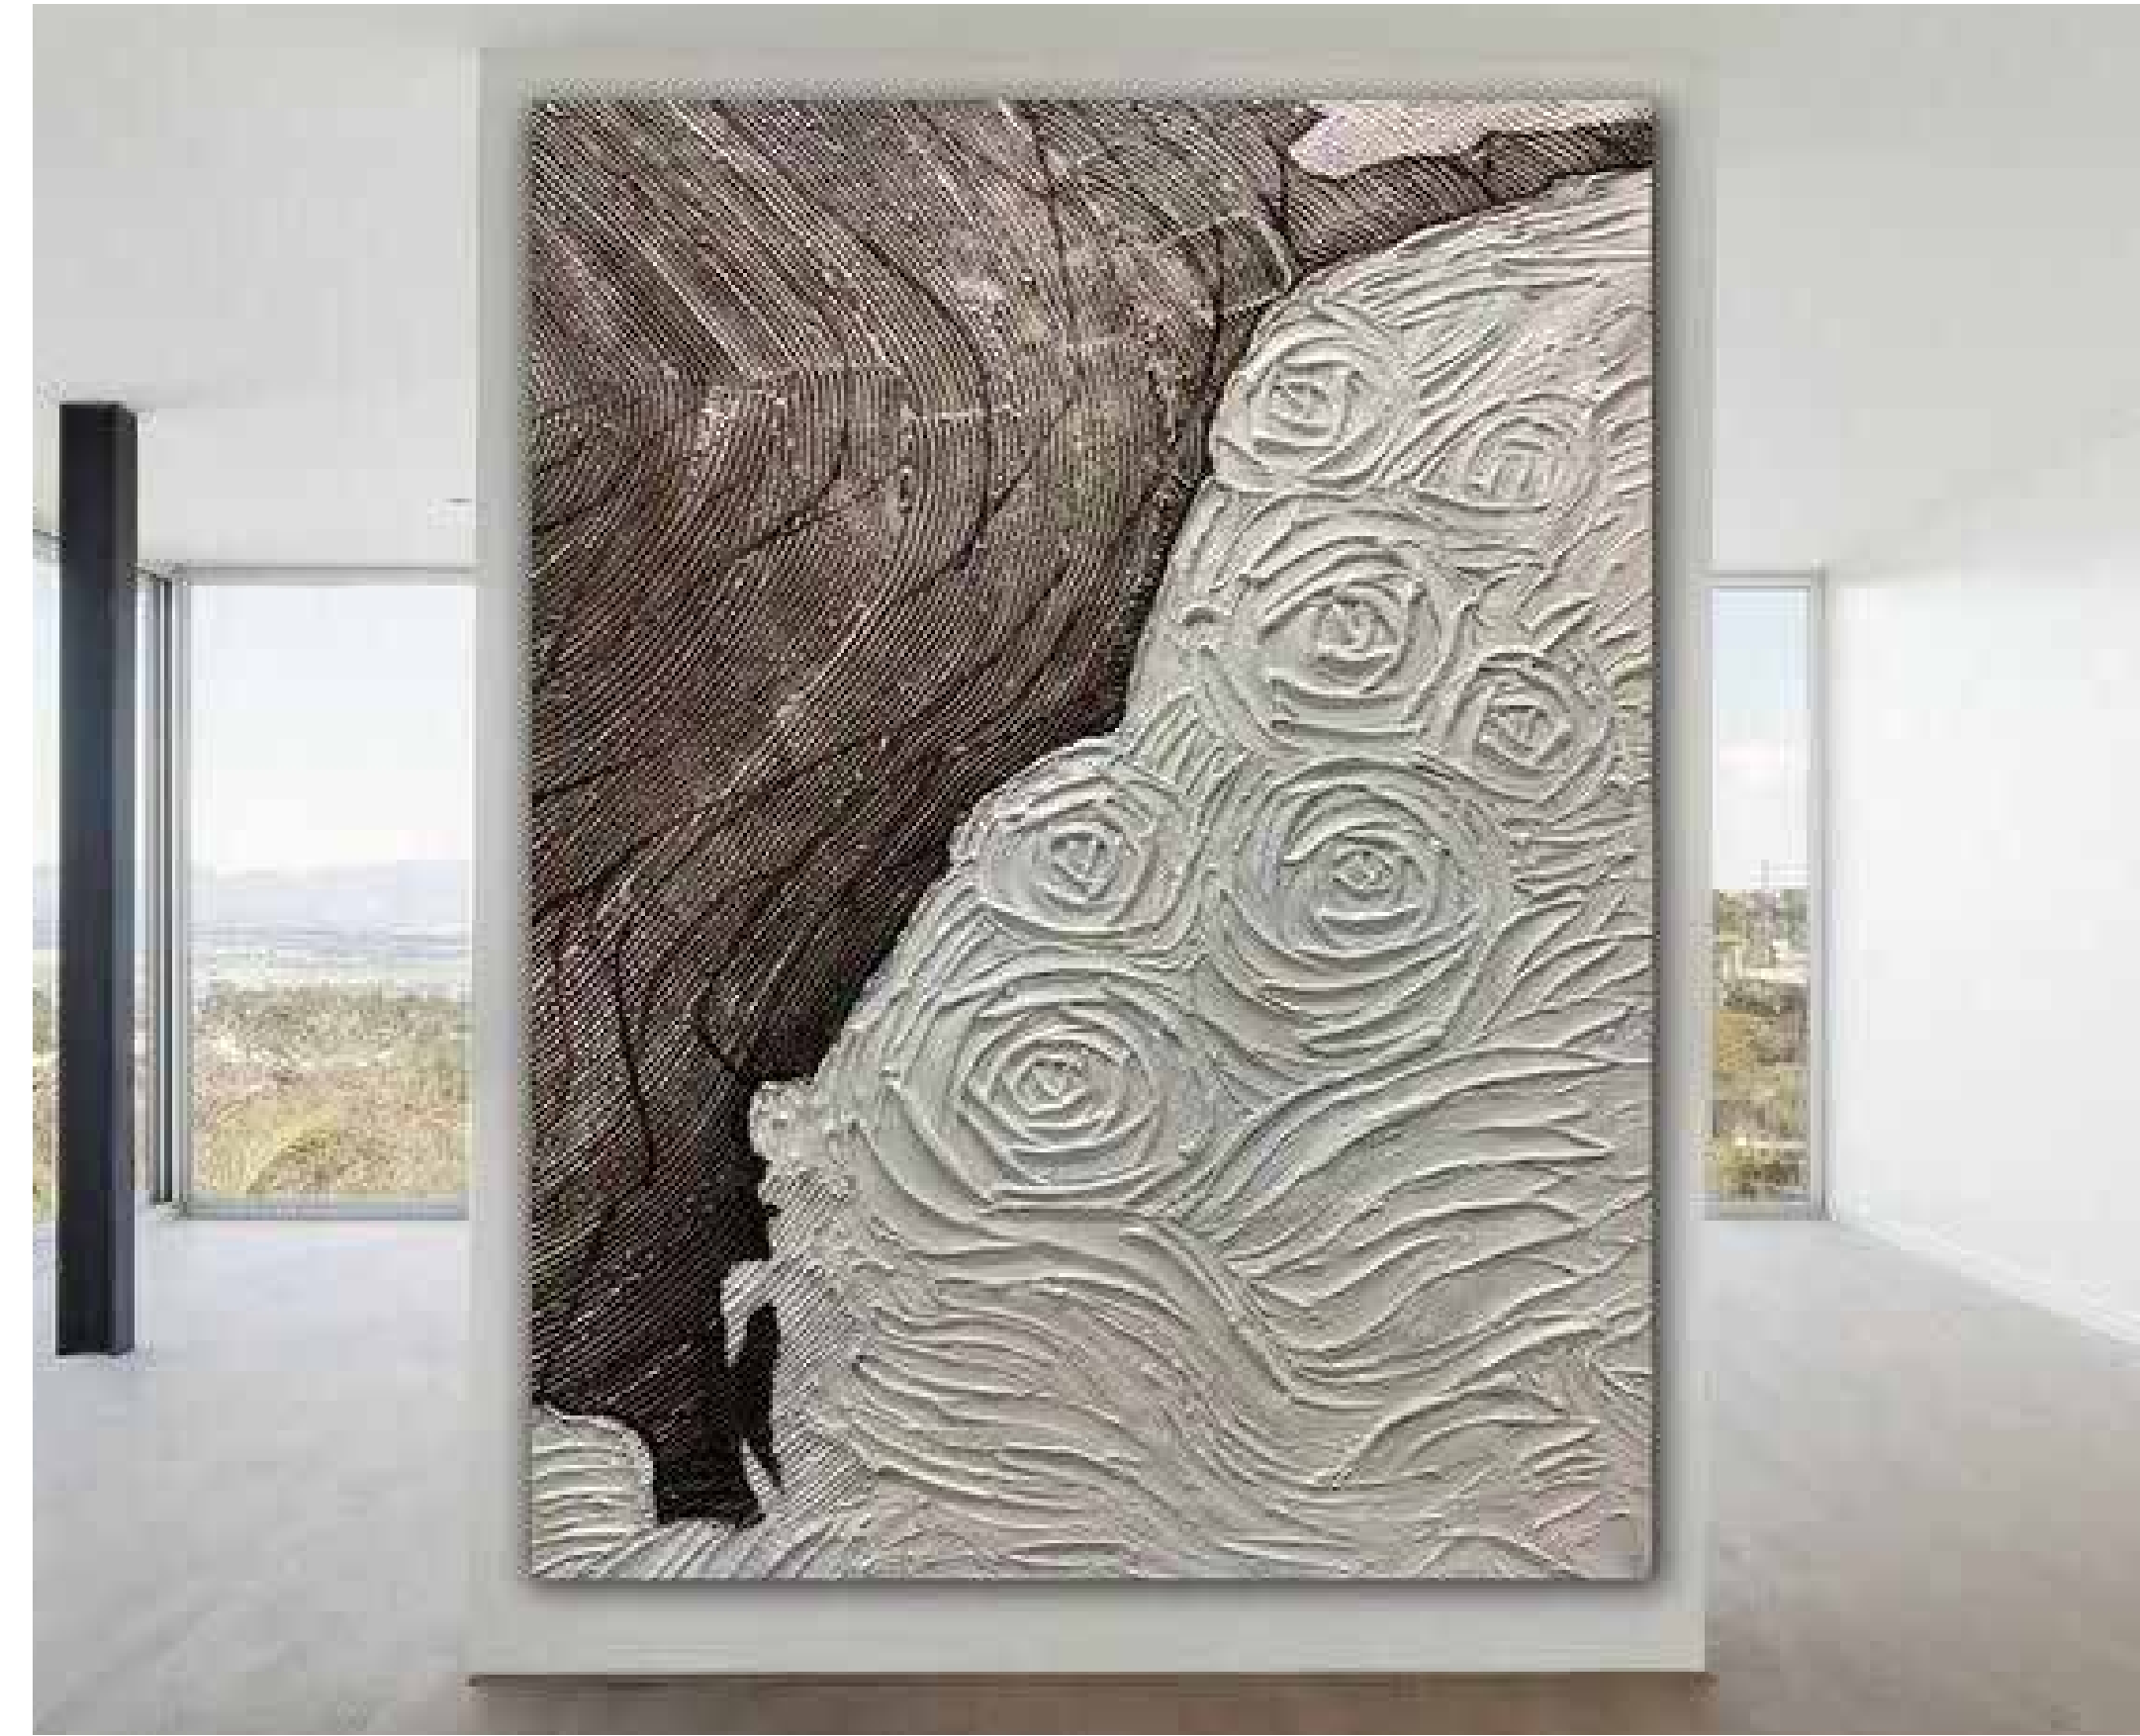

Other popular choices are abstract paintings. abstract art of various colors maintain a harmony in the place and is often a safe choice. They add a touch of simplicity and elegance when placed in a hotel lobby and dining areas

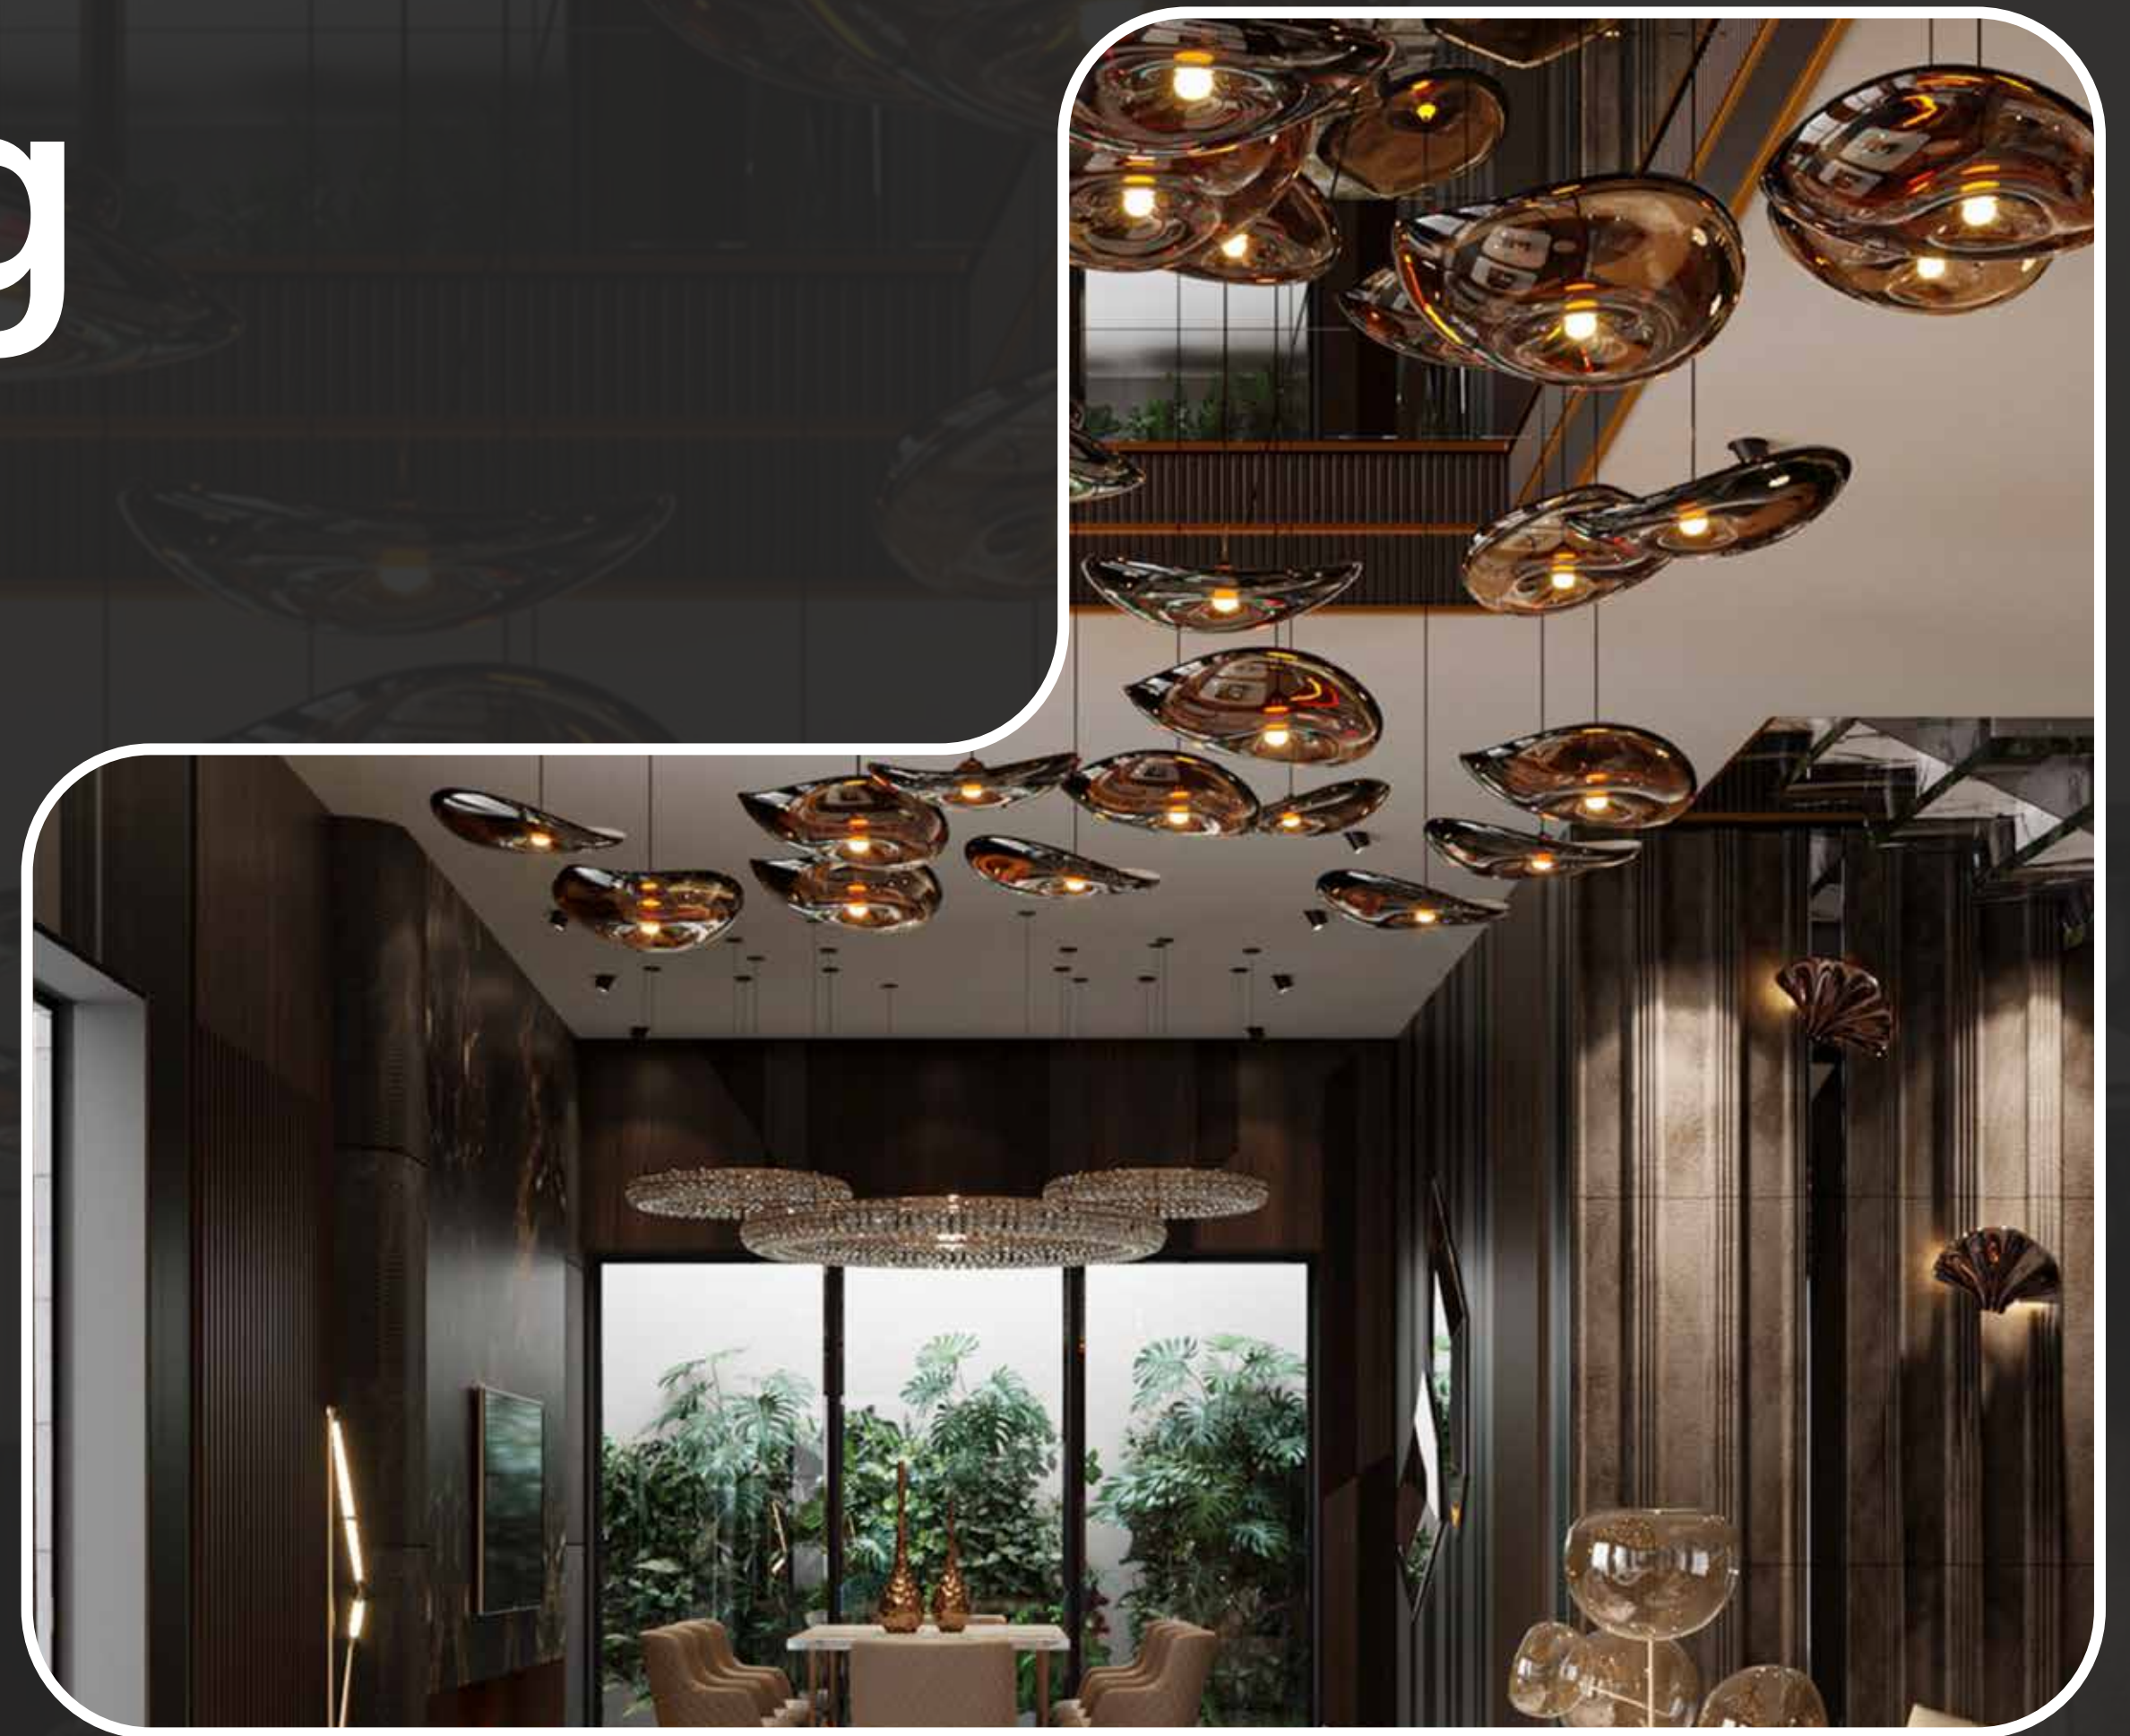

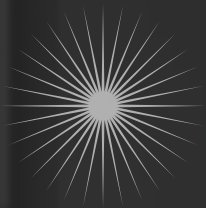

Oil art is also gaining popularity with time. With more and more people taking interest in this genre, it is becoming a preferred choice. Graffiti and mural are the rising paintings for hotel lobbies and receptions.

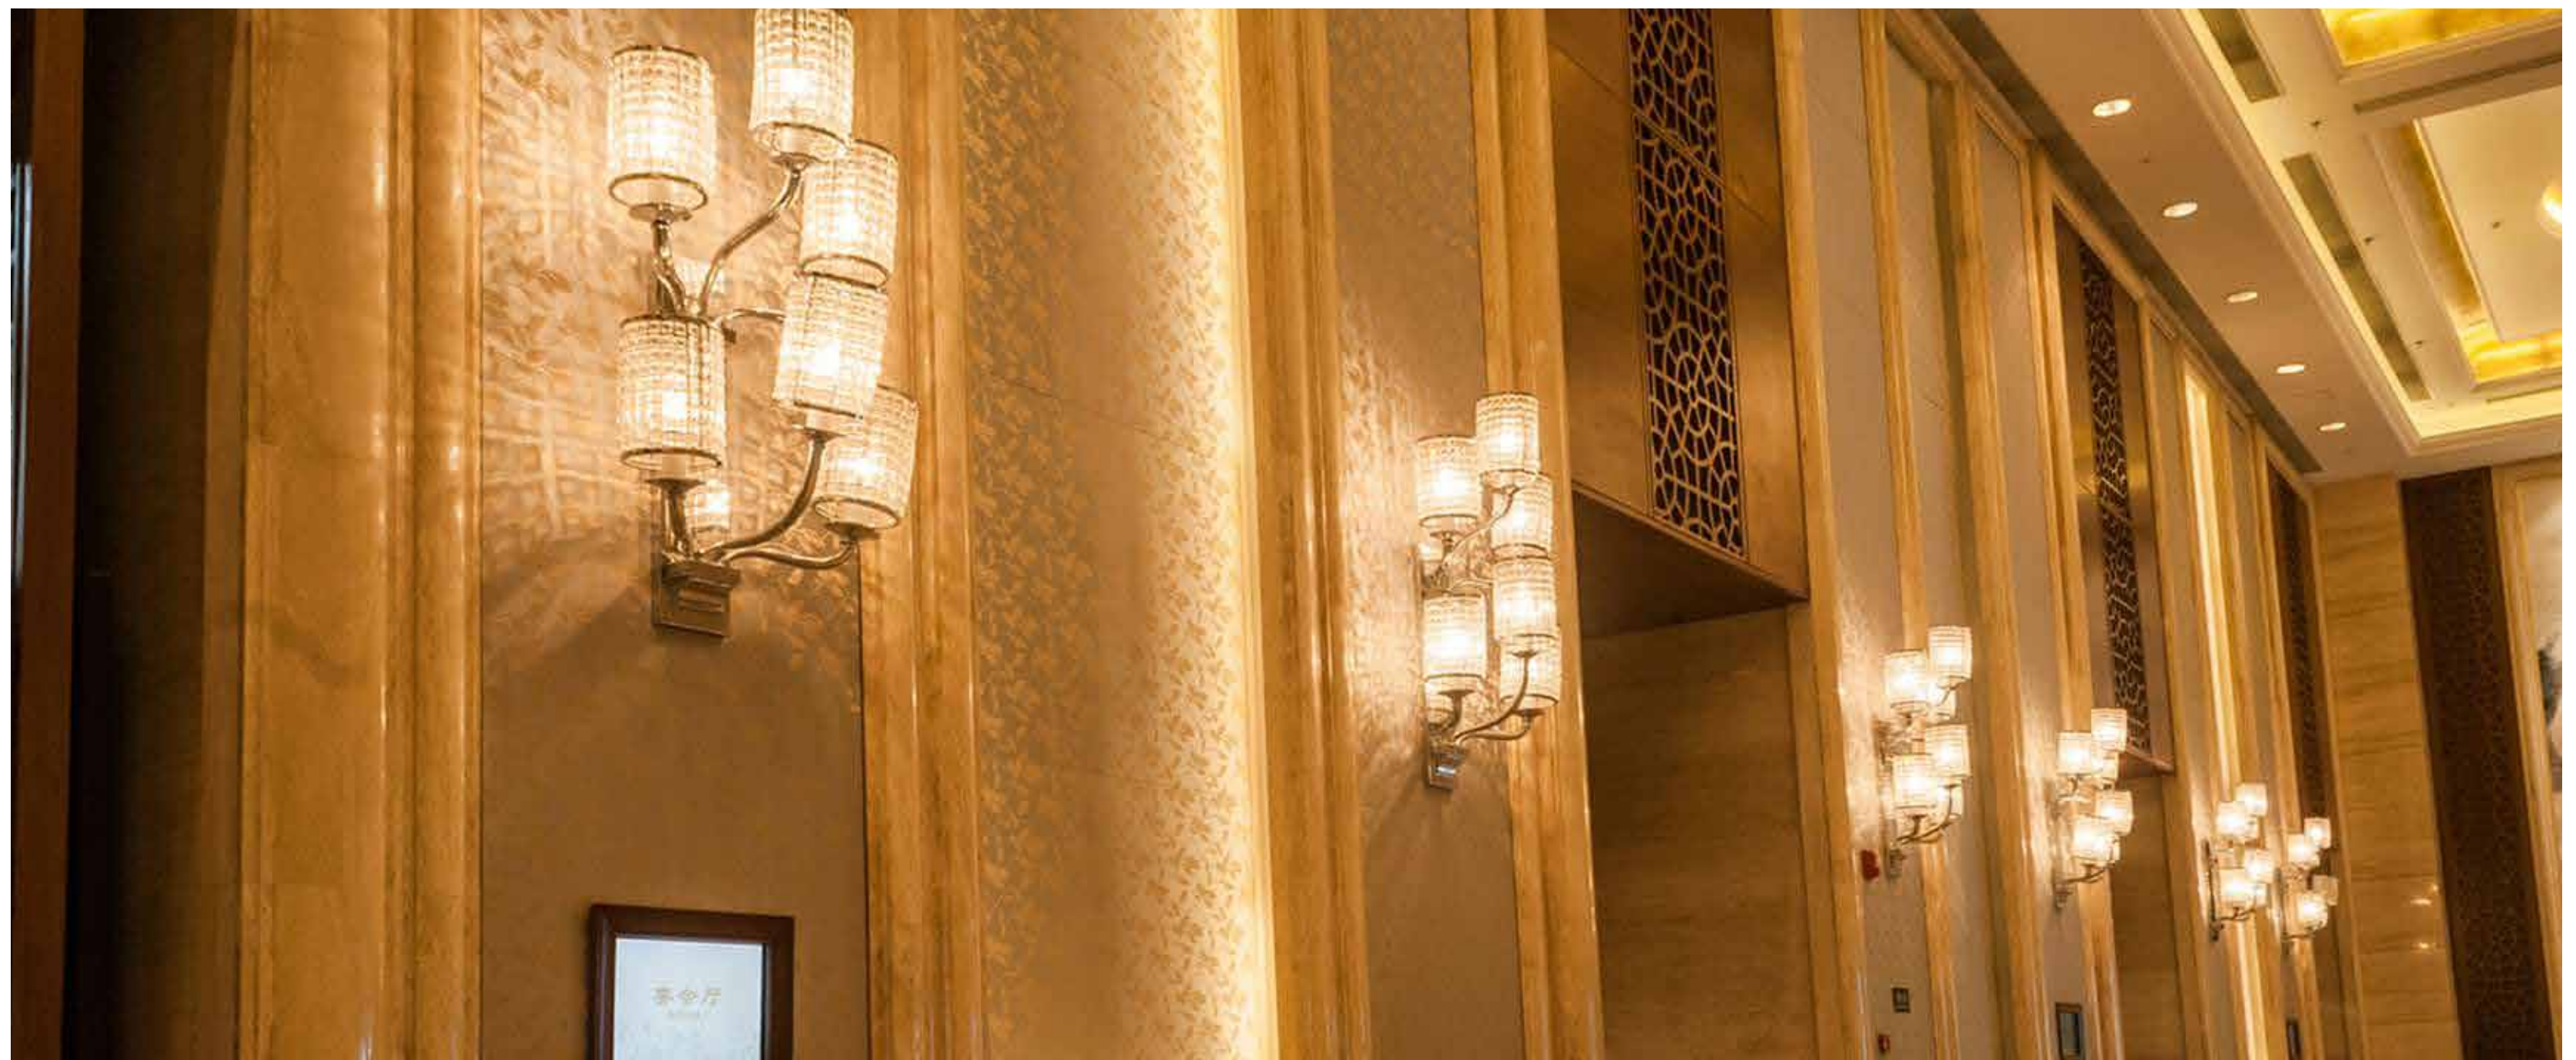

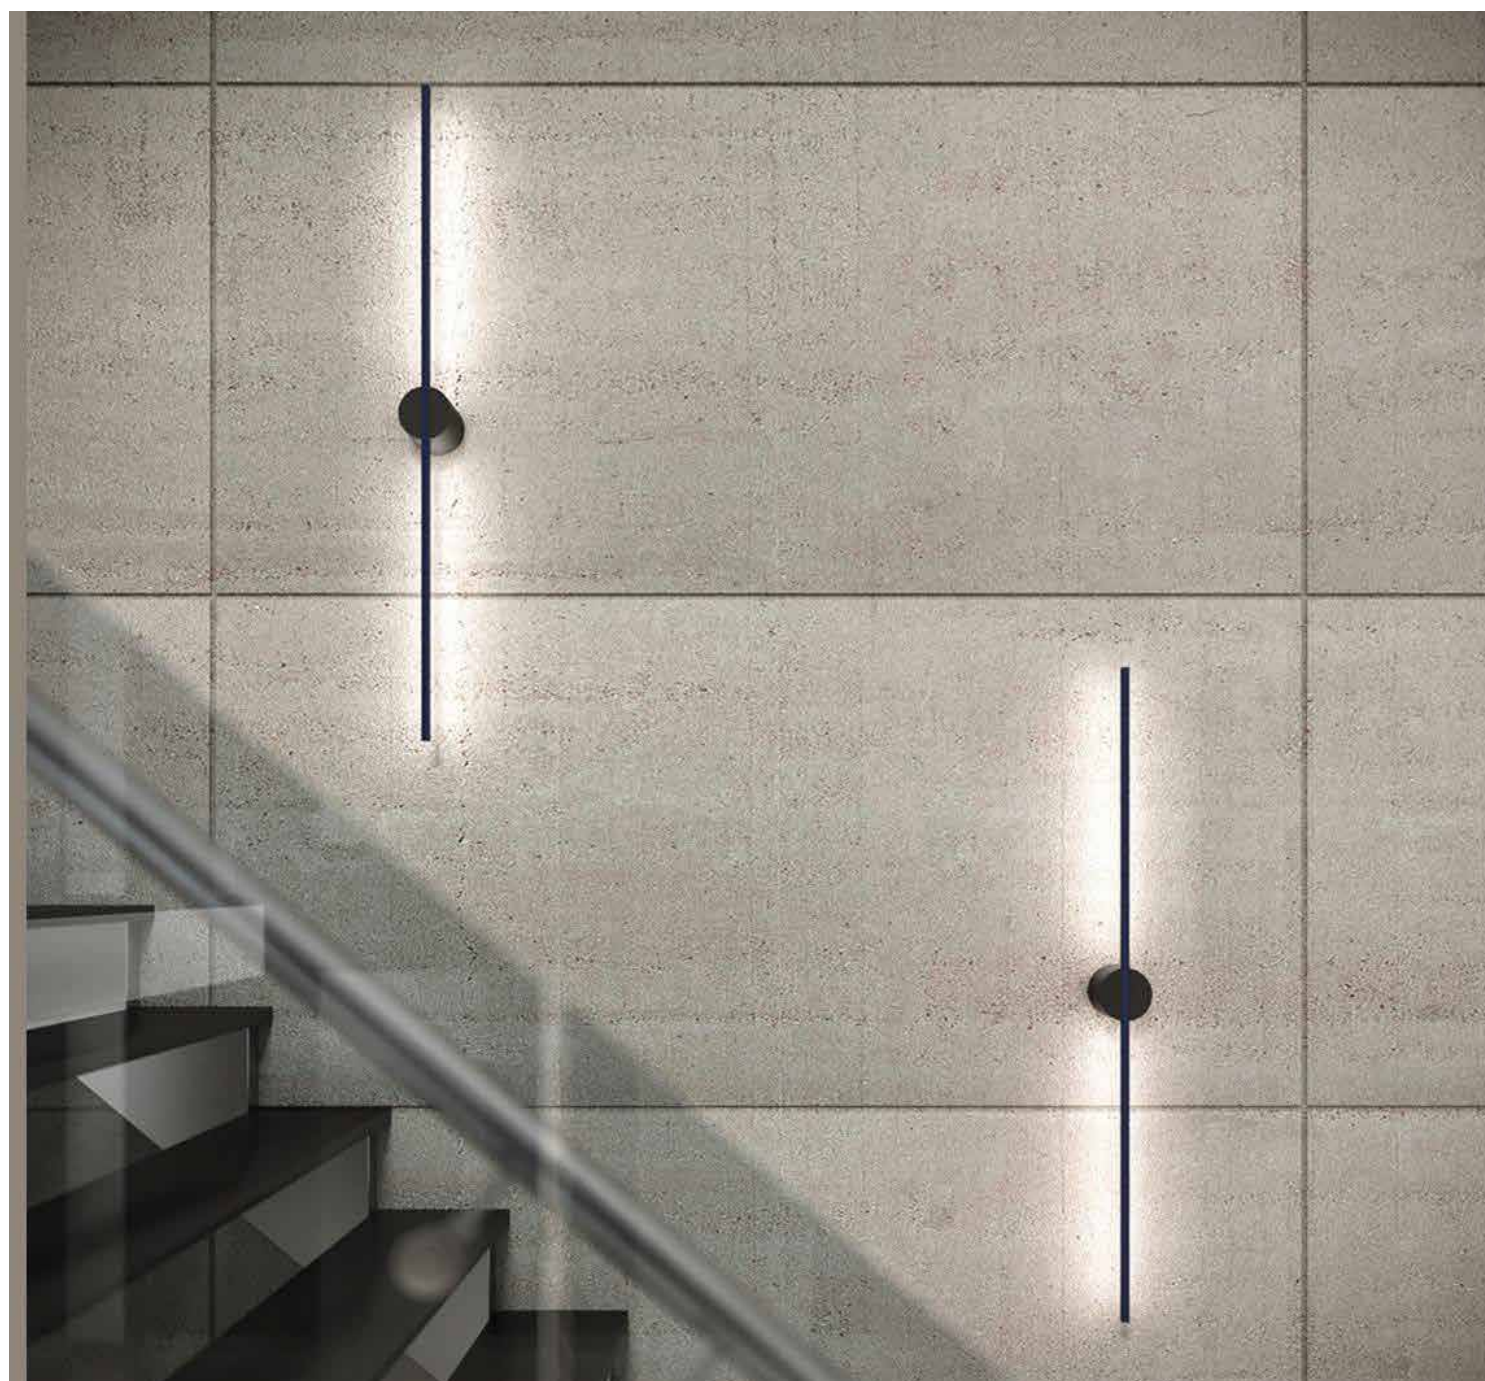

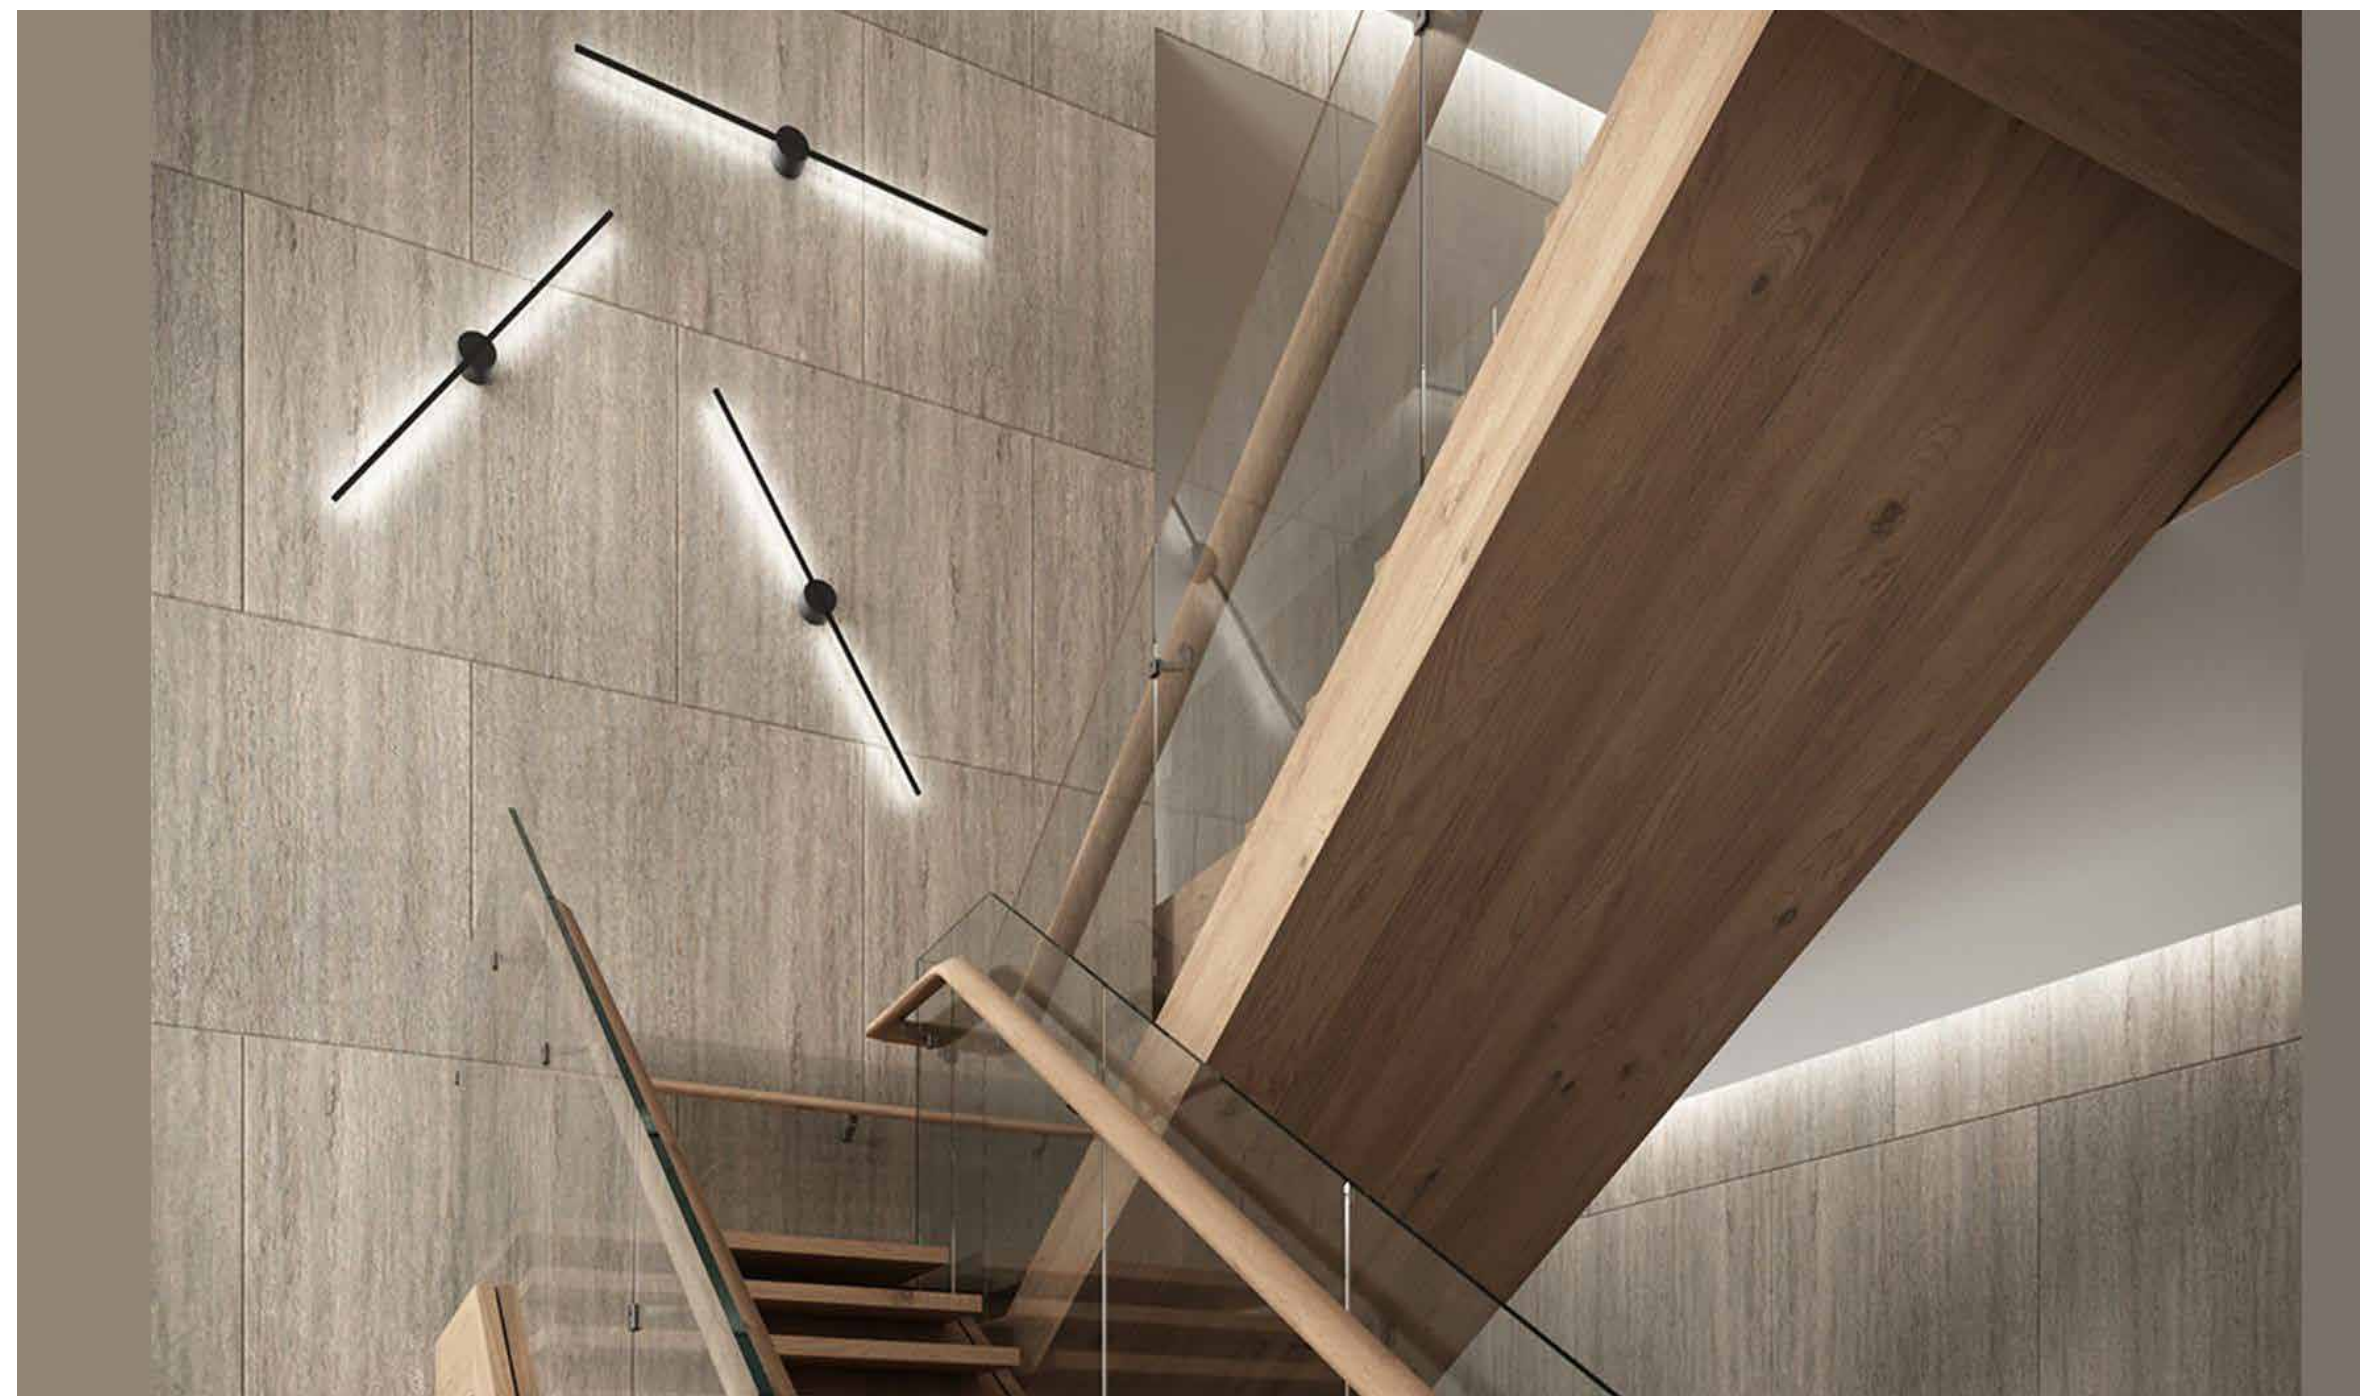

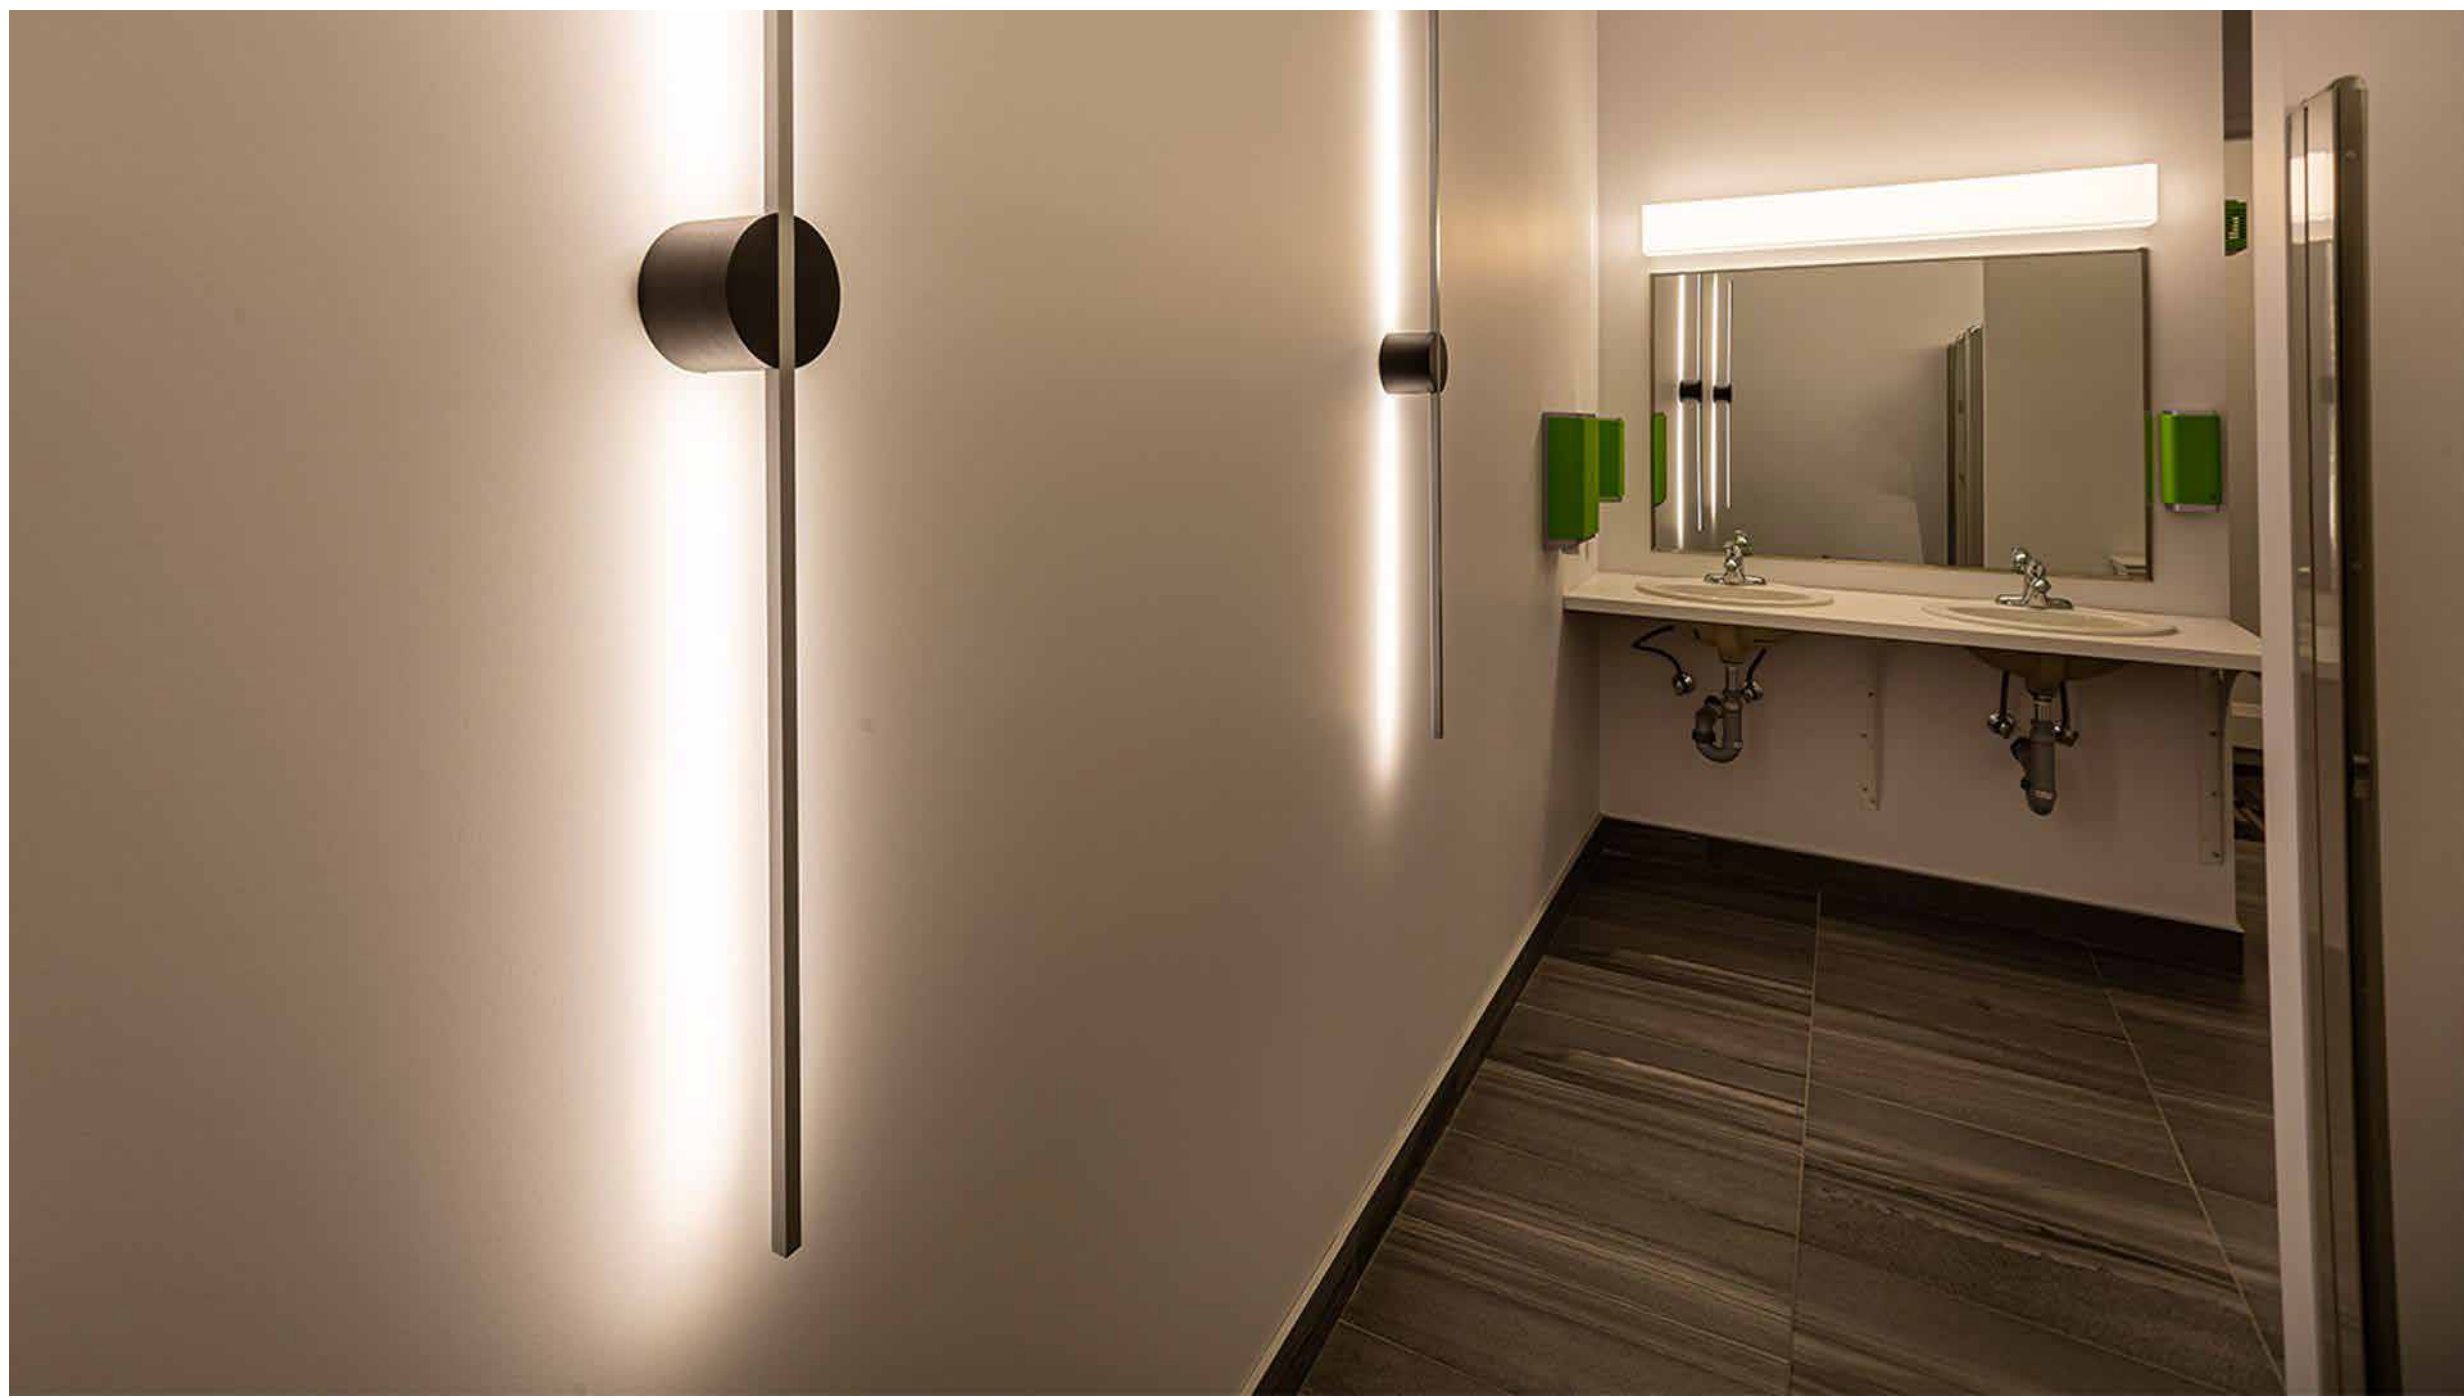

Hotel Lighting

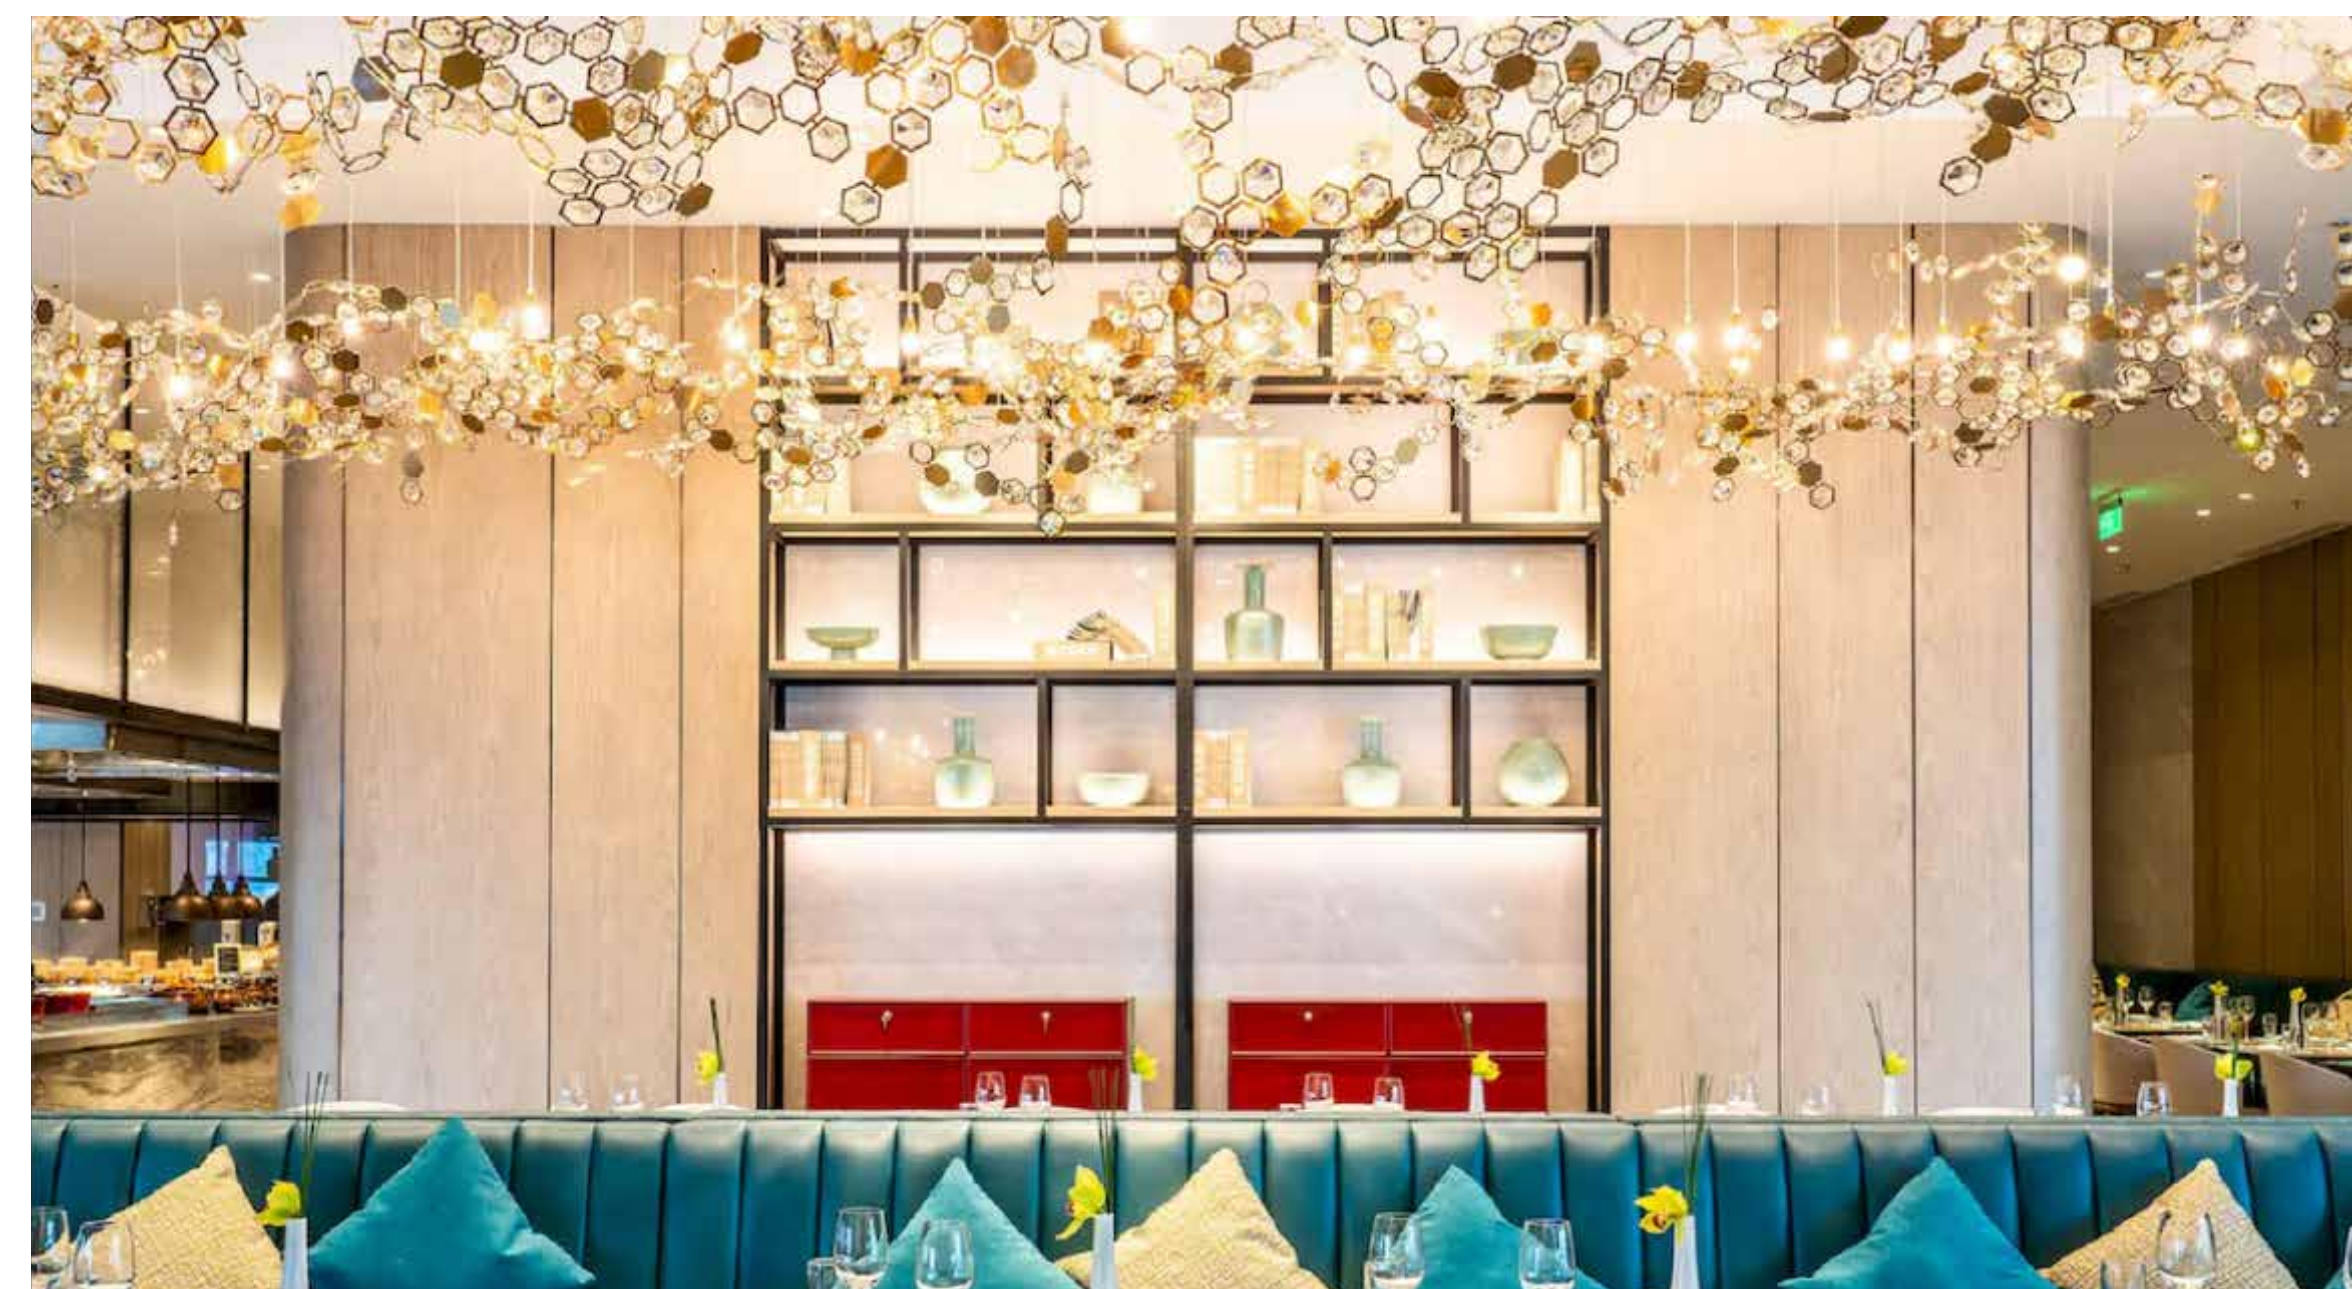

Hotel Lighting— When hotel lighting is done well you don't necessarily notice it, but when it isn't, you most certainly do! Meaning style isn't always at the forefront of plans.

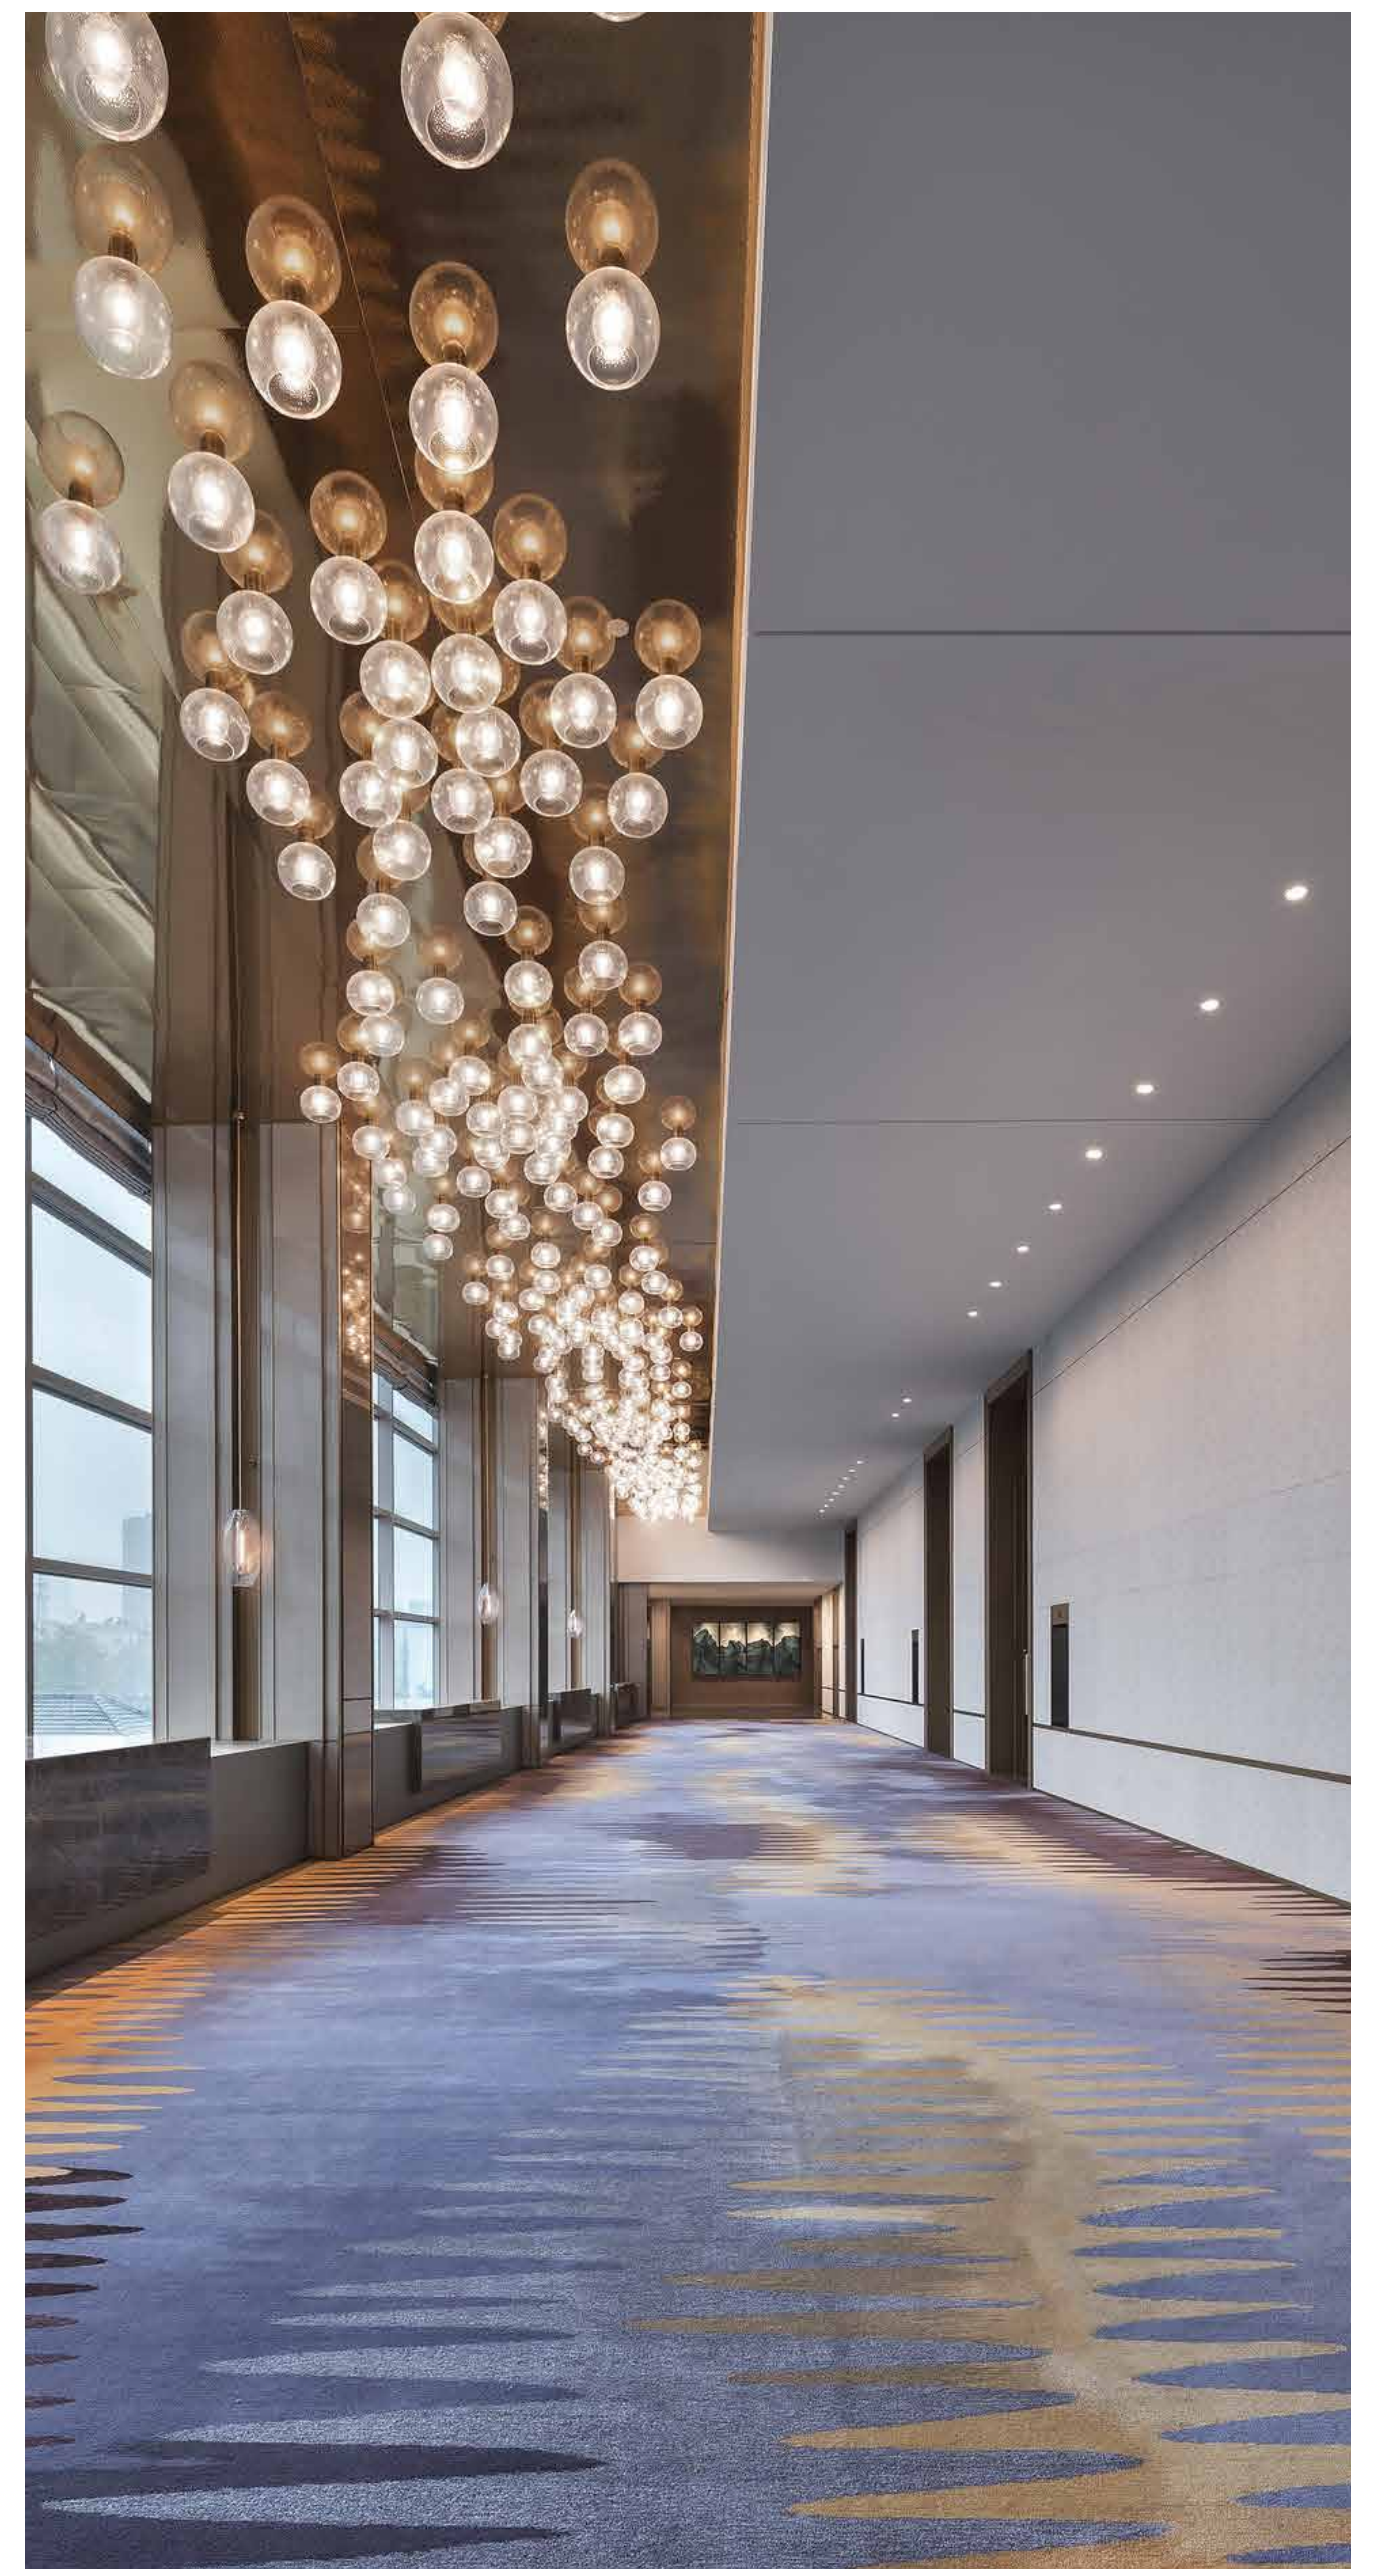

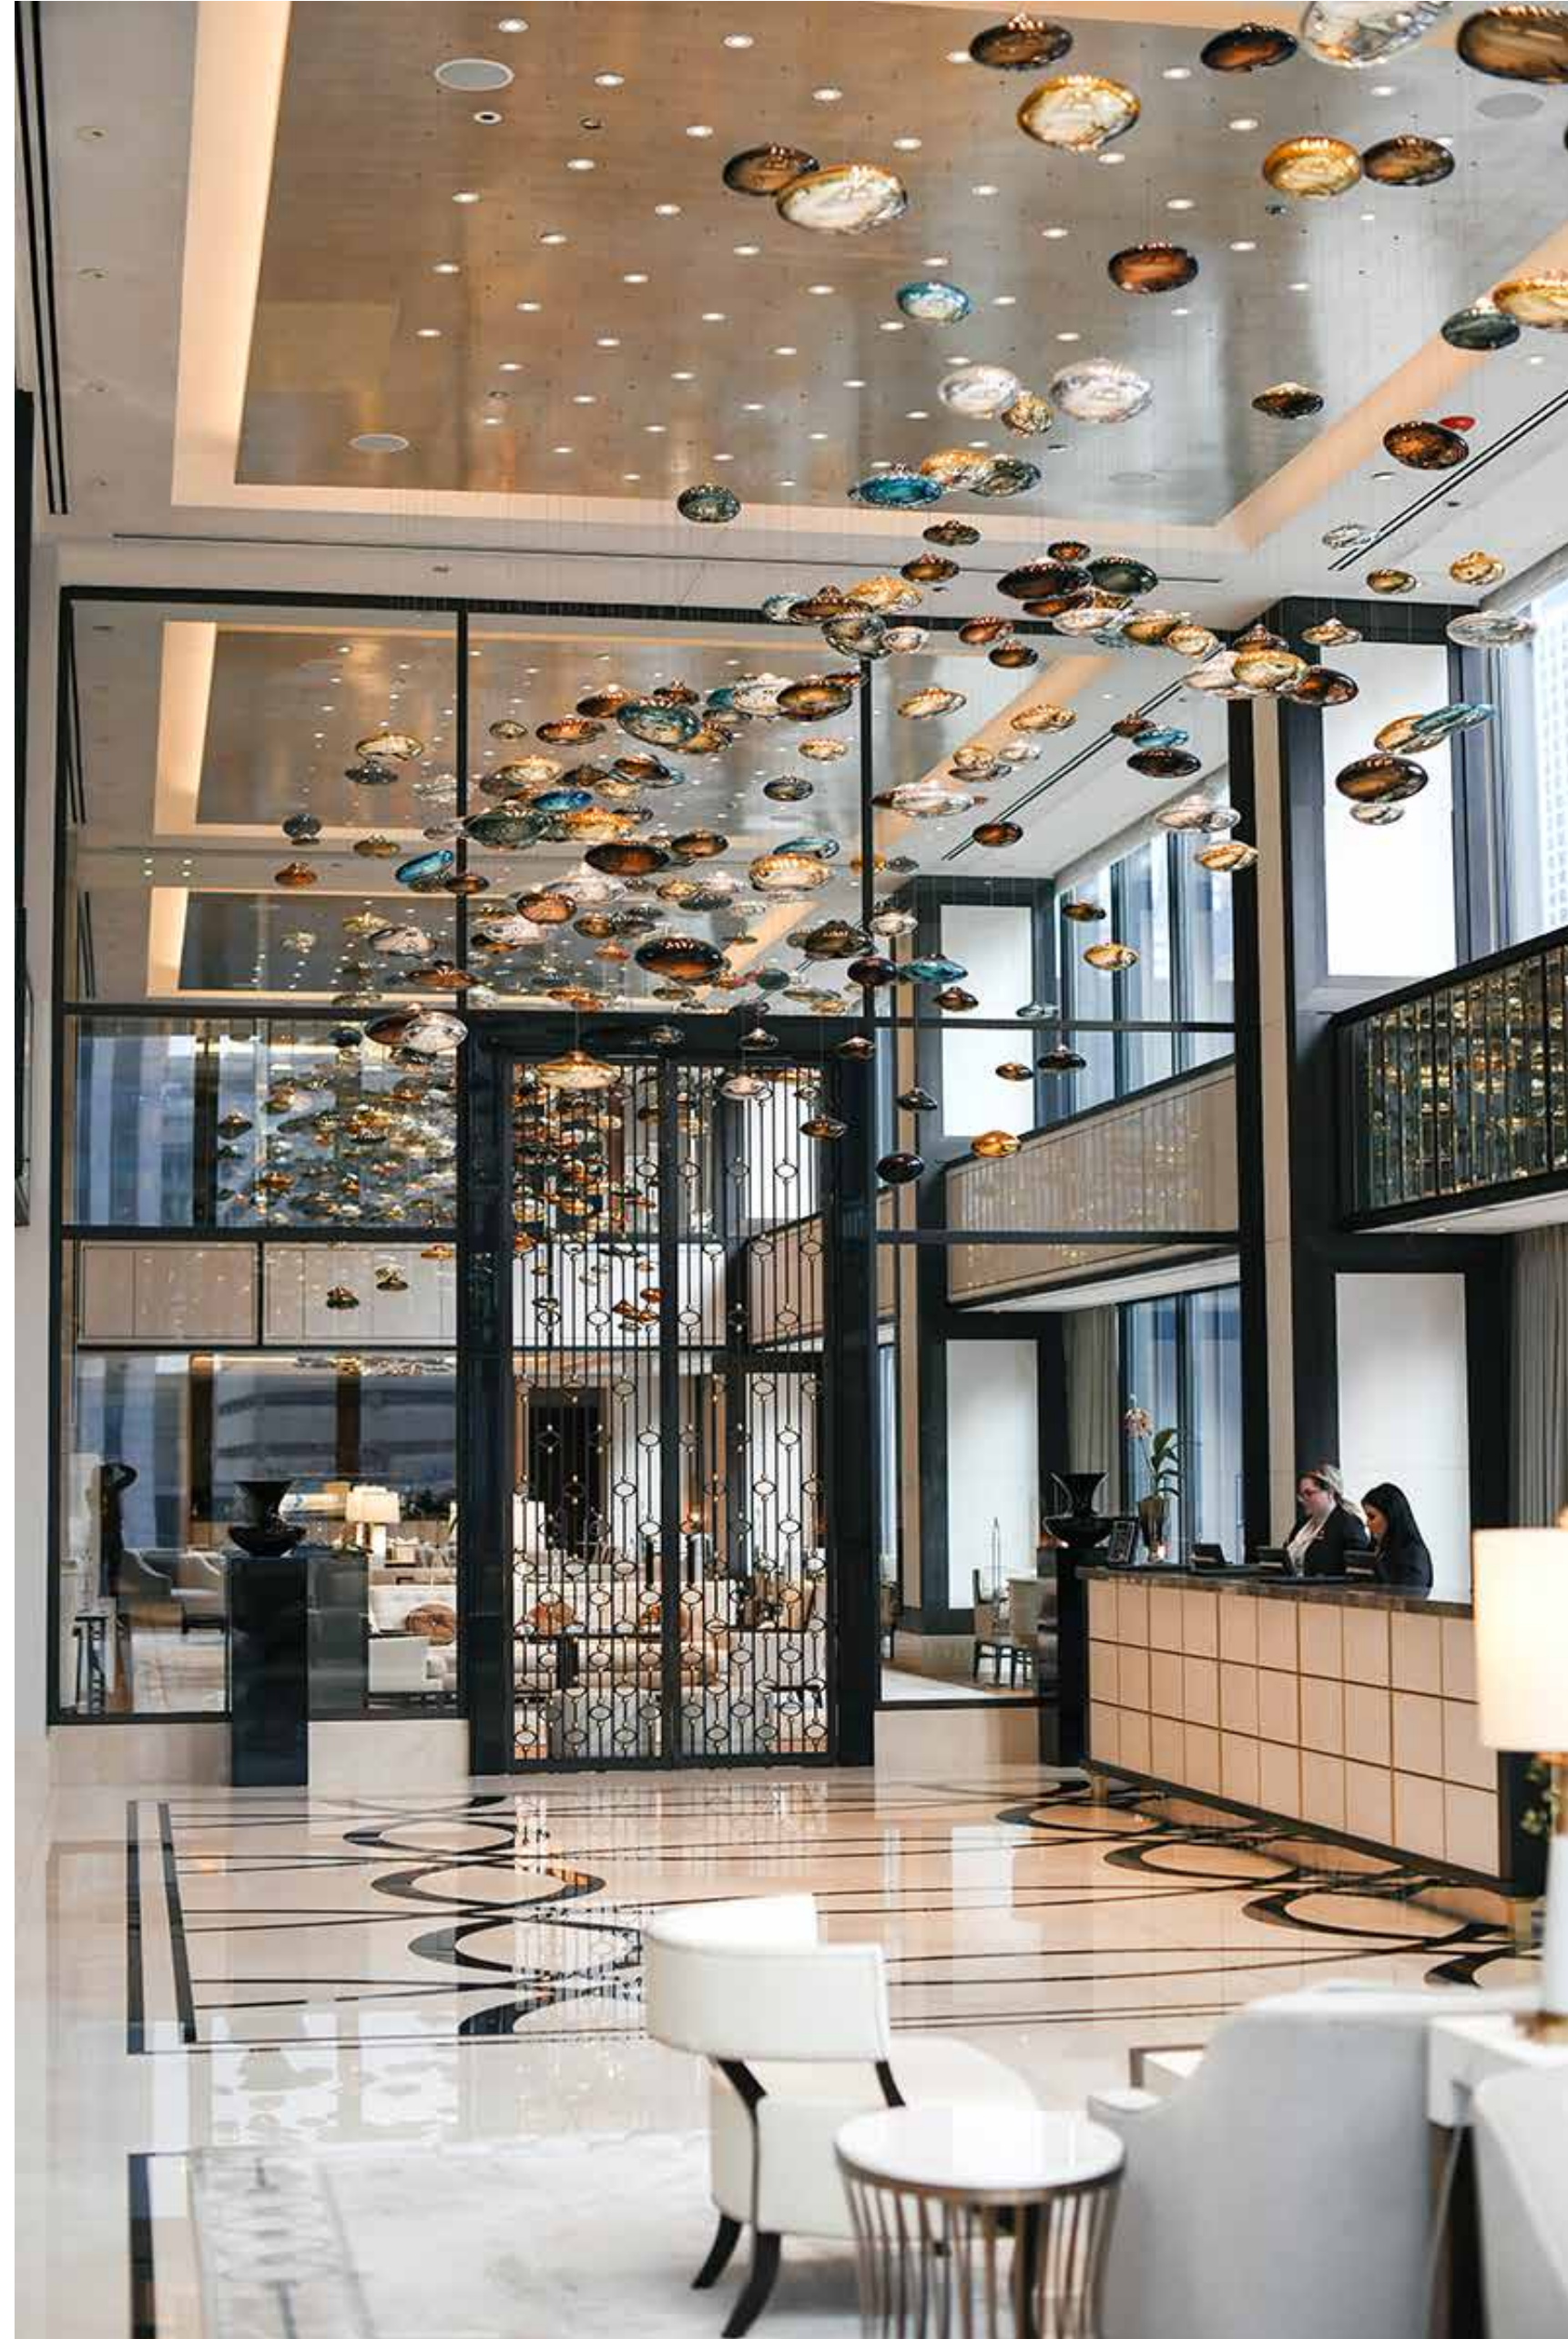

Having a light planner define the appearance of lighting — especially in public areas — is essential to avoid negative first impressions.

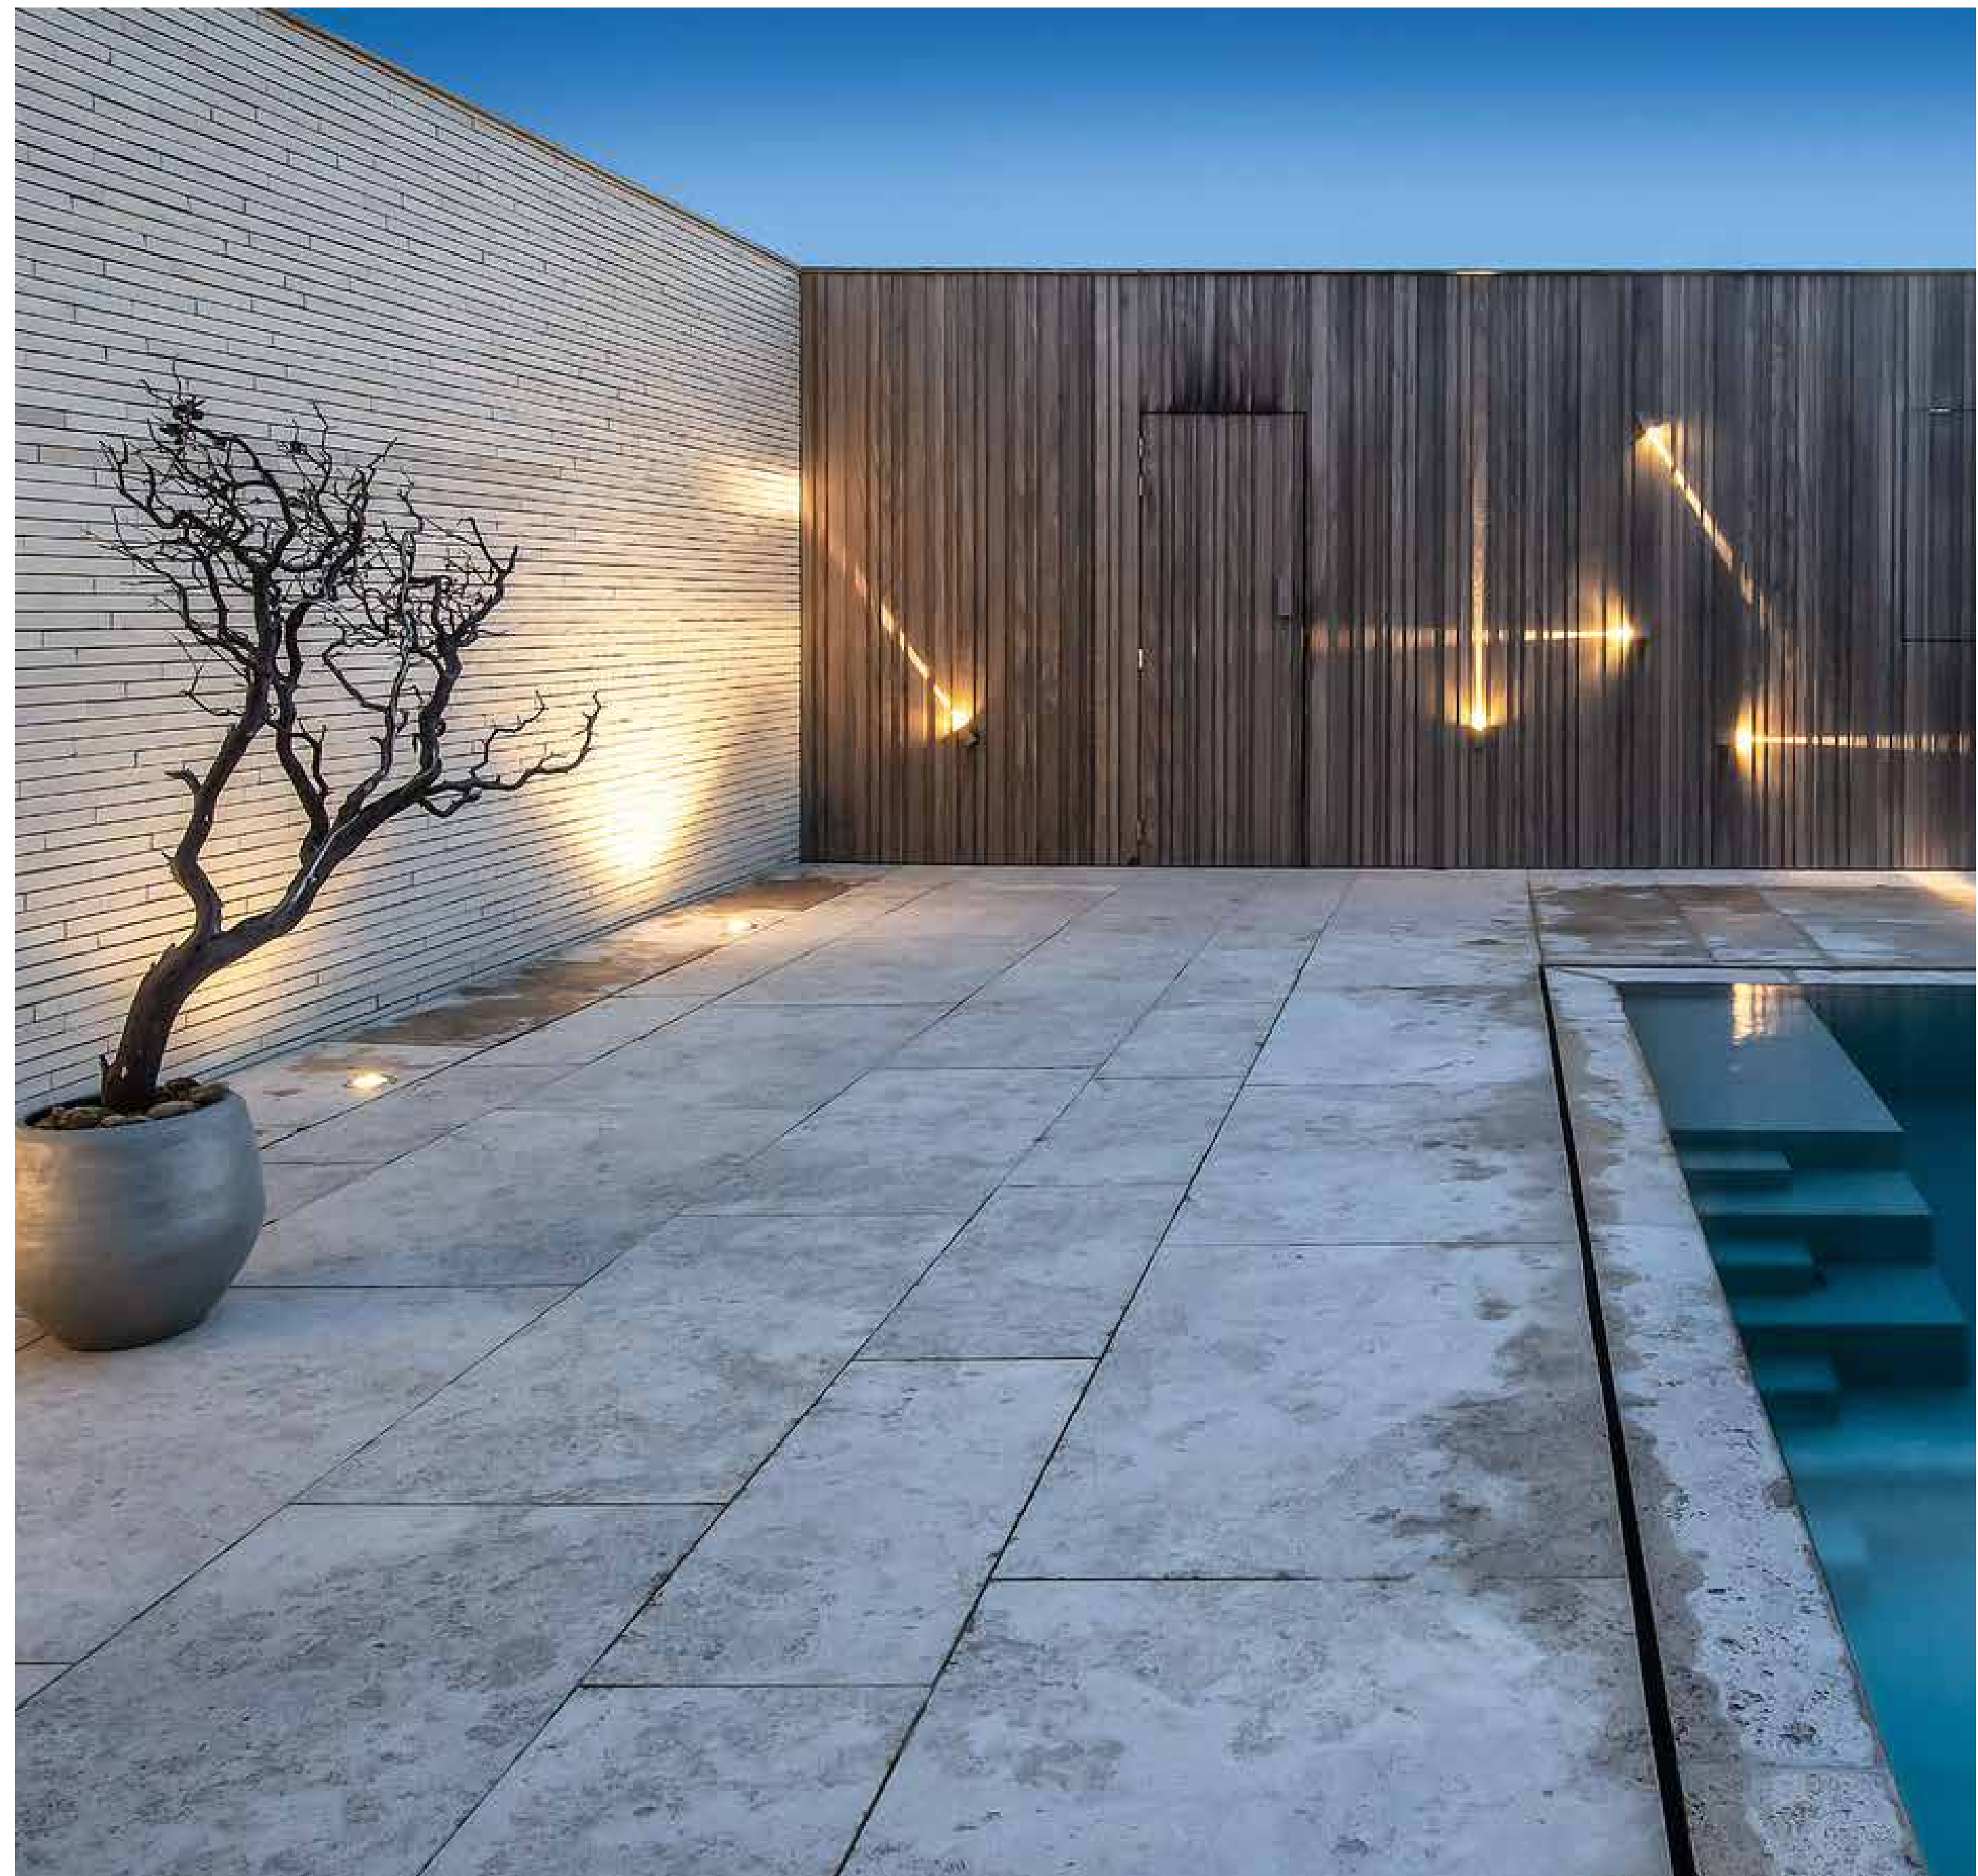

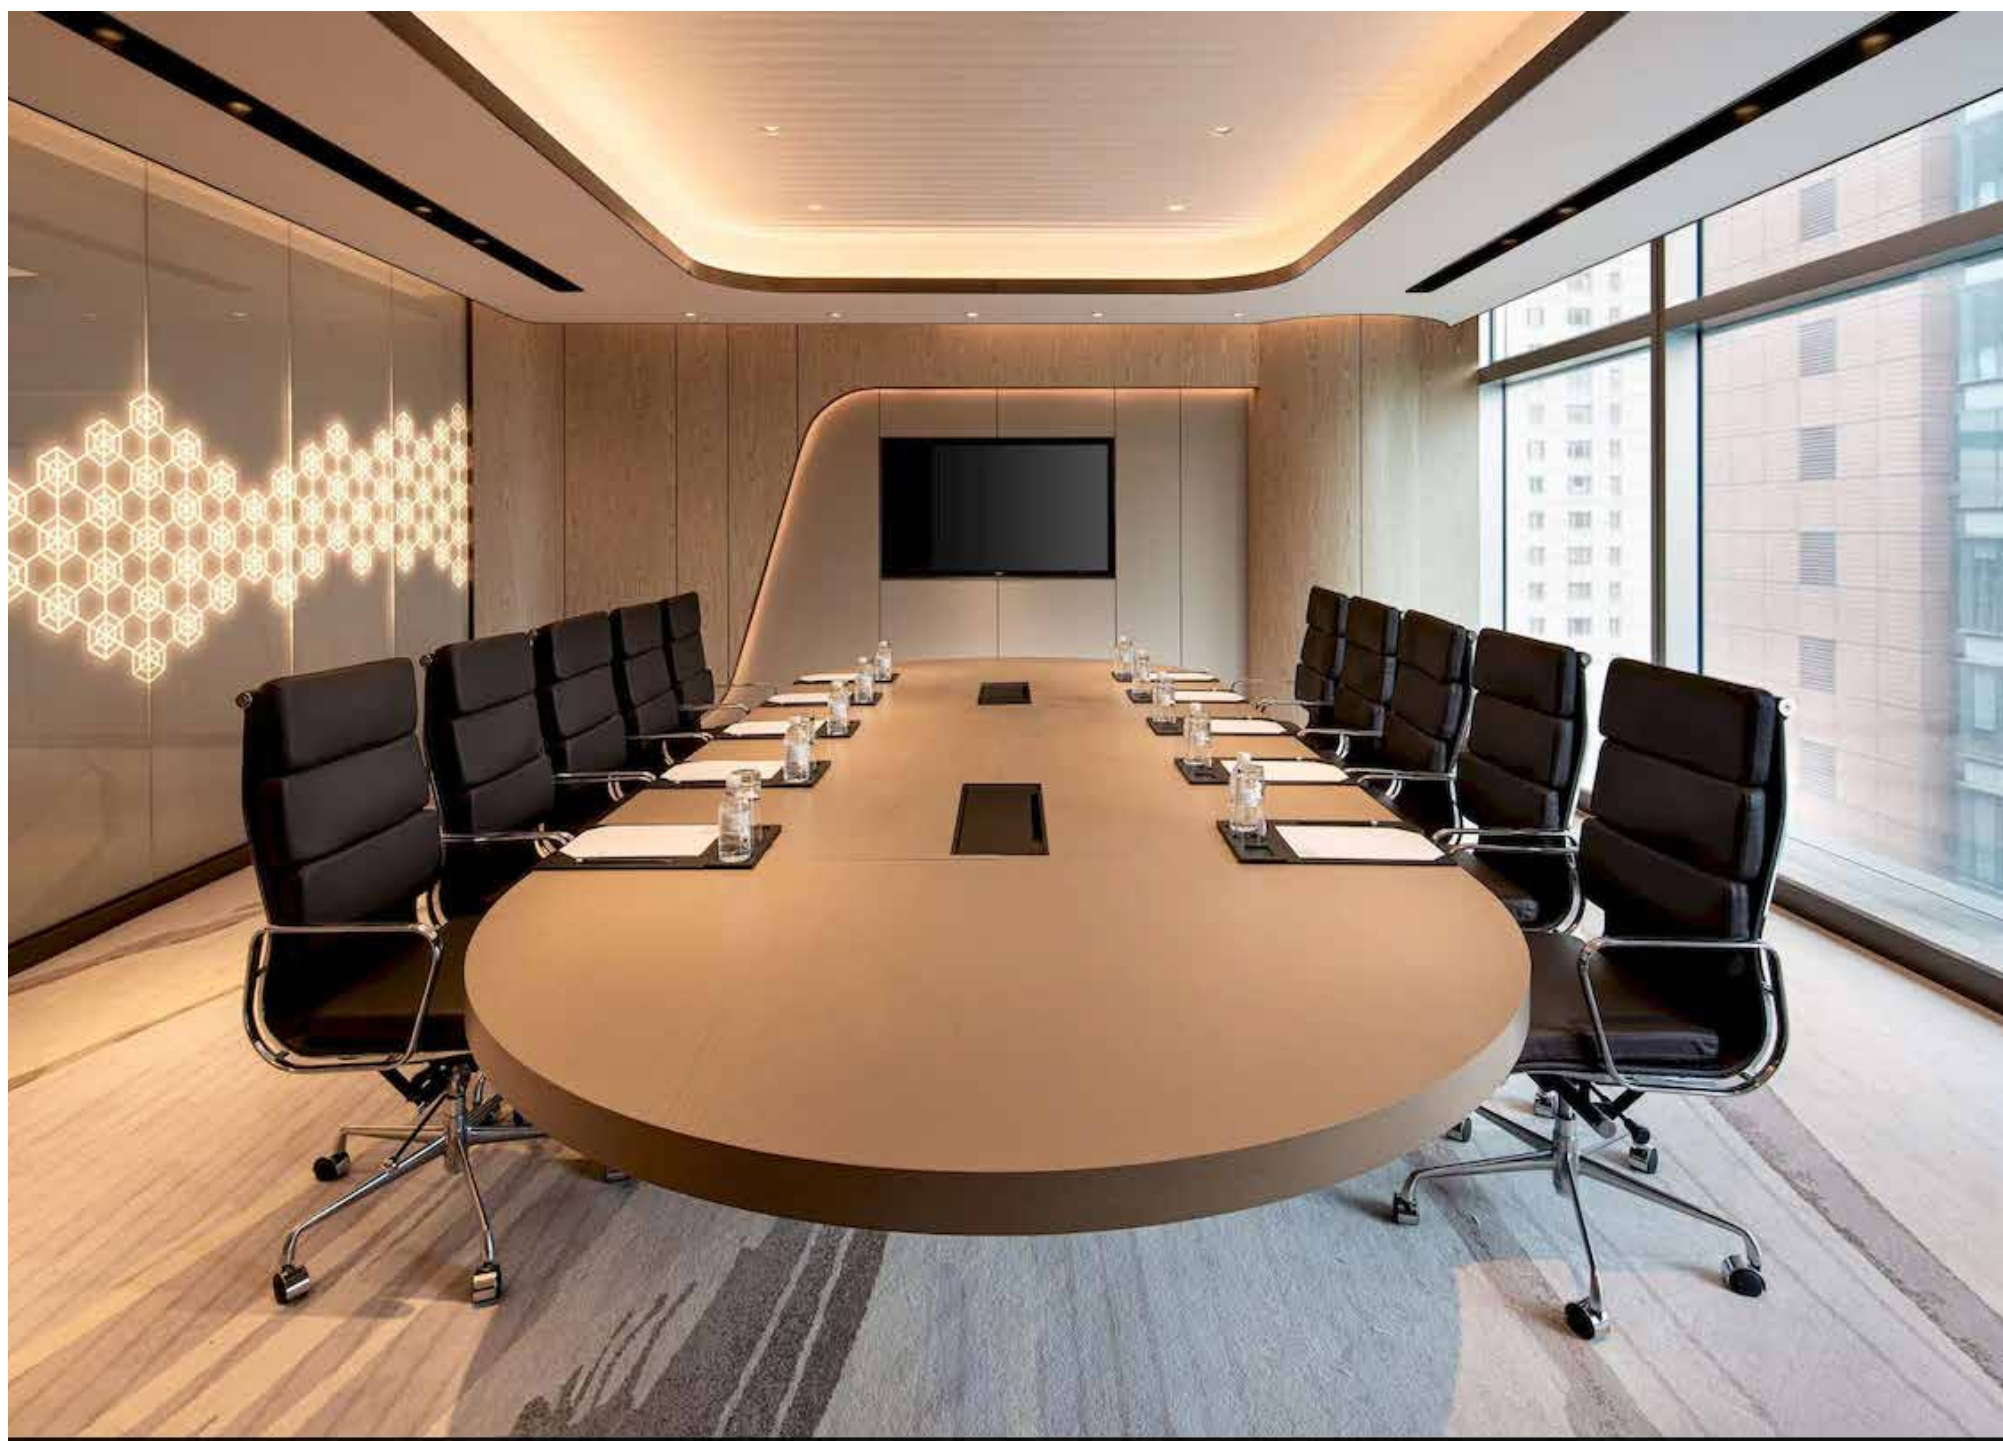

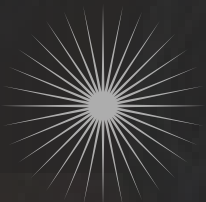

07 Screen

Screen—Hotel lobbies and restaurants are among the first places many guests to see. Making a good impression on your guests is definitely a good start

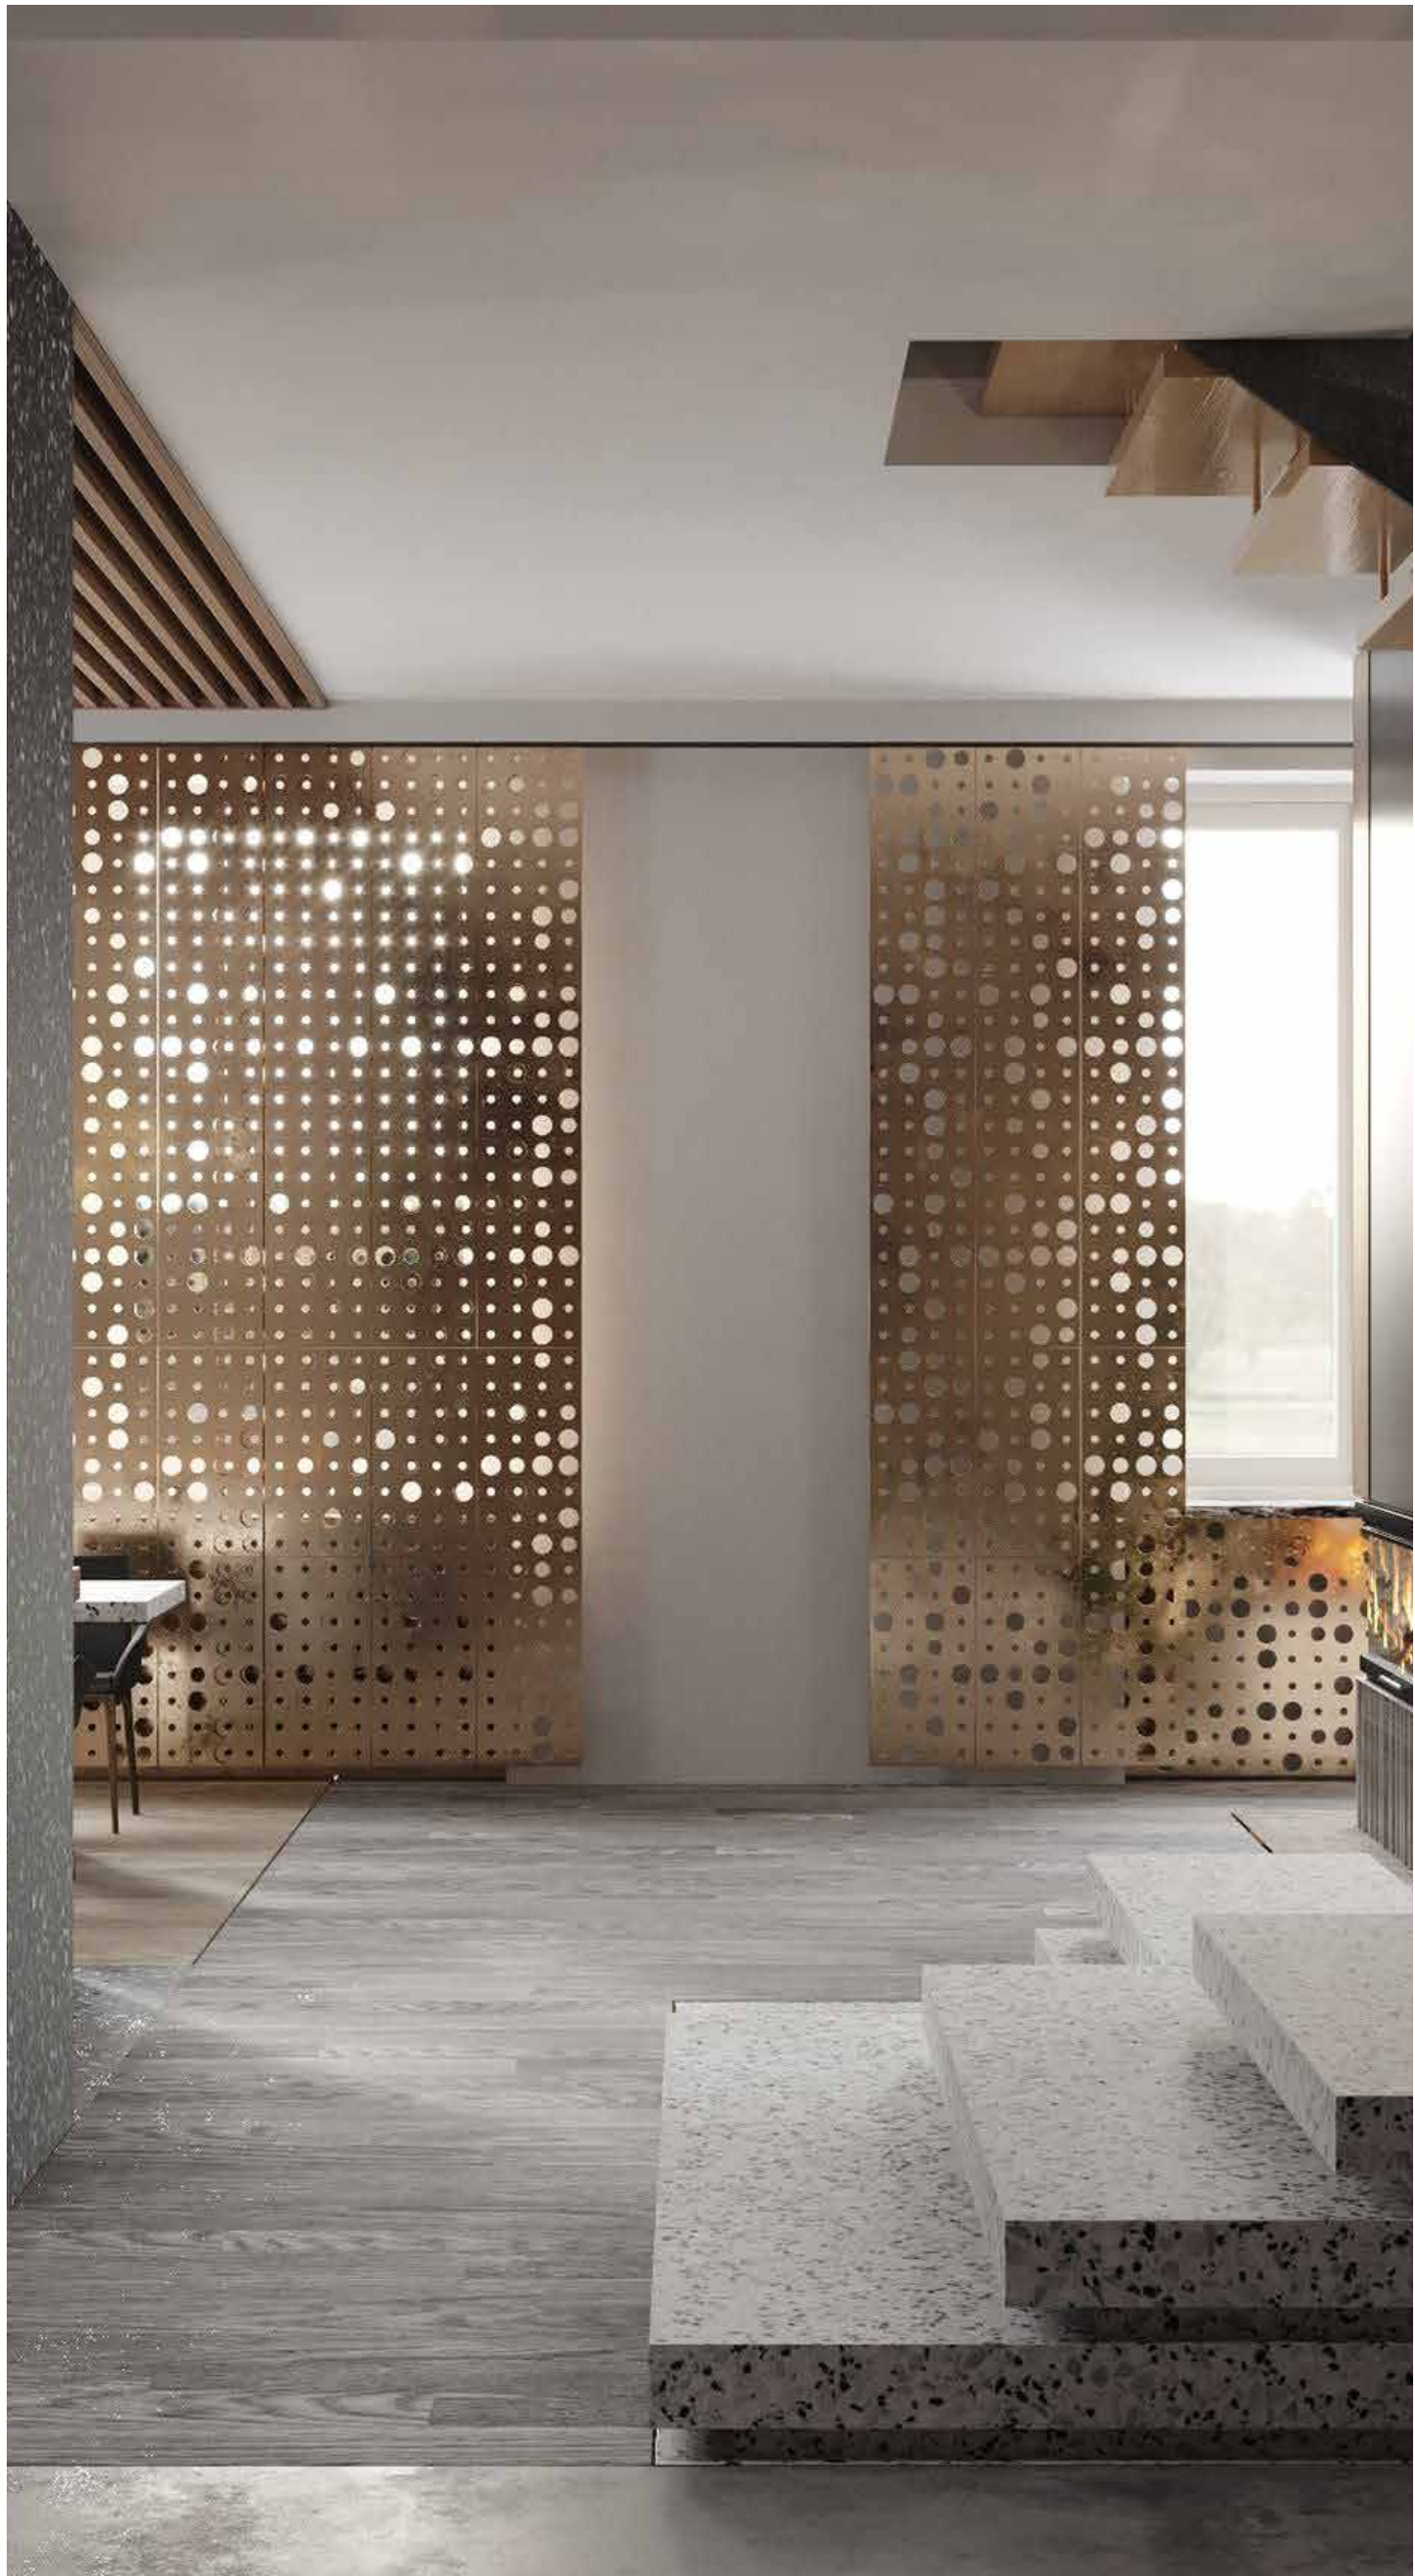

Decorative screen can deliver functionality and practicality to these places in a variety of ways.

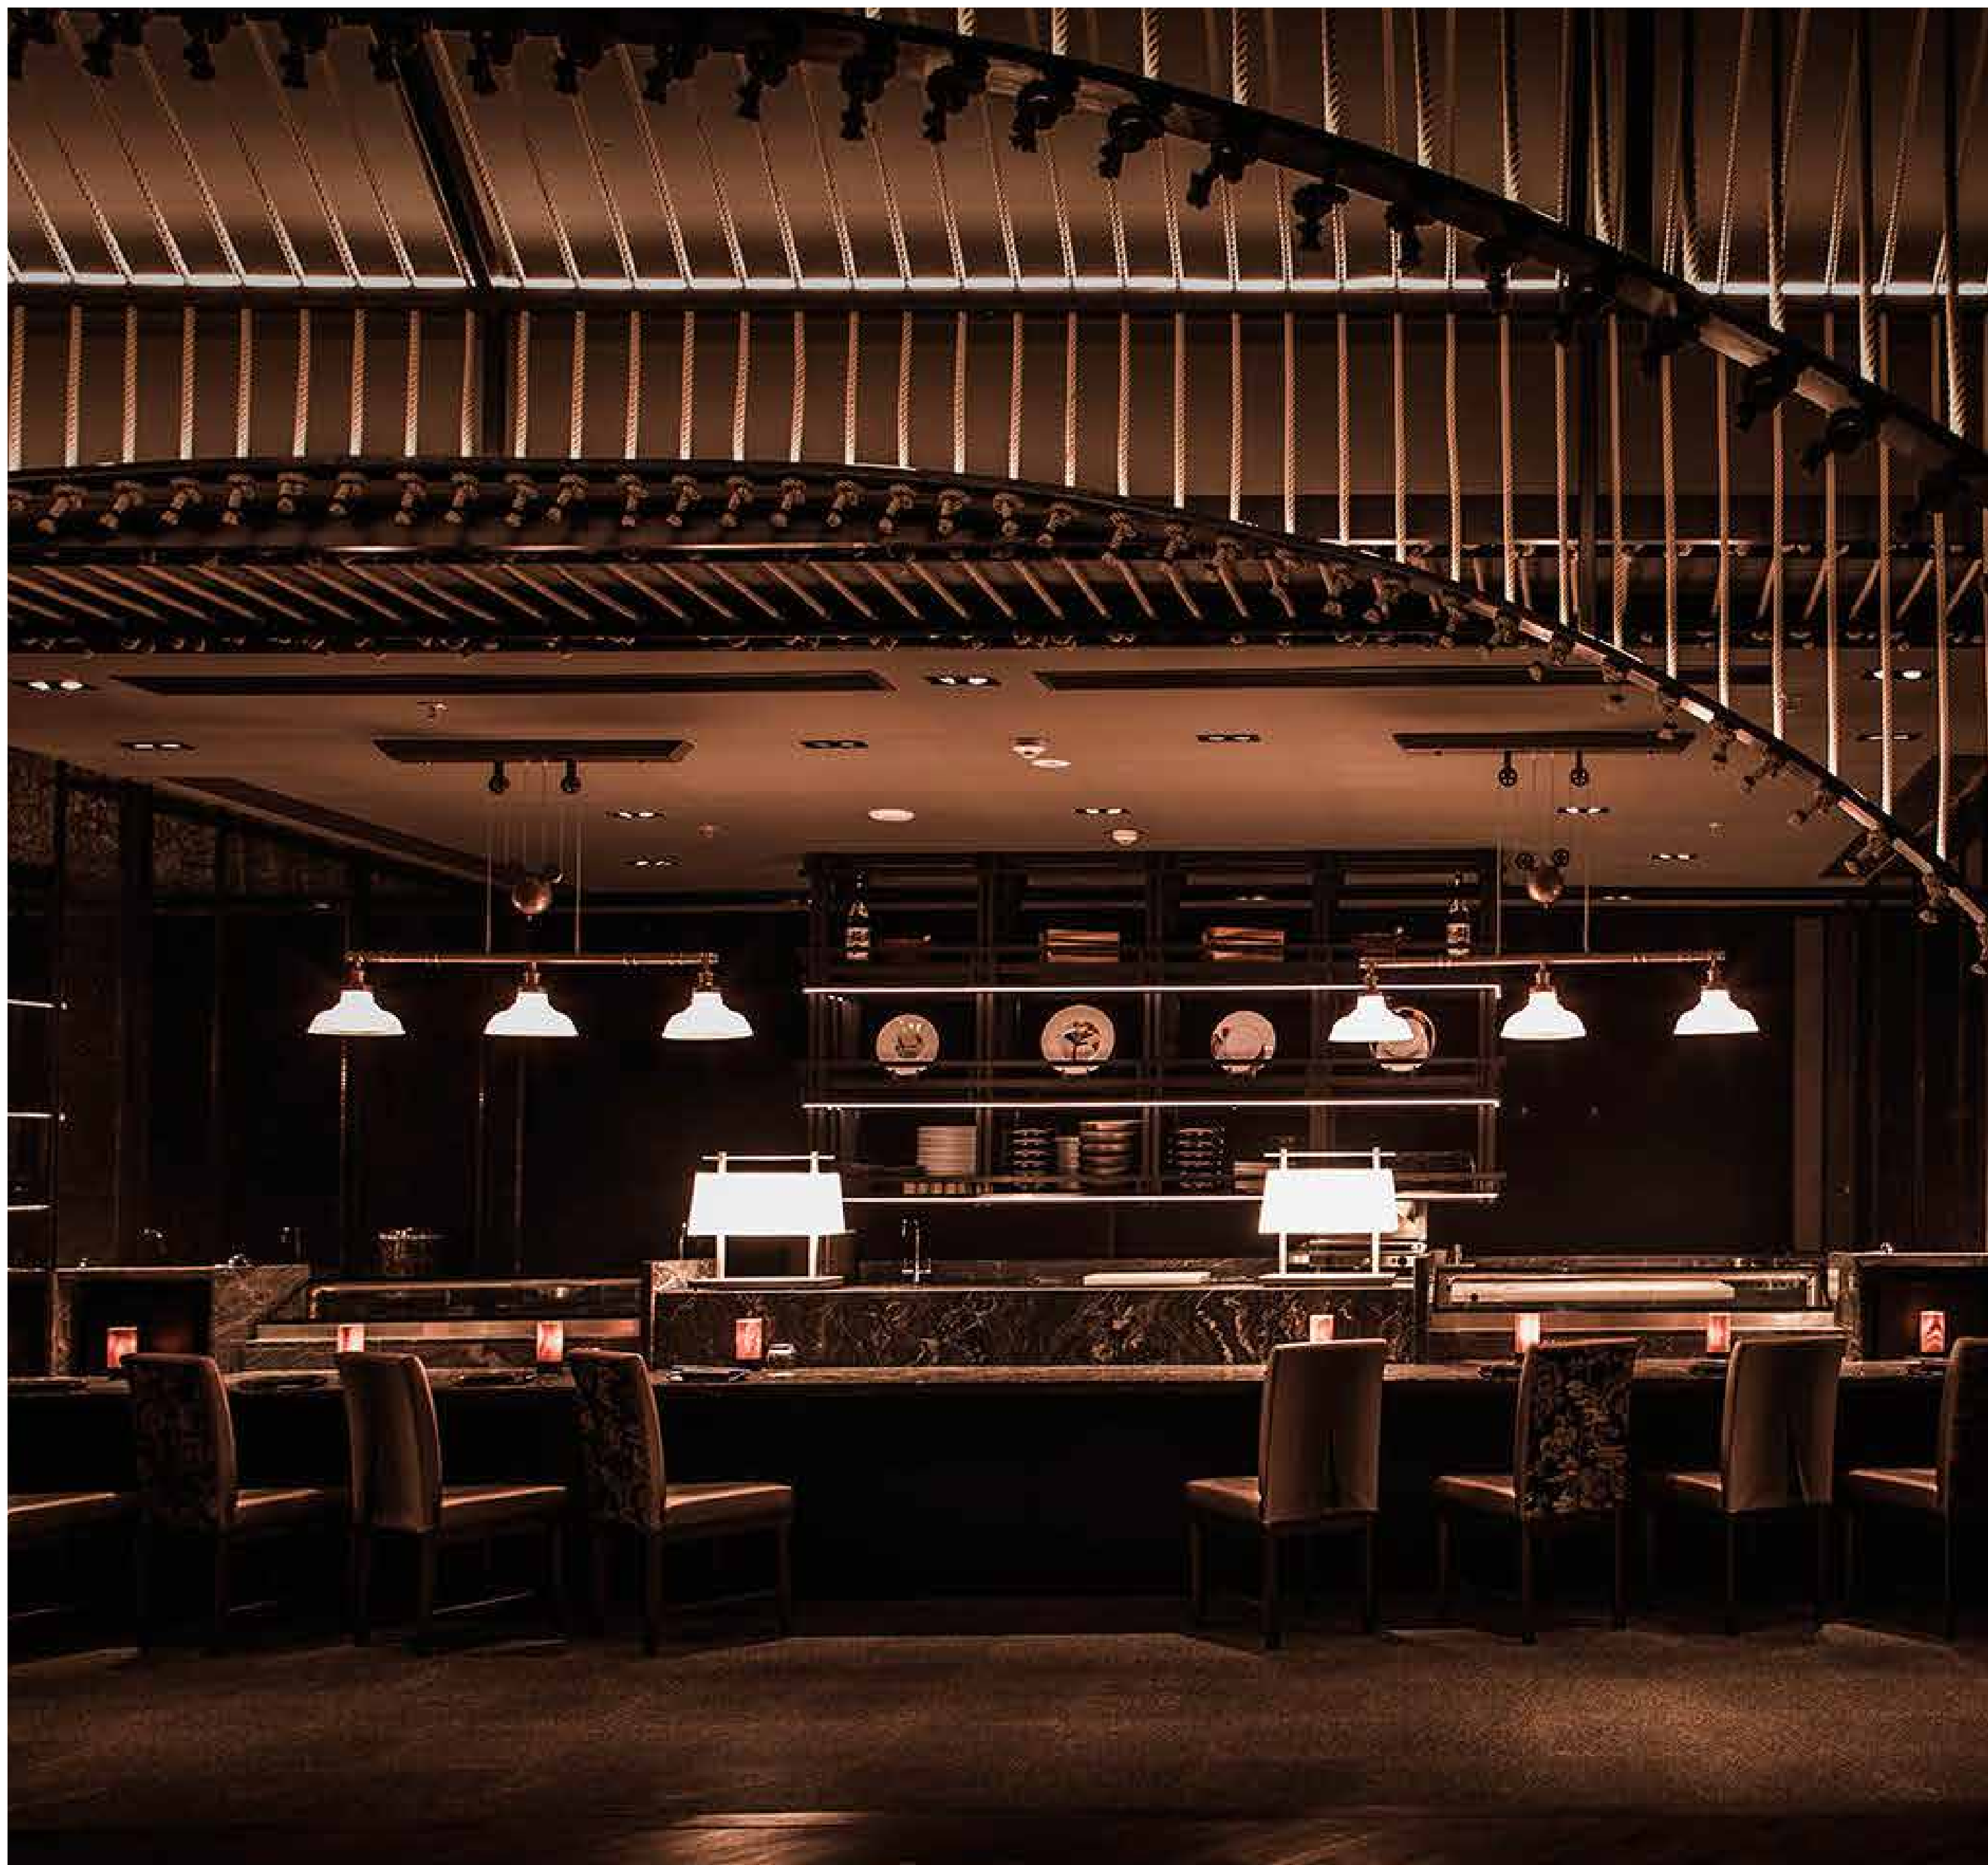

Among many partition materials, metal or glass screen blocks glare and provides a sense of privacy without fully blocking guests' views.

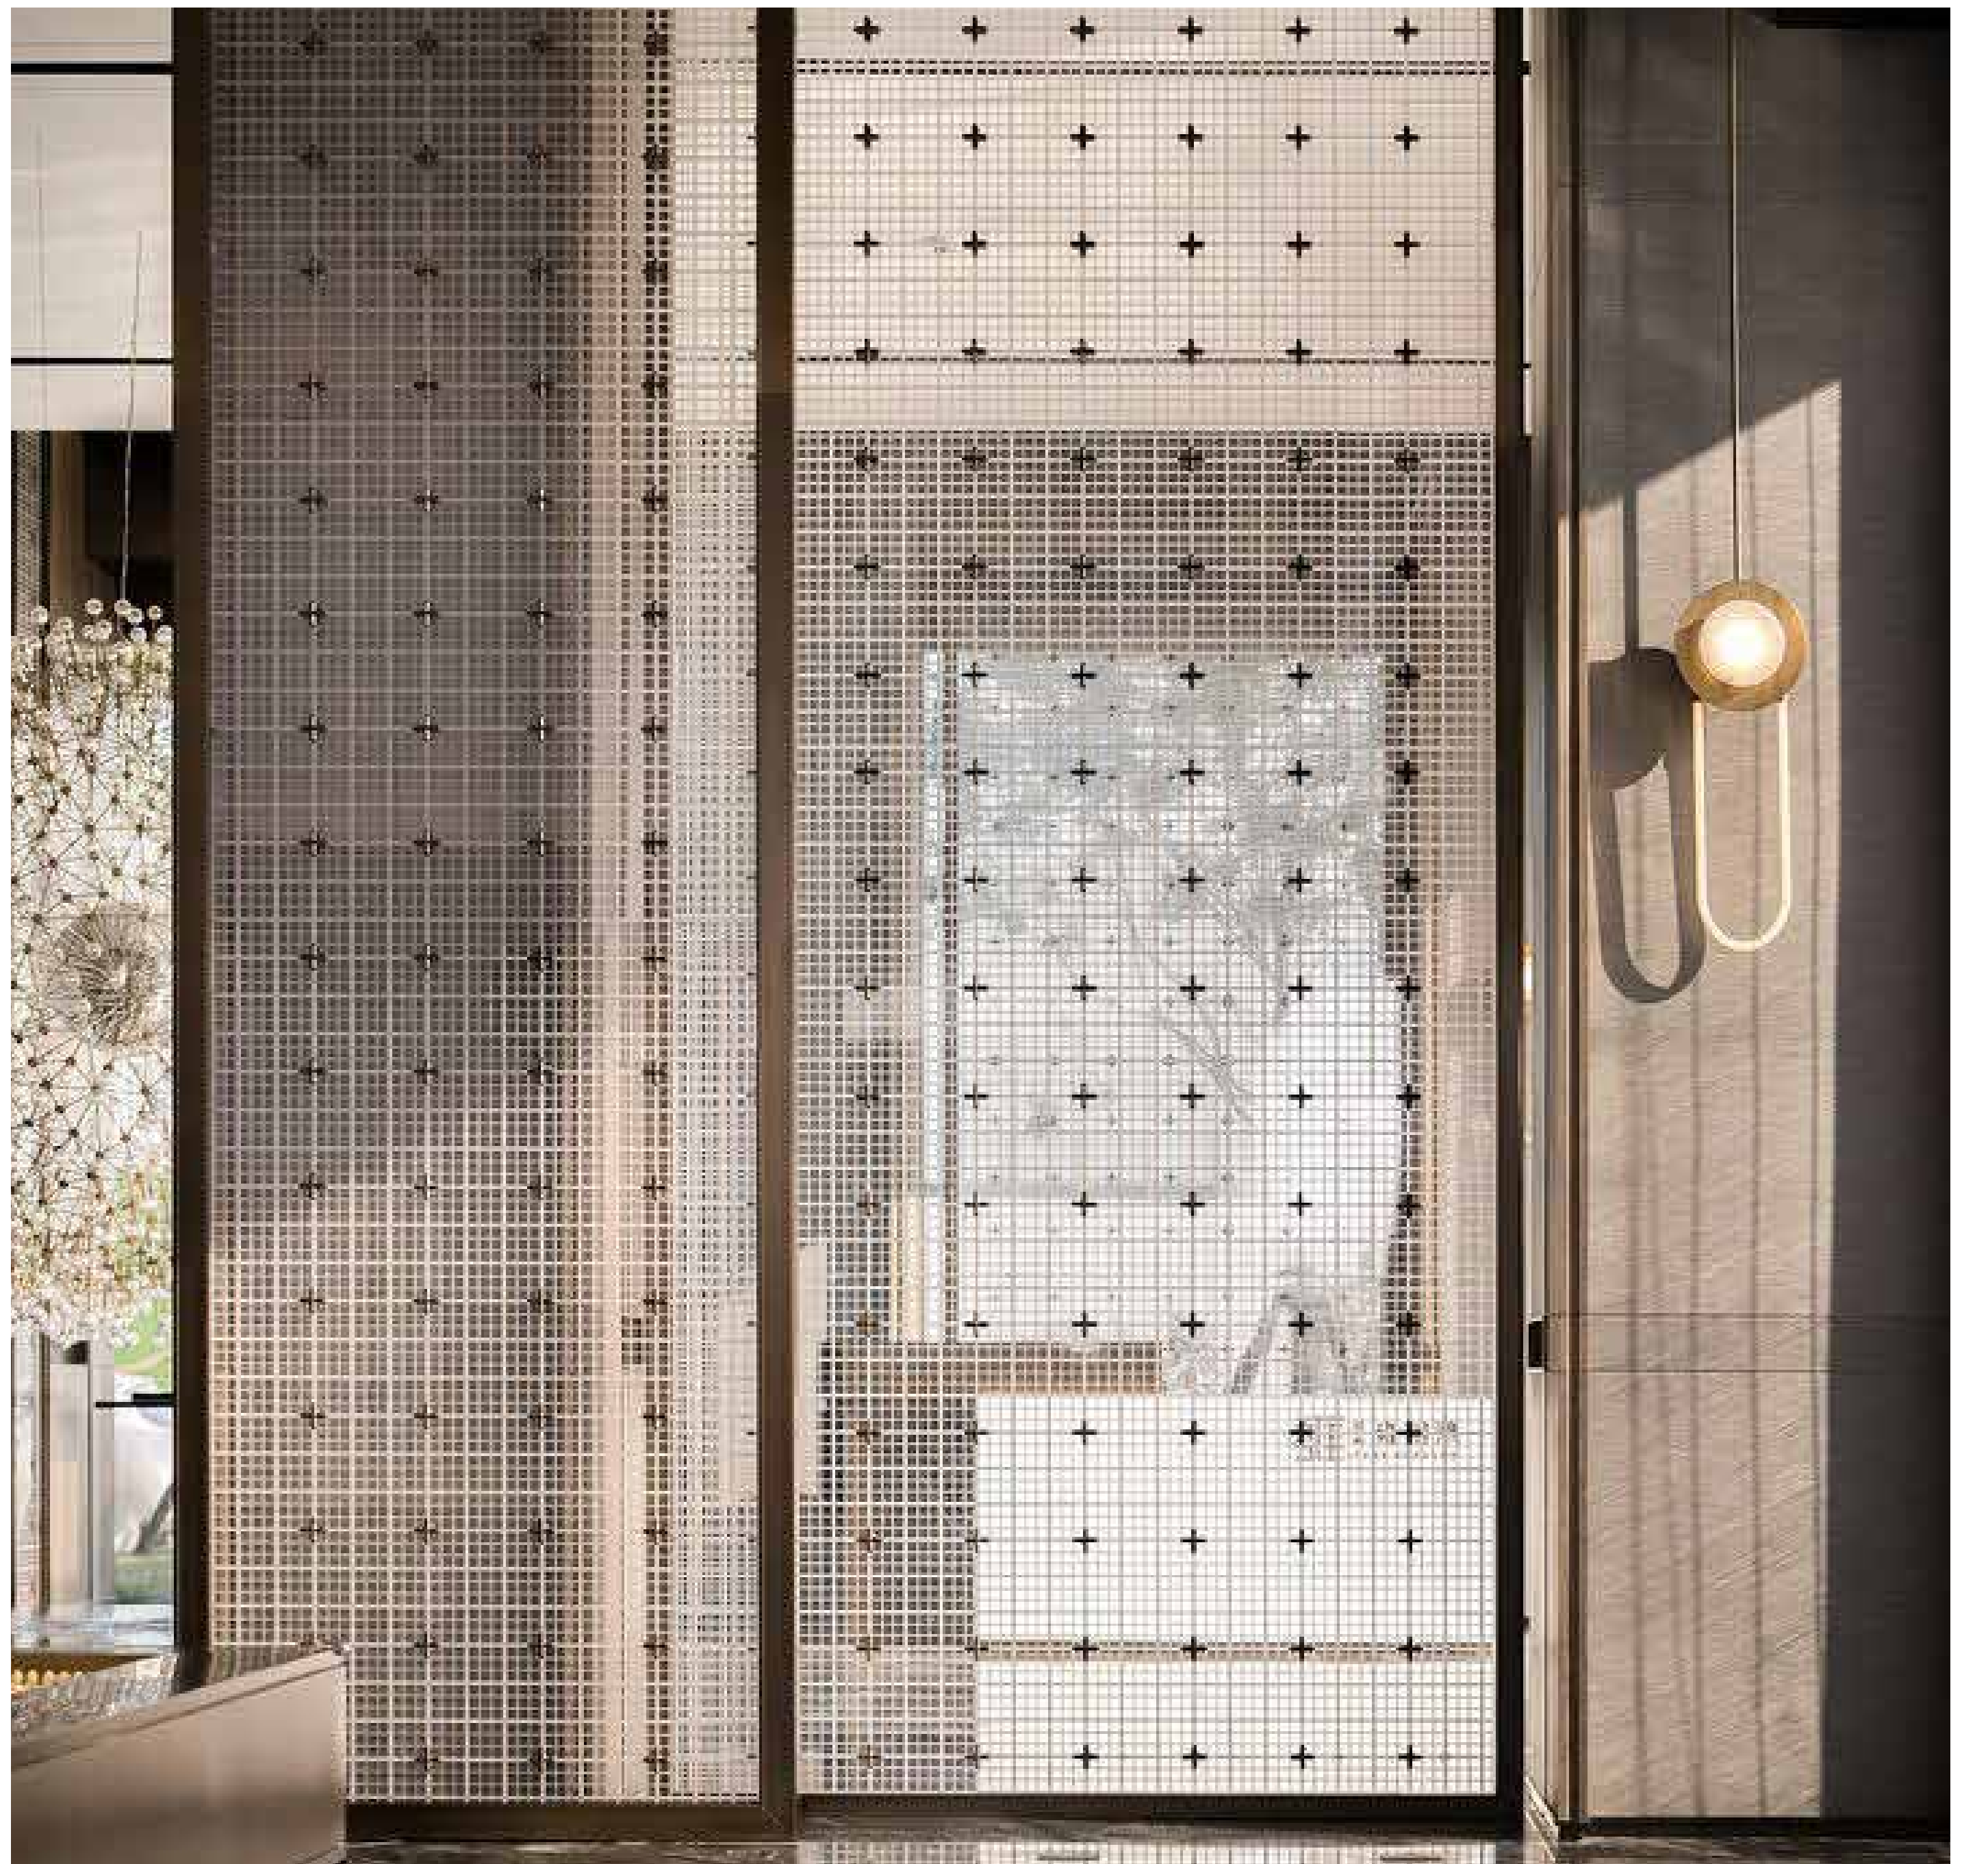

In addition, it makes it will not block the flow of air. The decoration screen is non-flammable, durable, not easy to fade under sunlight, and easy to clean.

Hotel Signage

Hotel signage has always been a decisive factor not only for the upgrade of the properties' operation, but also for the increase of their customers' satisfaction during their stay.

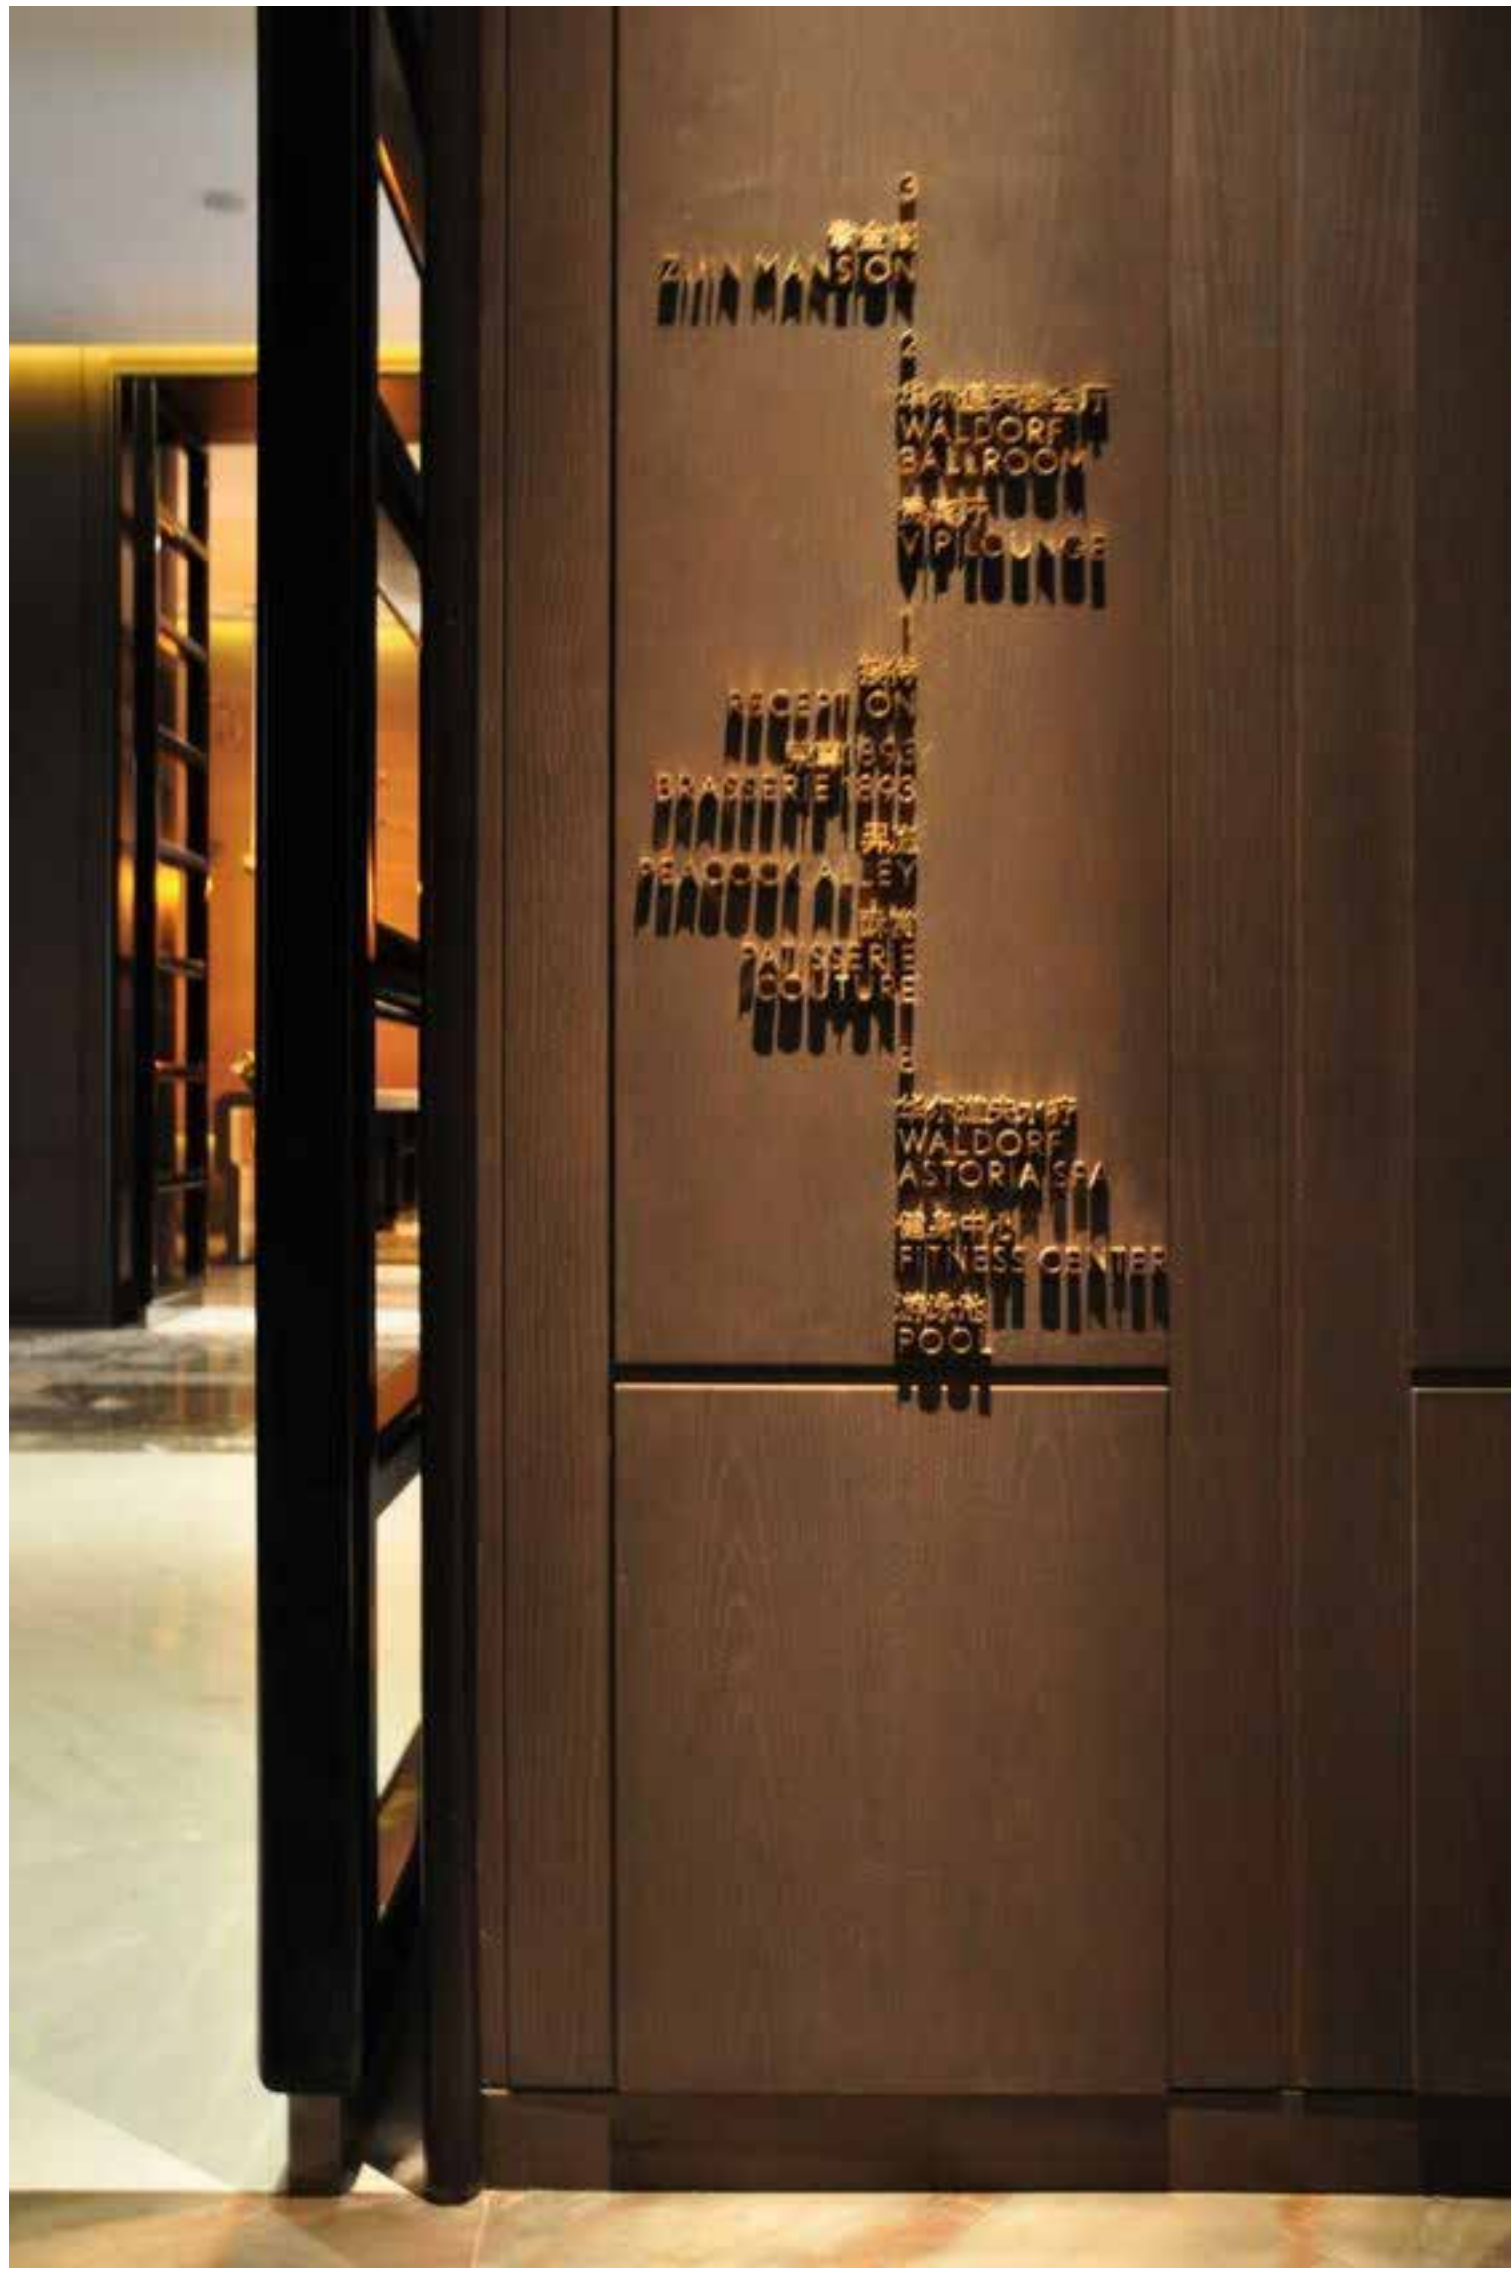

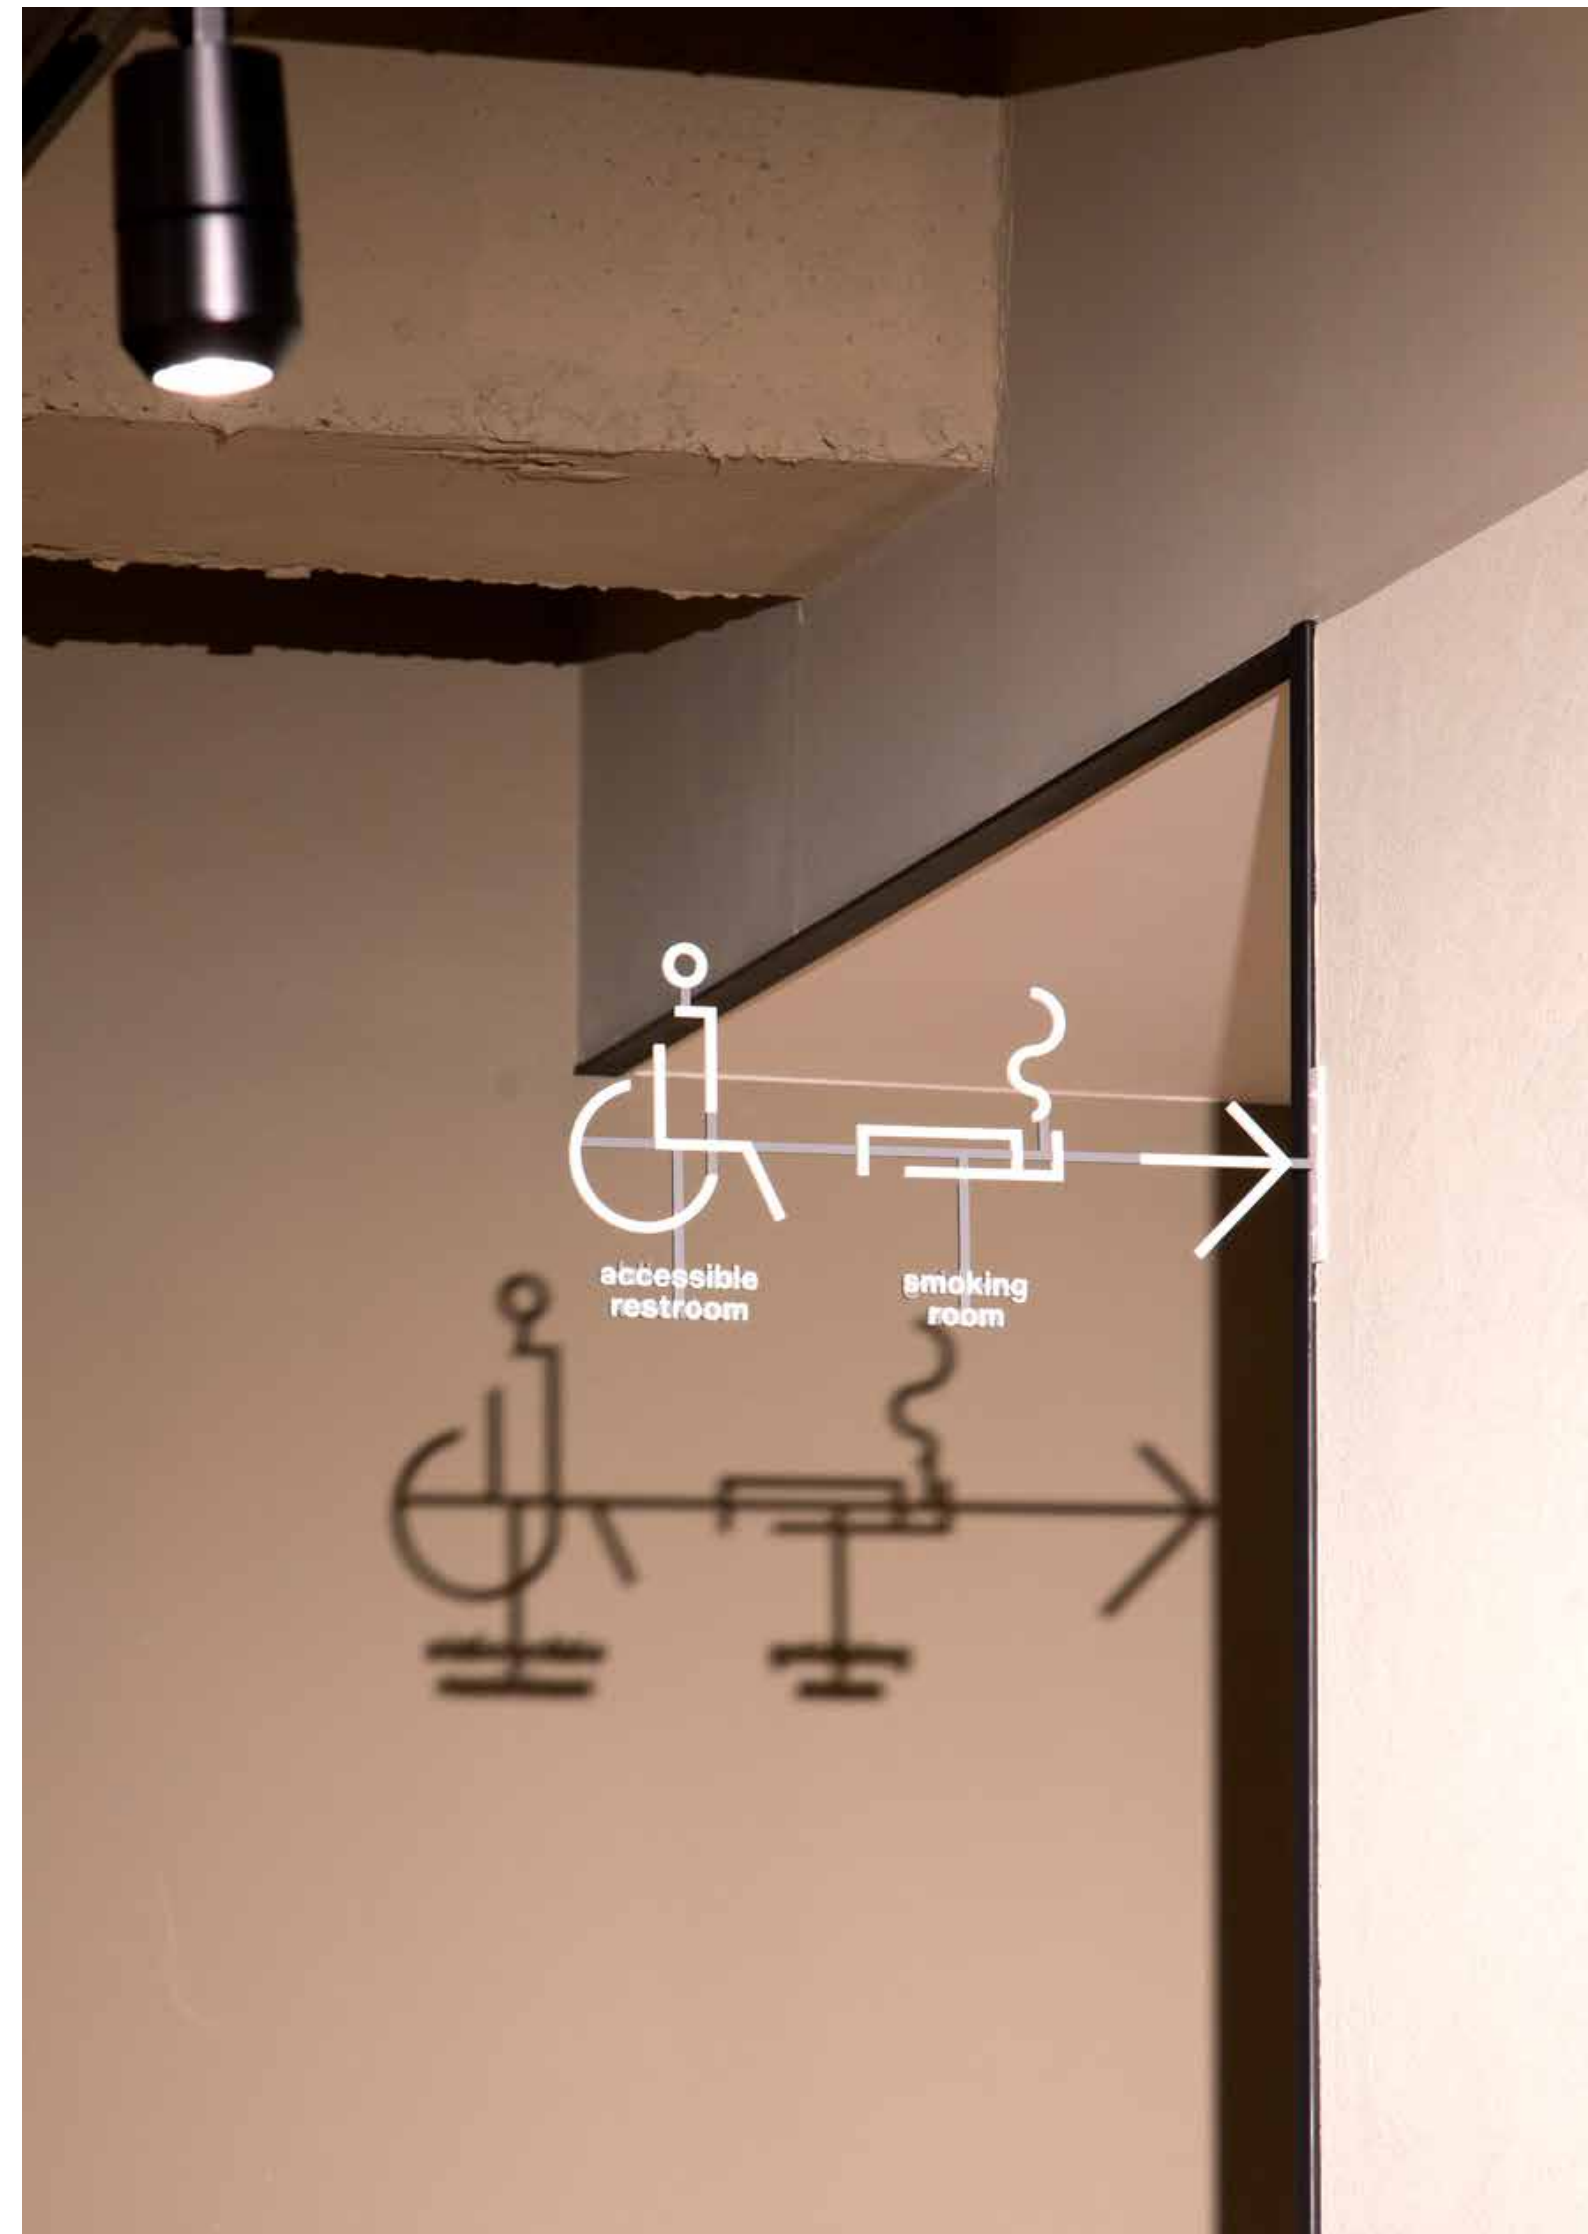

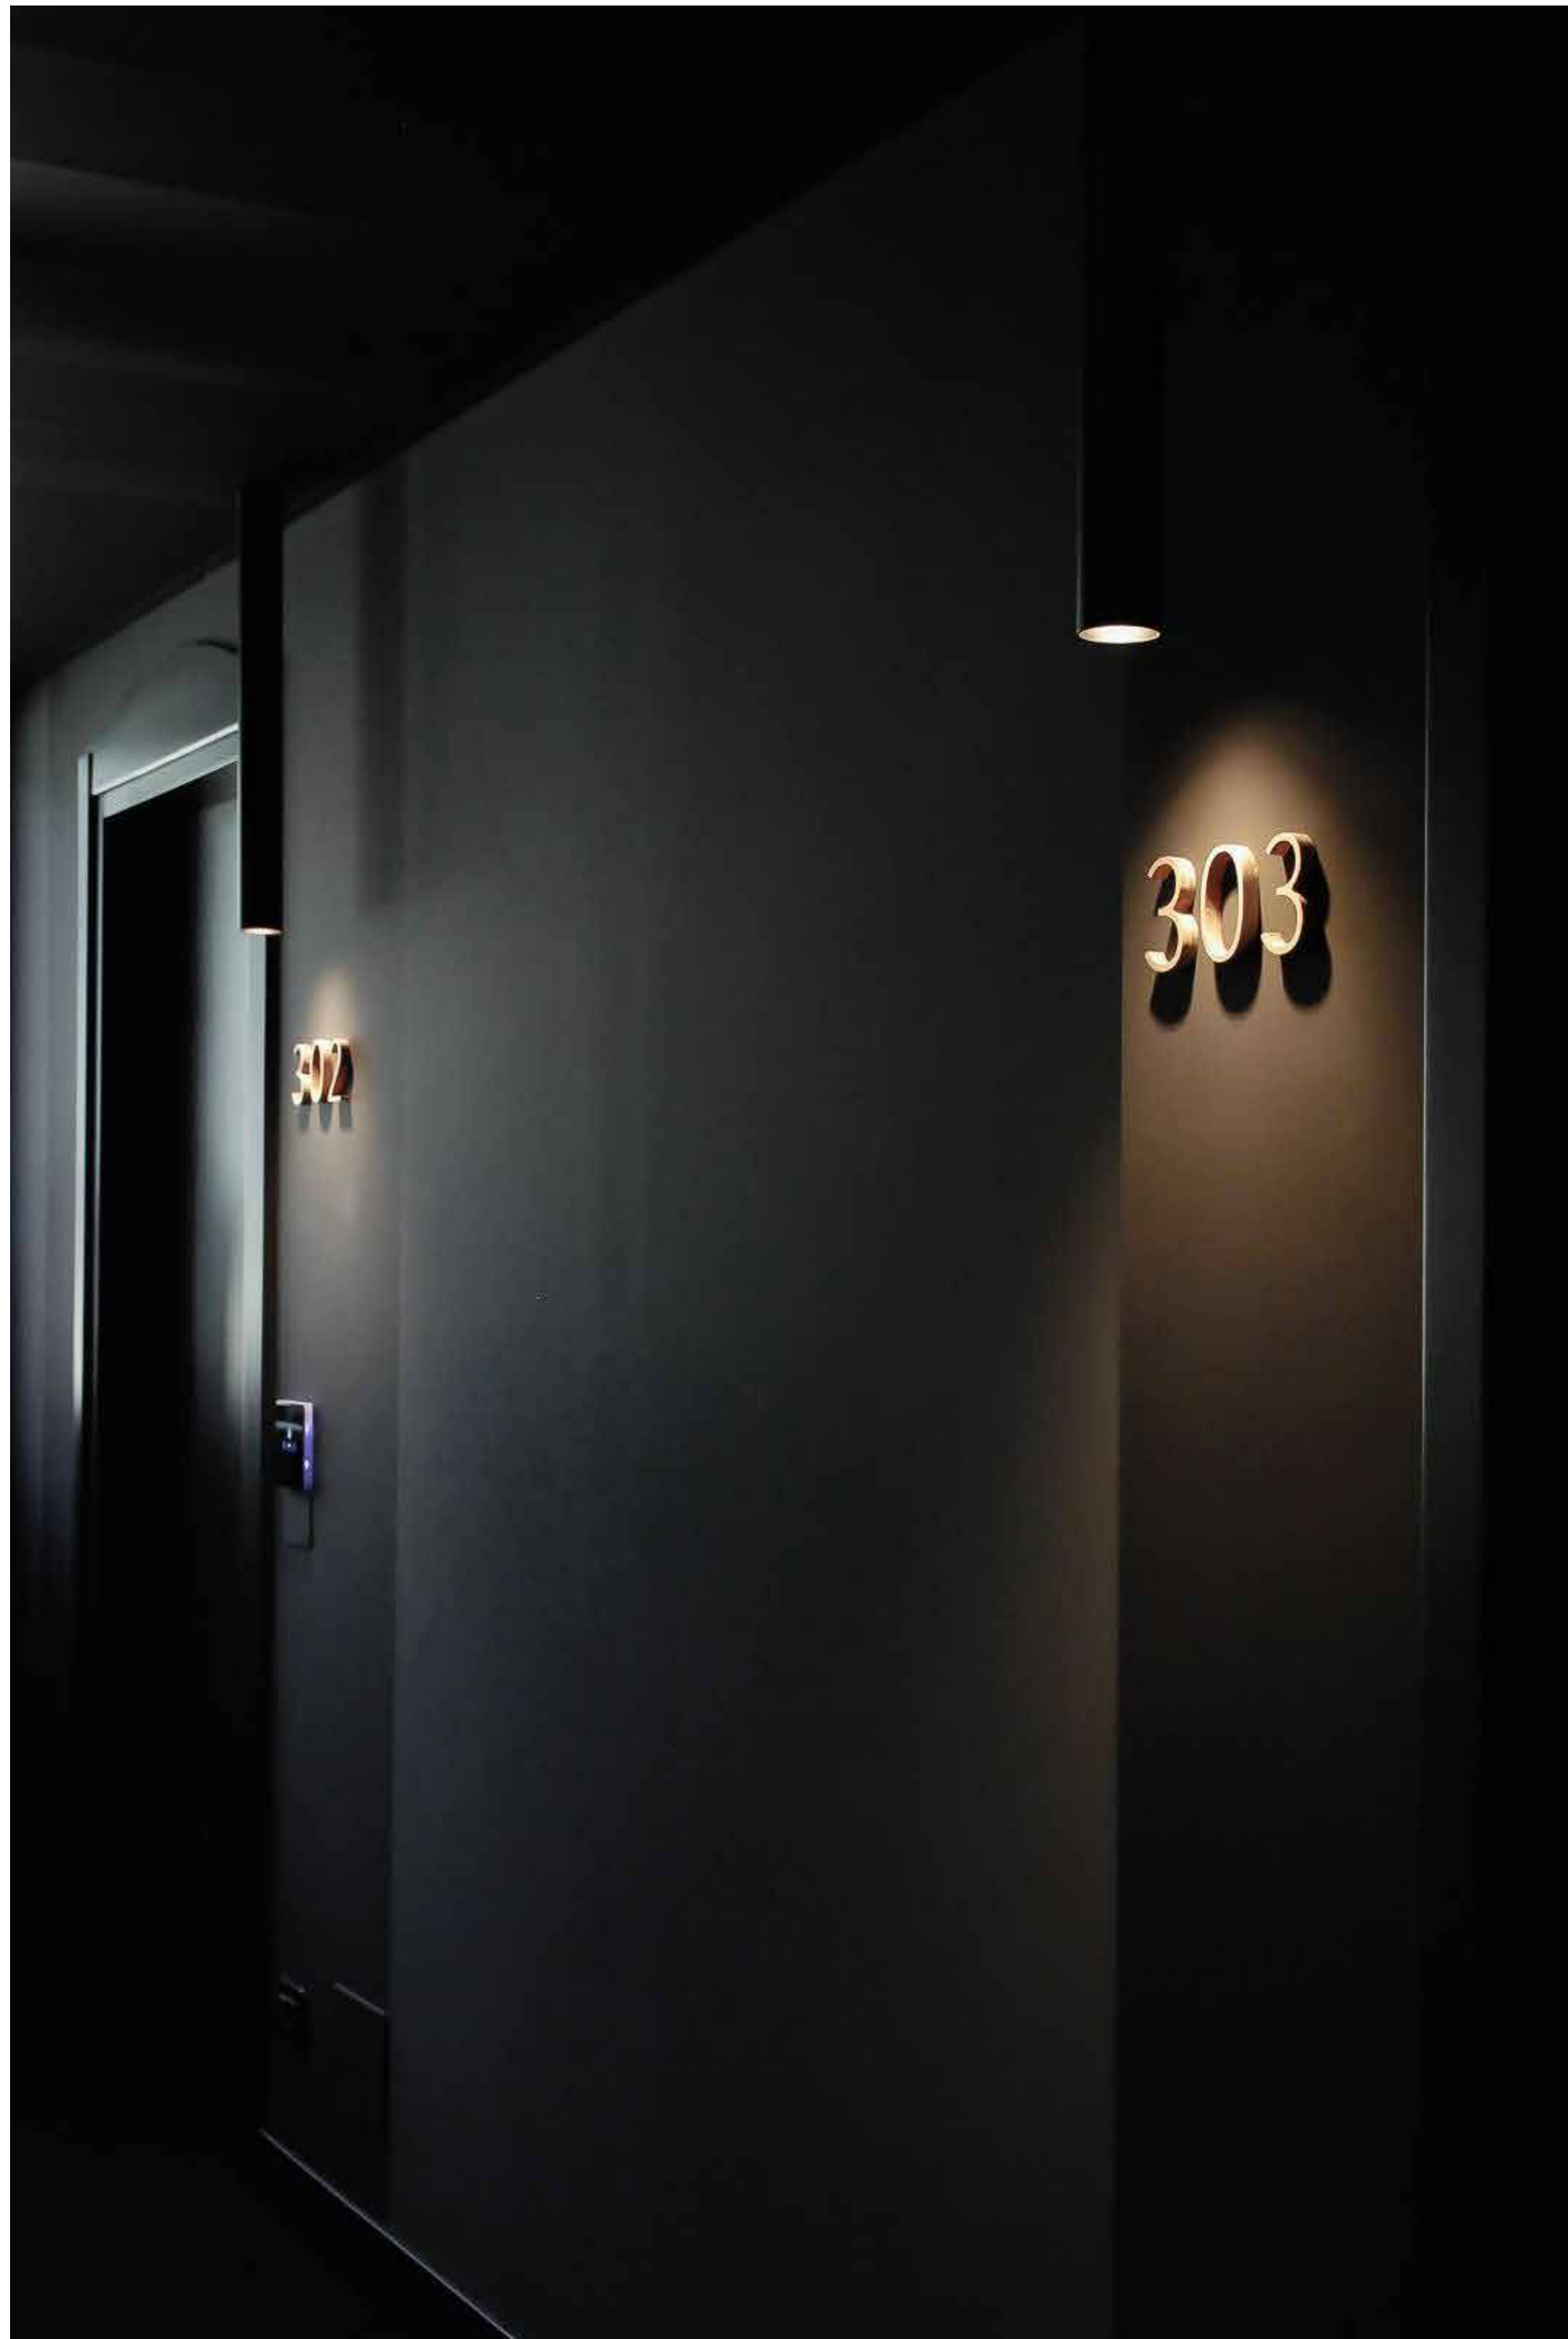

In both large and small accommodation types, proper signage helps travelers orient themselves, not only in relation to their room, but also in relation to basic accommodation facilities such as restaurants, Spa, swimming pools, etc.

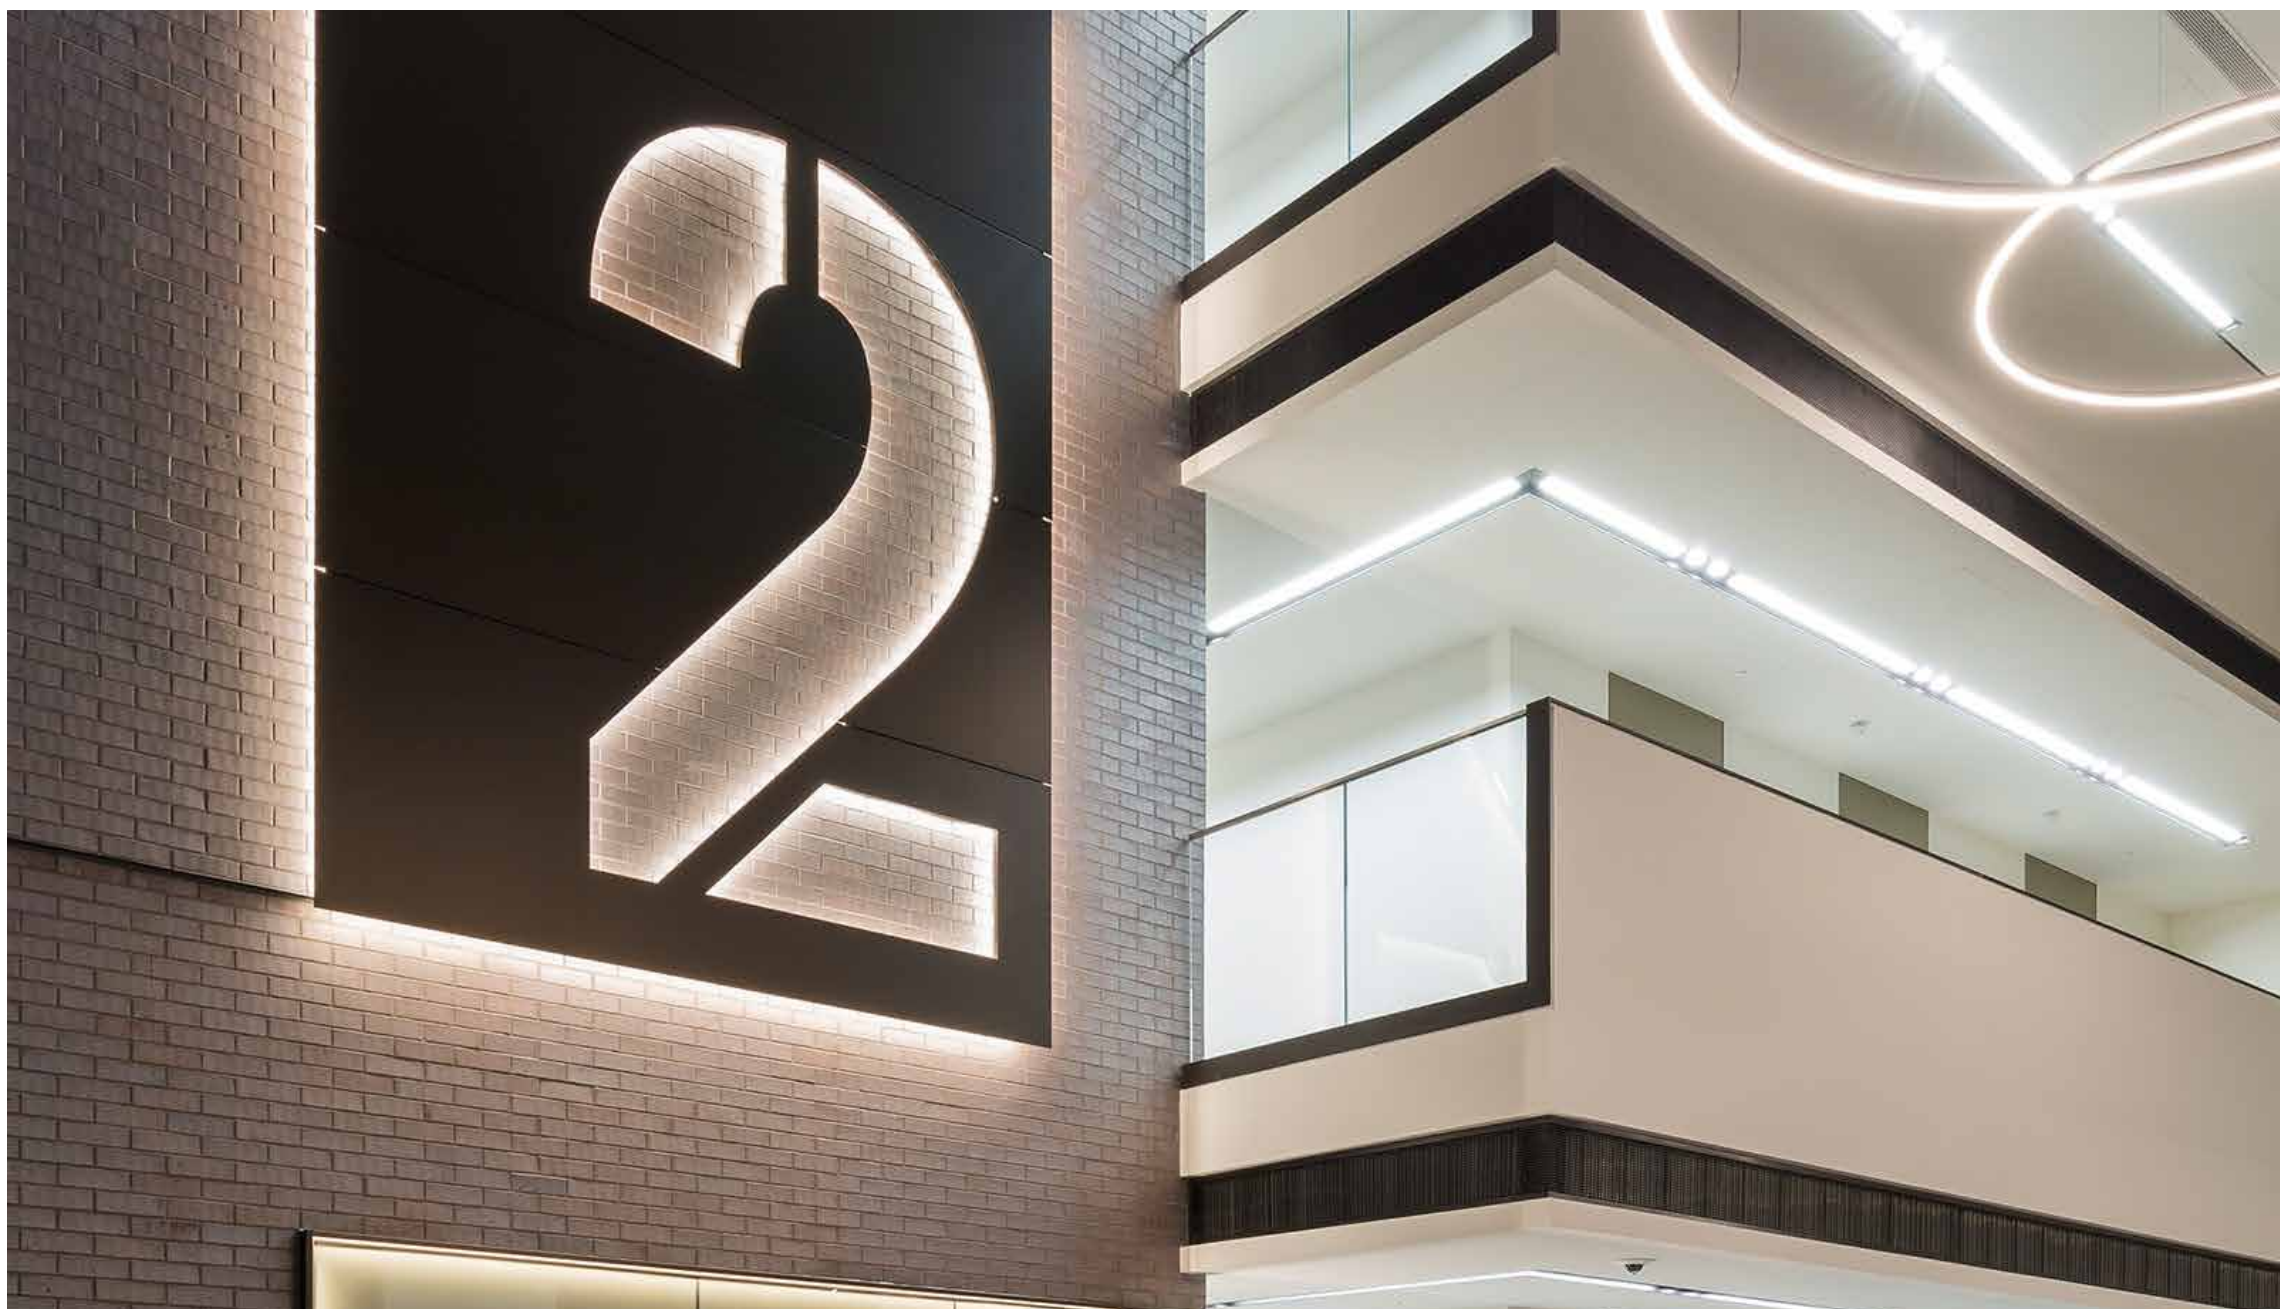

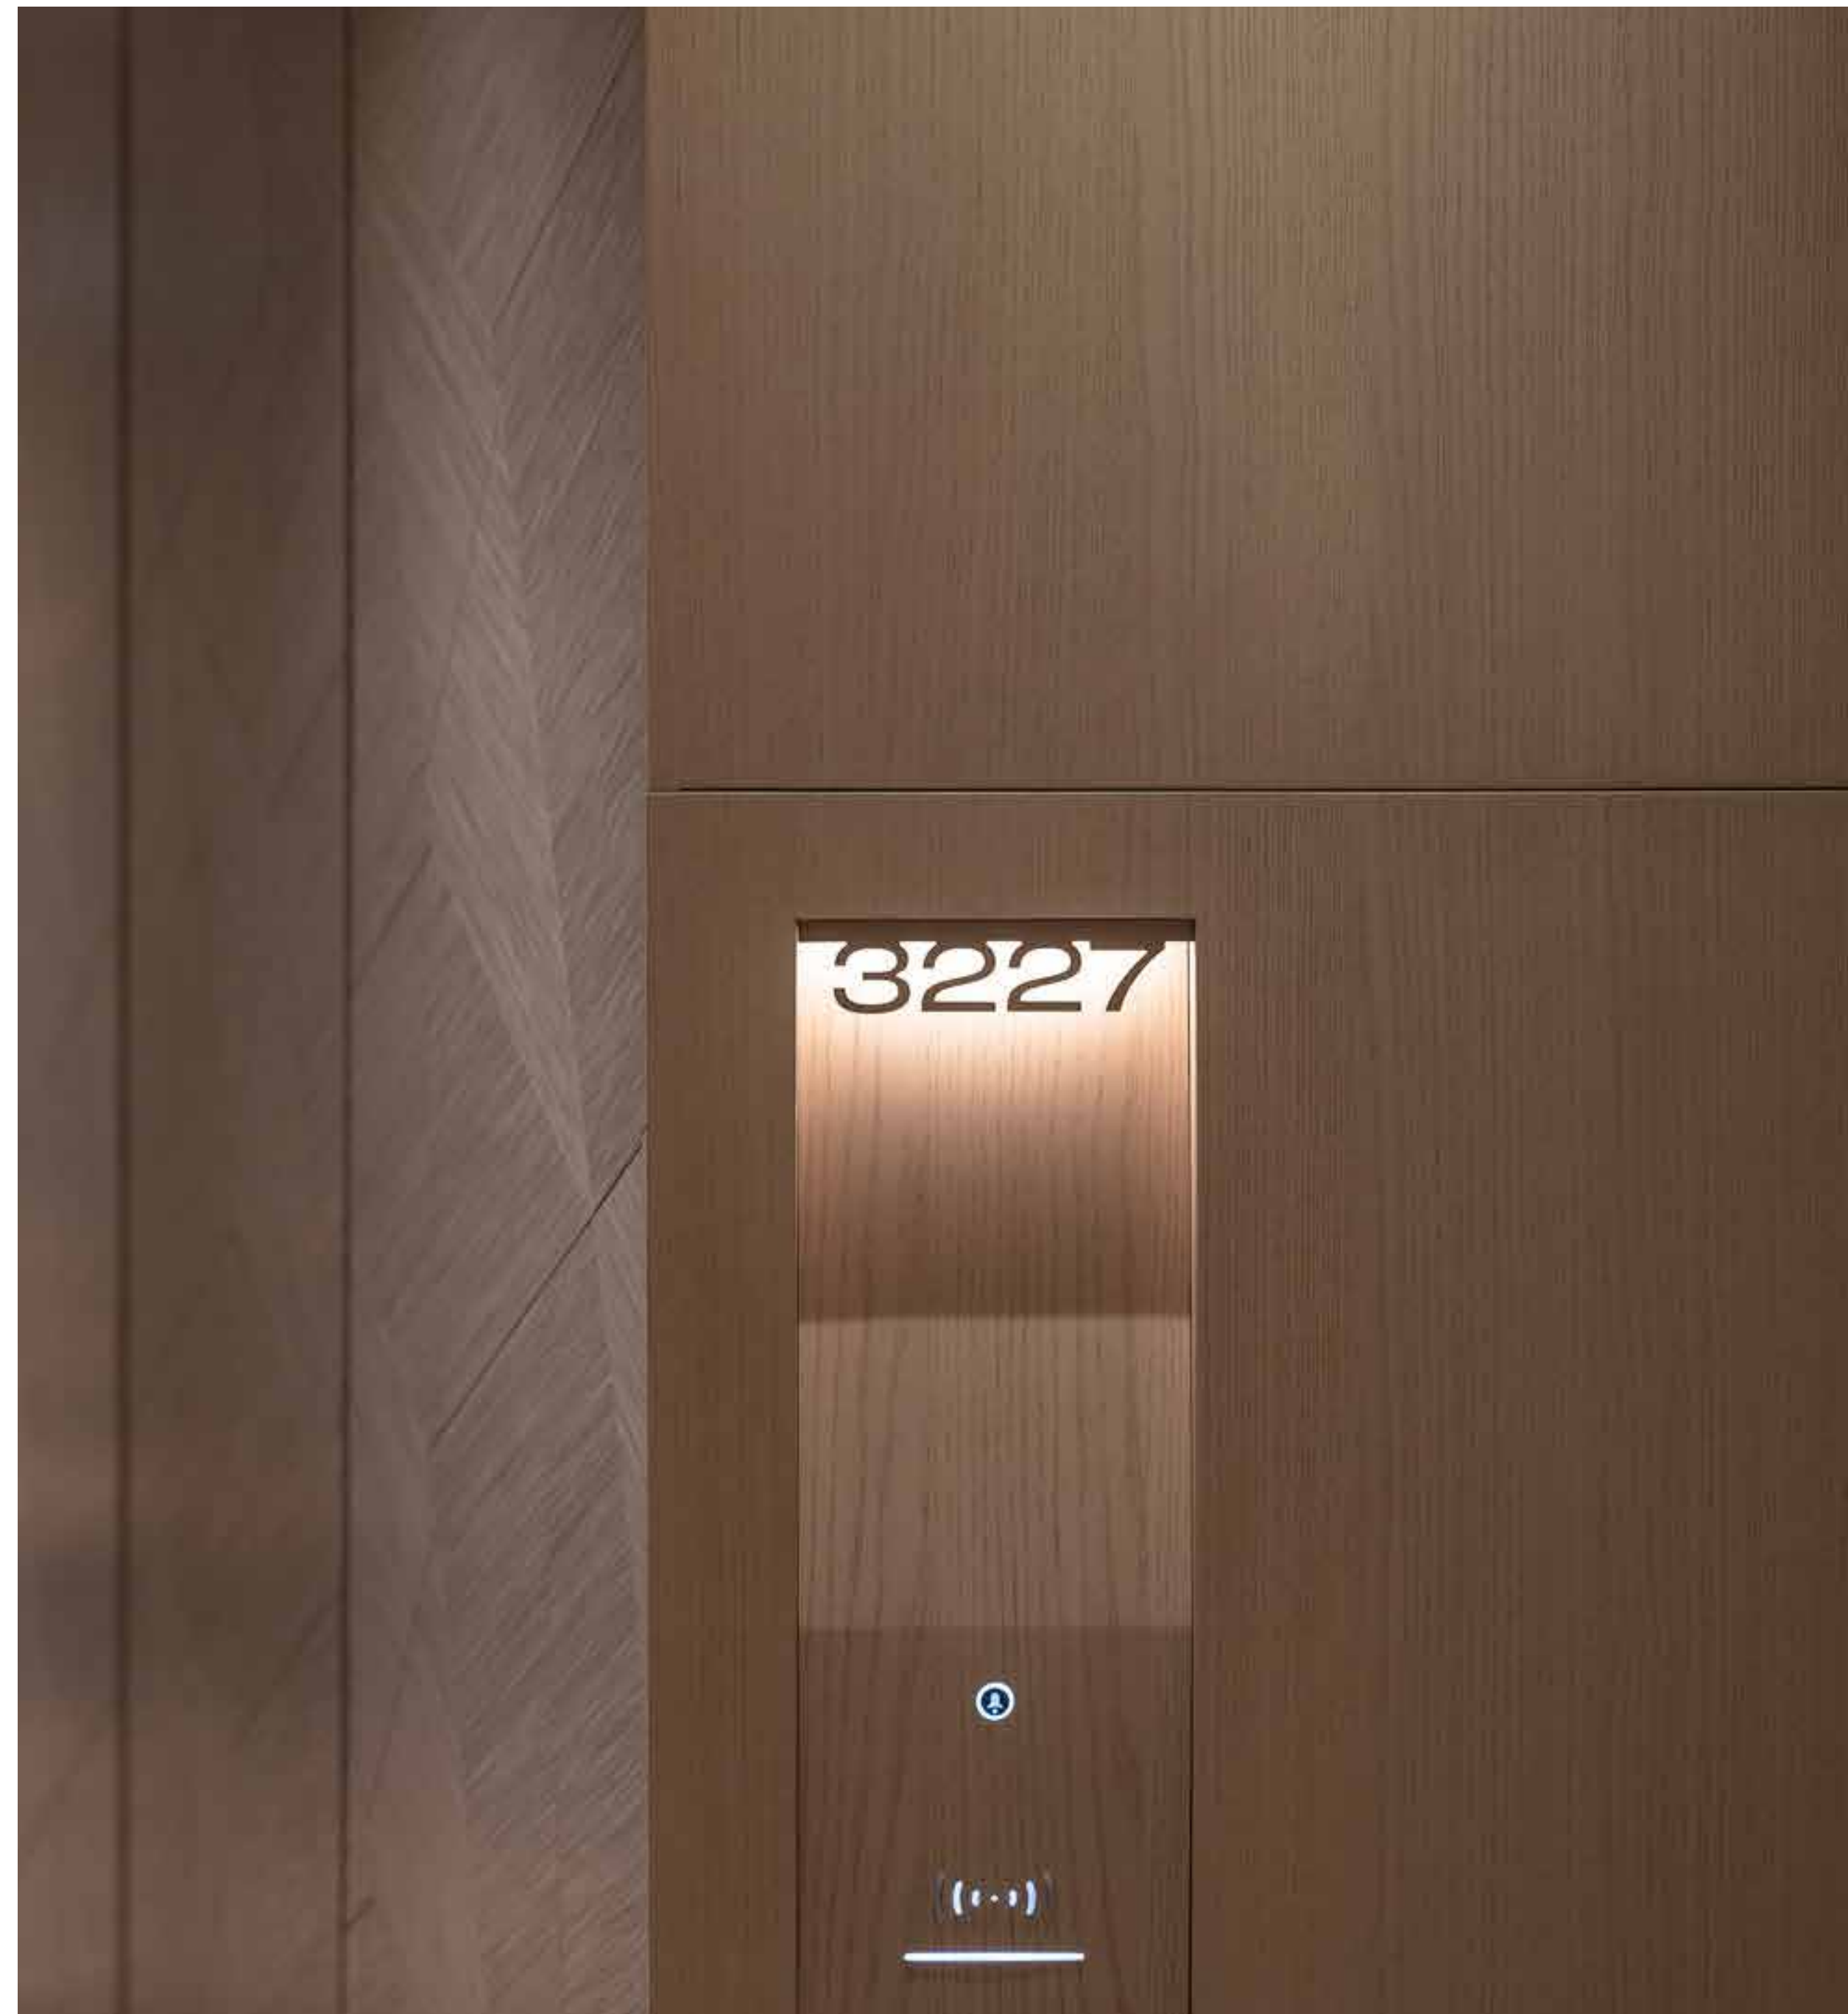

Evidently, such easy navigation within the hotel's grounds can lead to increased in-hotel sales from these divisions, supporting the hotel's upselling strategy.

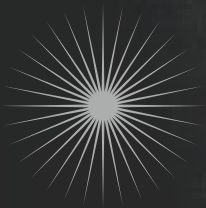

Water Fountain

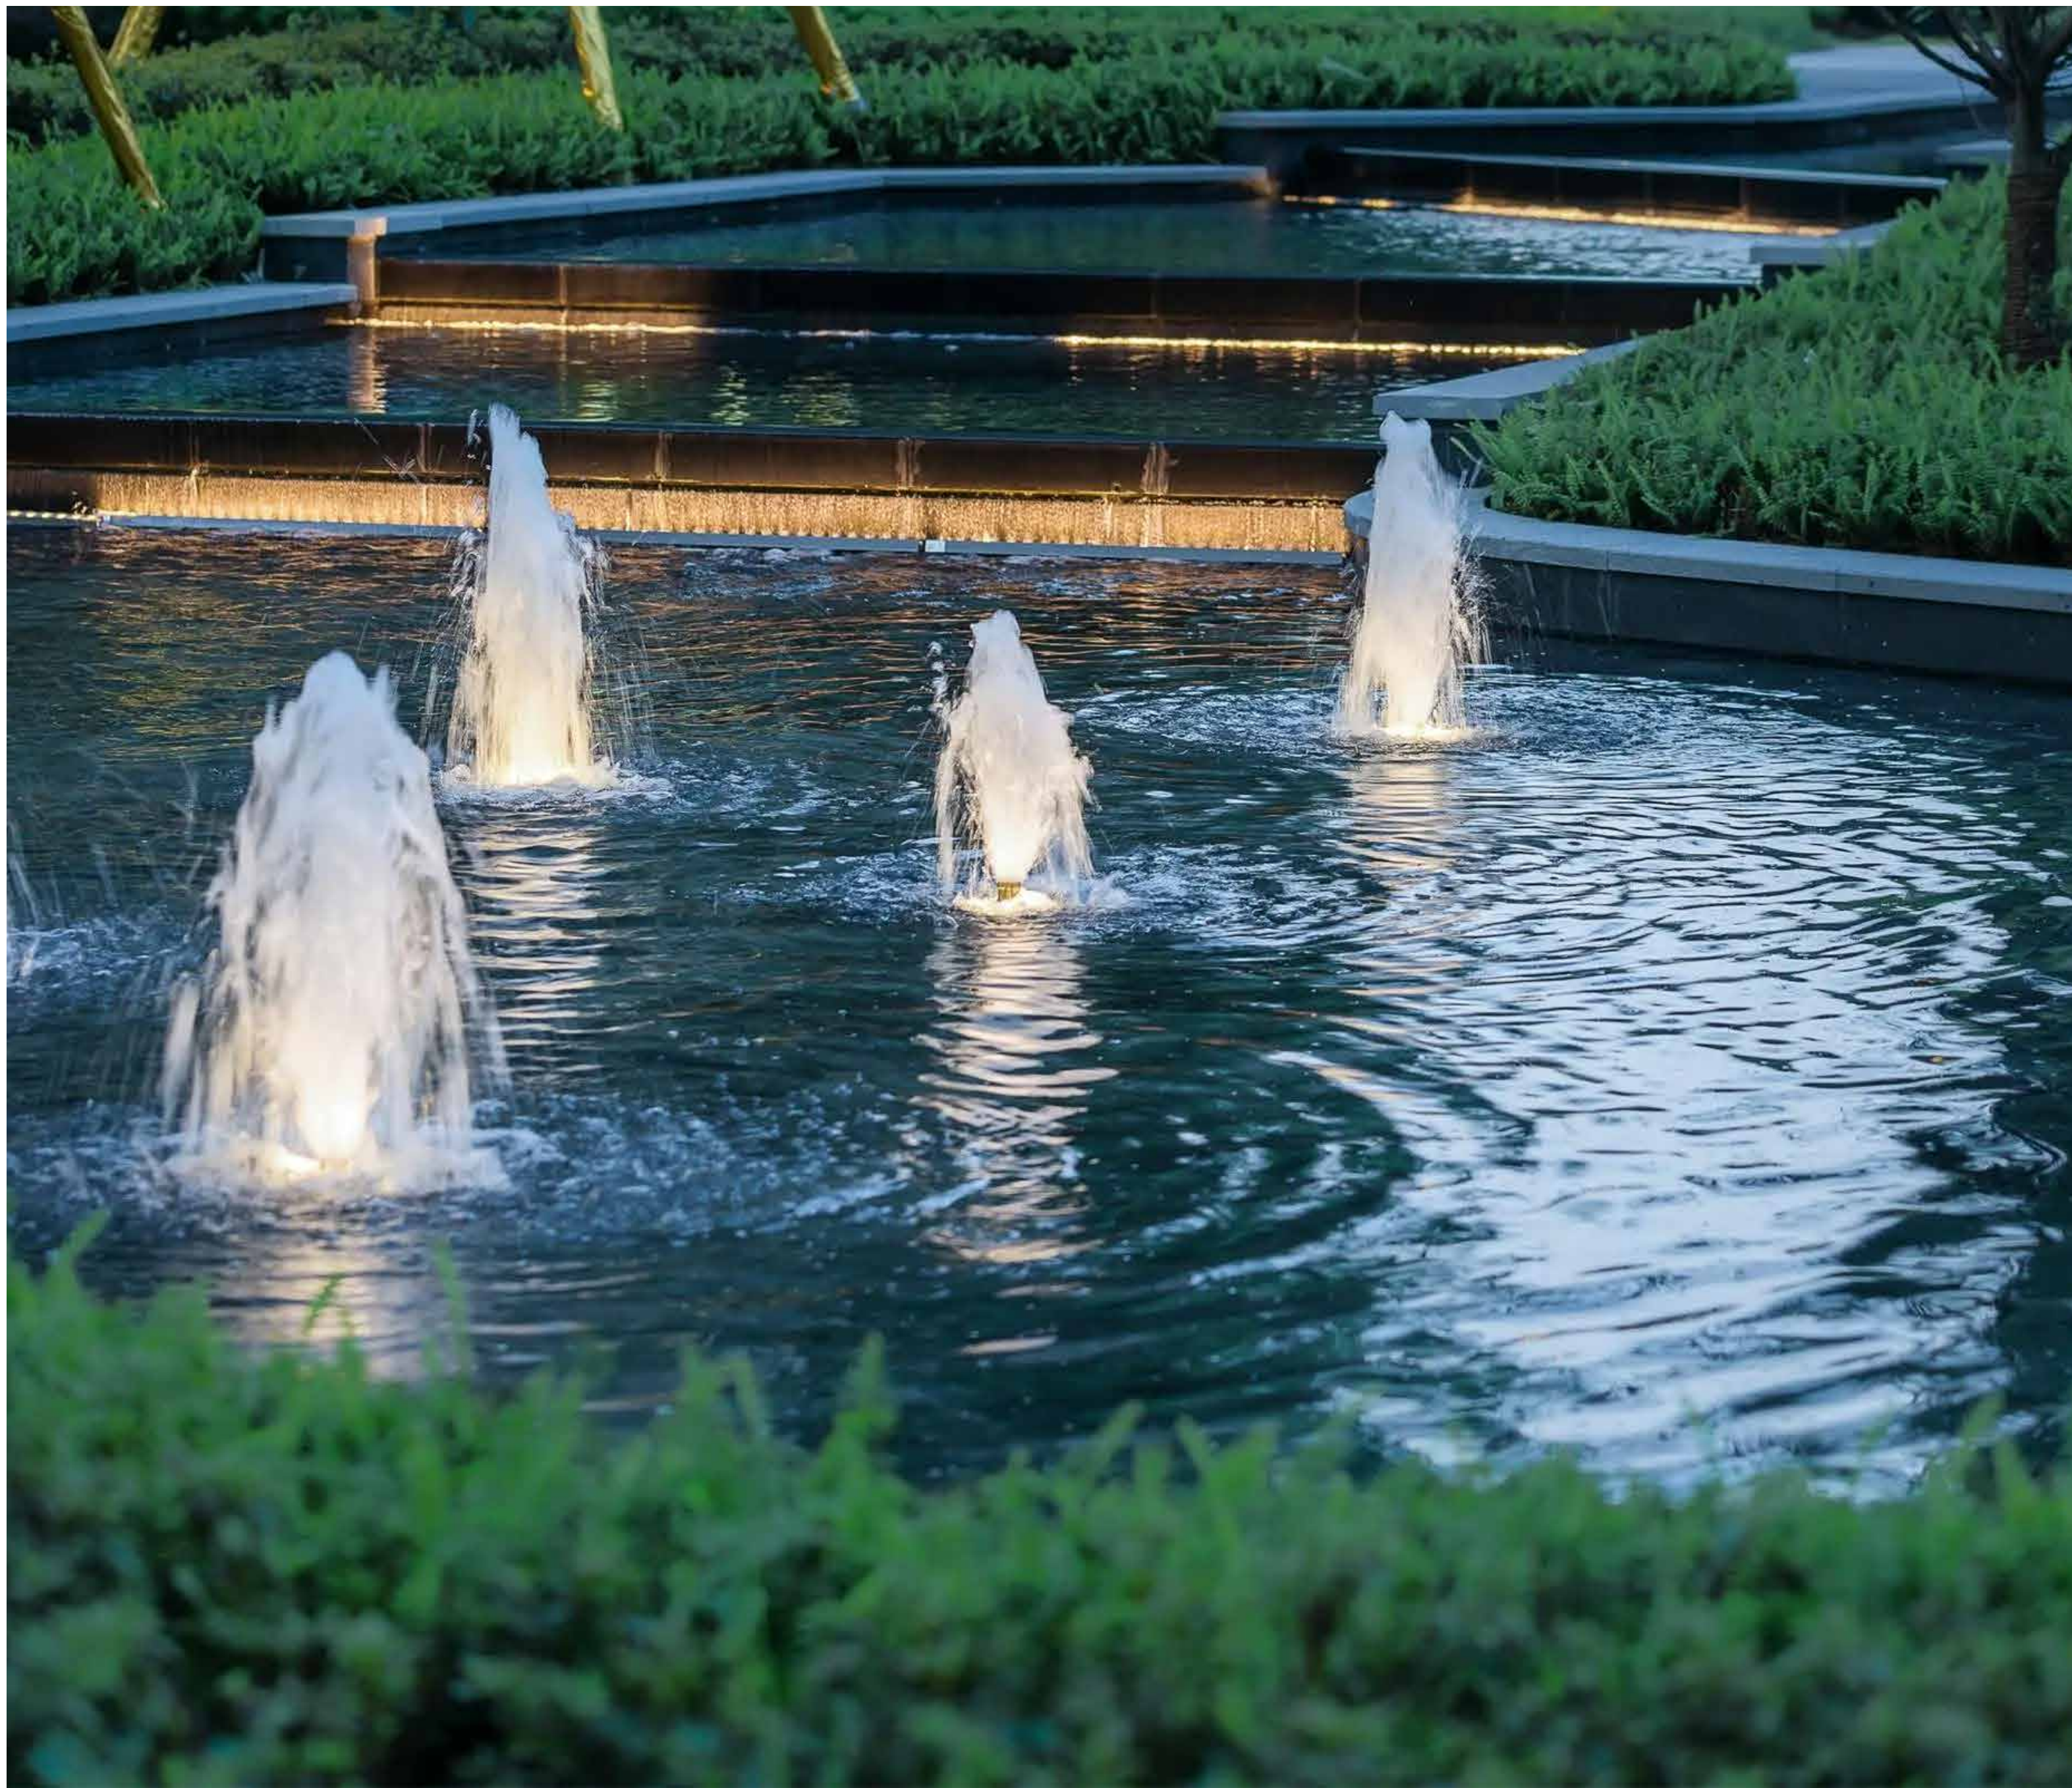

Fountain—Add a peaceful, flowing Water Feature to your hotel and clients will enjoy the enjoyable sound of water and the stunning look of an LED light. Our range of water features are designed to be long-lasting and fit for use outdoors and indoor.

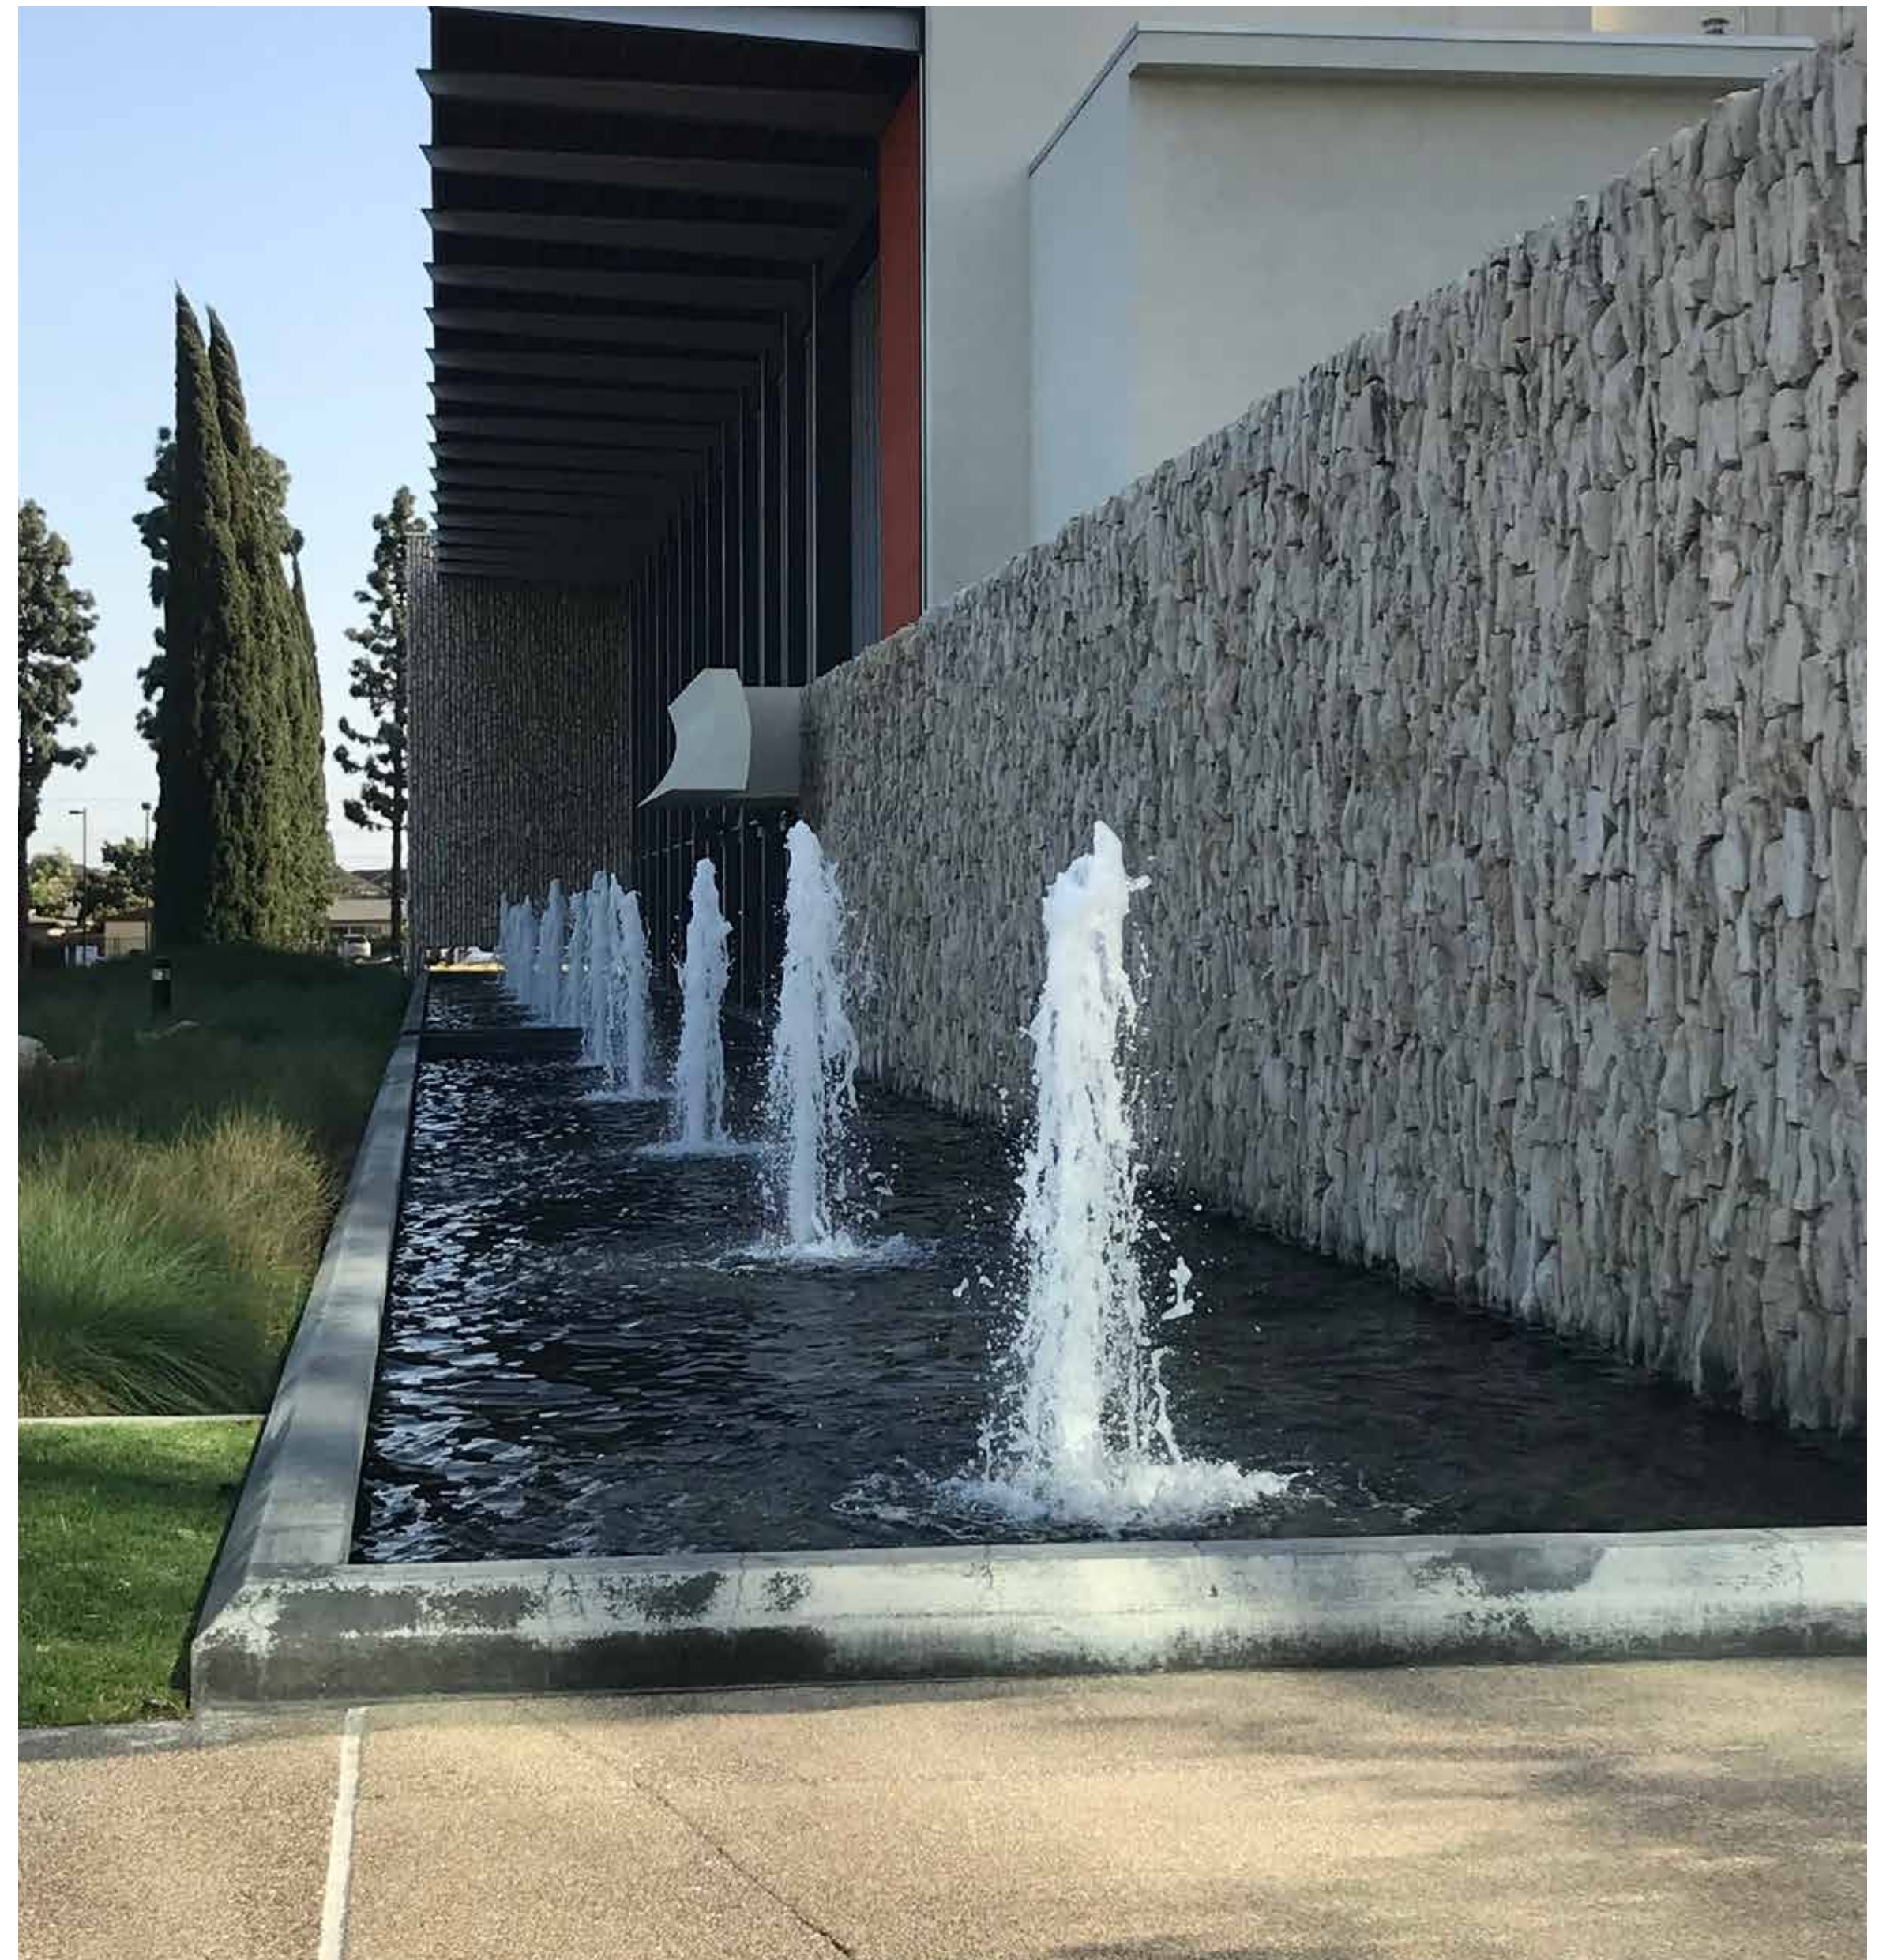

You will find these stunning water features easy to assemble and use. Plus, you will find they add an extra something special to your hotel that helps create a space clients want to spend most of their time in, making them the ultimate hotel accessory.
