ARCHITECTURAL SCULPTURE

Architects are frequently sceptical of the term 'sculptural' when used in relation to buildings and there is good reason for this. When the 'starchitect' phenomenon took off, it was the stylistic form of the building that provided a signature for the starchitect as much as the name itself.

Item Number: VMB-077

CORTEN STEEL SCULPTURE

Corten Steel (COR-TEN) sometimes called Weathering Steel refers to the special chemical composition of the steel, allowing it to exhibit increased resistance to atmospheric corrosion compared to other steels. This is because the steel forms a protective layer on its surface under the influence of the weather. In other words, the steel is allowed to rust in order to form the protective coating.
